Gallo, Garvin, Gill, Girgenti, Gorman, Hardwick, Haytaian, Hendrickson, Herman, Hollenbeck, Jackman, Janiszewski, Kalik, Karcher (Speaker), Kavanaugh, Kelly, Kern, Kosco, LaCorte, Lesniak, Markert, Marsella, Matthews, Mazur, McEnroe, Meyer, Miller, Muhler, Muziani, Naples, Ogden, Palaia, Pankok, Paterniti, Patero, Pellicchia, Pelly, Perun, Riley, Rocco, Rod, Schuber, Shusted, Smith, Thompson, Van Wagner, Villane, Visotcky, Watson, Weidel, Wright, Zangari, Zimmer—72.

The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of State and the State House Press and posted in accordance with the open public meetings law, I declare the General Assembly to be in session.

The Clerk began to read the minutes of the previous meeting. Mr. Doyle moved that the reading of the minutes be dispensed with, which motion was adopted.

The following communications were sent to the desk and read by the Clerk:

N. J. Division of Taxation—Dept. of Treasury, Annual Report—FY 1982.

Public Hearing before General Assembly Revenue, Finance and Appropriations Committee on Assembly Concurrent Resolution No. 175 held January 4, 1983.

Mr. Doyle moved that the communications be received and filed.
Which motion was adopted.

The following 1983 Organization Resolution was read by the Clerk and adopted by the following vote:

Be It Resolved:

1. That John J. Miller, Jr., of Essex County, continue as Clerk of the General Assembly for 1983.

2. That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized, its Speaker being the Honorable Alan J. Karcher of Middlesex County, and its Clerk, John J. Miller, Jr. of Essex County for the Second Annual Session of the Two Hundredth Session of the General Assembly, and has proceeded to business.

3. That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

4. That the working staff of the General Assembly shall be at all times subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

5. That unless otherwise ordered the regular hours of meetings of the General Assembly will be on days and at times to be announced to the members, the news media and the public by the Speaker.

6. That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

7. That in the absence of the Clerk, the Assistant Clerk and Deputy Clerk shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

8. That the "Manual for use in Drafting Legislation for introduction in the New Jersey Legislature," dated October, 1979, prepared and published by the Division of Legal Services, Office of Legislative Services, be adopted as the official manual of practice and procedures of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly.

That in order to carry out the aforementioned practice and procedure, Albert Porroni, Legislative Counsel, and Mary Joan Dickson, Walter R. Kennedy, Maurice Gold, Leonard J. Lawson, Victoria P. Lawler, Marci L. Hochman, James A. Harkness, E. Joan Oliver, Thomas K. Musick, Marvin Jiggetts, Reina Krakower, Evelyn Green and Linda Wong Peres of the Division of Legal Services be designated as counsel to conduct said preliminary examination of bills proposed for introduction and amendments adopted in the General Assembly under the general supervision of the Legislative Counsel.

9. That each member of the General Assembly be authorized to retain up to six aides at a total compensation per member as authorized by law, except the Speaker may authorize more than six aides.

10. That the Legislative Code of Ethics as set forth in 1982 Senate Concurrent Resolution No. 107 be adopted.

11. That the Rules of the 1982 General Assembly be adopted temporarily as the Rules for the 1983 General Assembly, with the following amendment:

Amend Rule 10:1 as follows:

STANDING COMMITTEES

10:1. The following Standing Reference, Administrative, Special and Joint Committees shall be appointed, by the Speaker in accordance with the provisions of Rule 4:6, at the commencement of each annual session, and shall serve for the entire legislative year, unless otherwise ordered:

The Clerk declared a quorum present.

Mr. Aduato proposed the following resolution:

AN ASSEMBLY RESOLUTION directing the General Assembly Banking and Insurance Committee to investigate certain automobile insurance rate increases and classification changes recently approved by the Commissioner of Insurance pursuant to a rate filing by the Insurance Services Office, and calling on the Insurance Services Office to delay implementation of the approved changes pending final action by the Legislature on this matter.

WHEREAS, On January 7, 1983, the Commissioner of Insurance approved an Insurance Services Office rate filing that involves drastic changes in the current classification system and will have a most profound effect on the residents of this State; and

WHEREAS, The commissioner's approval was given in such a manner as to deprive the public and the Legislature of any opportunity to react to and comment on the proposed classification changes; and

WHEREAS, The official news release of the Department of Insurance of January 7, 1983, announcing approval of the Insurance Services Office filing, contained not even a suggestion of the classification changes approved by the commissioner; and

WHEREAS, In view of the questionable nature of the procedures and the wide reaching impact of the rate and classification changes approved on January 7, as well as the Legislature's recent approval of the classification changes contained in Assembly Bill No. 1696, of 1982, implementation of the Insurance Services Office's classification changes cannot but be of short duration and would result in substantial, but wholly unnecessary, additional costs to Insurance Services Office companies and their policyholders in this State; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. The Banking and Insurance Committee of the General Assembly is directed to conduct an immediate investigation into the procedures of the Department of Insurance in approving, on January 7, 1983, rate and classification changes for Insurance Services Office companies, and to determine the impact of these changes on automobile insurance policyholders in this State.

2. The General Assembly respectfully requests the Insurance Services Office and member companies to delay implementation of the aforesaid rate and classification changes until the Banking and Insurance Committee has completed its investigation and the Legislature has had an opportunity to act on the matter.

3. For the purposes of carrying out the terms of this resolution, the committee shall have all of the powers conferred pursuant to chapter 13 of Title 52 of the Revised Statutes.

4. The committee shall be entitled to call to its assistance and avail itself of the services of employees of the State of New Jersey, of any political subdivision of the State or an agency thereof, as may be required and as may be available for that purpose, and to employ stenographic and clerical assistants and incur traveling and other miscellaneous expenses as may be deemed necessary, in order to perform the duties provided herein, and within the limits of funds appropriated or otherwise made available for that purpose.

5. The committee shall report its findings and recommendations to the General Assembly upon the completion of its inquiry, accompanying same with any legislative bills which it may deem to recommend for adoption by the Legislature.

6. A duly authenticated copy of this resolution, signed by the Speaker of the General Assembly and attested to by the Clerk, shall be forwarded to the Governor of the State of New Jersey, the Speaker of the General Assembly, the Commissioner of Insurance, the Public Advocate, and the Chief Executive Officer of the Insurance Services Office.

Which was read by the Clerk and adopted by voice vote.

Mr. Rod asked for the record on Assembly No. 1867, which was furnished by the Clerk.

Mr. Rod moved that Assembly No. 1867, as amended, be placed back on second reading for purposes of further amendment, which motion passed by voice vote. Mr. Rod moved the adoption of the amendments, which motion passed by voice vote. The bill as further amended was given second reading.

CORRECTED COPY

ASSEMBLY BILL NO. 2085

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2085 with my objections and recommendations for amendment.

This bill would validate the bond proceedings of any municipality notwithstanding the fact that it failed to prepare and file a supplemental debt statement as required by the provisions of N. J. S.

40A:2-10. This validation would be effective provided no suit has been commenced nor any suit is commenced within 30 days after the effective date of the act challenging the proceeding. I am returning the bill for a technical correction to provide that the supplemental debt statement must be filed in order to qualify for the validation. In my opinion a validation act should require subsequent correction of the mistake where correction is possible. In this case to qualify for the validation, the municipality should be required to subsequently file its supplemental debt statement.

Accordingly, I herewith return Assembly Bill No. 2085 and recommend that it be amended as follows:

Page 1, Section 1, line 10: After "that" insert "a supplemental debt statement heretofore has been prepared and filed in the places required by N. J. S. 40A:2-10 and provided further that"

ASSEMBLY JOINT RESOLUTION No. 57

To the General Assembly:

Pursuant to Article V. Section I, Paragraph 14 of the Constitution, I herewith return Assembly Joint Resolution No. 57 with my objections and recommendations for amendment.

This bill directs the Commissioner of the Department of Community Affairs to undertake a study of the feasibility of creating a lease-purchase program for the benefit of first time home buyers. The study is to make recommendations concerning the proper role of governmental agencies in such a program, how private investors could be attracted to the program and to coordinate the program with local efforts to return to private use tax foreclosed properties. In conducting the study the Commissioner is to consult with the Commissioner of Banking and other governmental and private persons with expertise in the matter.

The Resolution directs the Commissioner to report to the Legislature the results of his study within six months of the Resolution's effective date. I am recommending that the bill be amended to give the Department additional time in which to complete the study. I am advised at this time due to budget constraints and other responsibilities, the Department may not have sufficient revenues or personnel to handle a study of this nature within the next six months. Accordingly, I recommend that the six month limitation be eliminated and that the Department be directed to complete the study as soon as advisable.

Therefore, I herewith return Assembly Joint Resolution No. 57 and recommend that it be amended as follows:

ASSEMBLY BILL No. 452 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 452 with my objections and recommendations for amendment.

The purpose of this bill is to amend a section of the Criminal Injuries Compensation Act of 1971, N. J. S. 52:4B-18, so as to permit the Violent Crimes Compensation Board to compensate crime victims when the offender is the victim's relative or a member of the victim's household. The bill would permit compensation to a victim who either does not live in the same household, cooperated with the prosecution, or are not presently living together.

Under present law, when a victim is related to the offender or is a member of the offender's household he cannot be compensated. Often this works an injustice on persons who are separated or who separate immediately after the violent act is committed. The bill, as amended by the Legislature, enables persons who are separated, or who separate after the violent act, or who assist with the prosecution of the offender to be compensated for violent crimes committed upon them by their estranged members of their family.

The Legislature, at the request of the Violent Crimes Compensation Board, attempted to make the bill prospective in nature. The amendment states that the act "shall apply only to the claims received after the effective date of the act." The intent was to not allow victims of domestic violence who were injured in the past when the law excluded them from the class of eligible recipients to now be able to receive awards for those injuries. The amendment does not fully close this loophole. Since the act contains a two-year filing deadline, if someone was injured by a relative a year ago, when they were ineligible to receive an award, but filed a claim next month after this bill is signed, they might be an eligible recipient under current law. To close this loophole I propose an amendment to make the bill clear that it only applies to claims received *for injuries which occurred after* the effective date of this act. The Violent Crimes Compensation Board and the bill's sponsor, Assemblyman Girgenti, agree with the proposed change.

In addition, Section 18 of the Criminal Injuries Compensation Act contains a provision for a 2-year filing deadline. This section also contains the criteria to be used by the board in making their determinations. This section does not, however, contain a time limit for the board for the processing of a victim's claim for compensation. At times, a victim can wait approximately one year or more for his claim to be processed. This is inexcusable. Victims of violent crimes suffer too much, both physically, mentally, and economically, and the State has an obligation to assist them as soon as possible. As such, I propose the bill be amended to impose a six-month time deadline on the Violent Crimes Compensation Board from the time they acknowledge receipt of the completed application and all necessary information for the processing of a victim's claim. The Violent Crimes Compensation Board and the bill's sponsor, Assemblyman Girenti, support this amendment.

Therefore, I herewith return Assembly Bill No. 452 (2nd OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 8: after "." INSERT "The board will make its determination regarding the application within 6 months of acknowledgement by the board of receipt of the completed application and any and all necessary supplemental information."

Page 2, Section 2, Line 2: after "act" INSERT "for injuries which occurred after the effective date of this act"

Respectfully,

ASSEMBLY BILL No. 1269 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1269 (OCR) with my recommendations for reconsideration.

This bill would permanently allocate to the classified service of Civil Service all permanent positions and employments which existed in the Hudson County Youth House on January 1, 1982 and which can be so allocated, making them subject to the provisions of the part of the Civil Service law dealing with counties, municipalities and school districts. It would also provide for the certification to the Civil Service Commission of the names of the employees who, on the date the certification is made, are employed in the allocated positions and who were permanently so employed on January 1, 1982, without examination and retroactive to the date of their permanent employment in their respective positions.

Prior to the adoption of the Optional County Charter Act by Hudson County, employees of the Hudson County Youth House were not subject to the provisions of Civil Service since they served at the pleasure of the Board of Trustees. With the adoption of the Optional County Charter Act approximately 7 years ago, the Youth House was disbanded as a semi-autonomous agency, thereby subjecting its employees to Civil Service law and rules. A similar circumstance existed for the employees of the Union County Park Commission, who were not subject to Civil Service until that County adopted a change in the form of government. In order to assist longtime employees of the Park Commission, the Legislature adopted P. L. 1981, c. 15, which generally provided that these individuals could receive a permanent appointment after having passed a qualifying examination rather than the competitive examination. I think the procedure for the Union County Park Commission should be adopted here. While the bill before me does not require any type of testing, I nonetheless believe that a qualifying test should be given to the individuals of the Hudson County Youth House to ensure fitness.

Accordingly, I herewith return Assembly Bill No. 1269 (OCR) and recommend that it be amended as follows:

Page 2, Section 2, Line 14: Delete "without" and insert "after passing a qualifying".

ASSEMBLY BILL No. 1619 (2ND OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1619 (2nd OCR) with my recommendations for reconsideration.

This bill makes a number of substantive and technical changes in the statute governing the practice of veterinary medicine in New Jersey (N. J. S. 45:16-1 et seq.).

I am concerned that while this bill attempts to modernize the New Jersey Veterinary Practice Act, the enactment of certain provisions would be contrary to New Jersey's public interest in the safety, health and welfare of its animal population.

There are currently 801 veterinarians in New Jersey. Therefore, based on a figure of approximately 3,000,000 *owned* cats and dogs in this State, there is only one veterinarian per 3,750 pets. New

Jersey is not the only state which suffers from a deficiency in number of veterinarians; this is a nationwide dilemma. In response to the veterinary medicine profession's slow rate of membership growth, as compared to animal population growth, there have been established "humane societies," owned and operated as profit or non-profit organizations by both veterinarians and non-veterinarians alike. These organizations provide for the much needed services of anesthetization, inoculation, spaying and castration of cats and dogs by licensed veterinarians and by graduates of animal technician schools when performed under a licensed veterinarian's reasonable supervision. There is a clear *national trend* favoring humane societies, with 900 such organizations currently existing across the nation. New Jersey presently has several such organizations, which perform spaying, castrations and inoculations, and their vital role should be continued.

Section 8 of this bill amends N. J. S. 45:16-8.1 to provide that "properly trained animal health technicians or other properly trained technicians" may perform medical functions *only* under the *employ* of a licensed veterinarian; and that they *may not initiate* treatment. If this were to become law, it would eliminate all humane societies owned by non-veterinarians with paraprofessionals functioning under supervision of licensed veterinarians. It should only matter that a paraprofessional be under the immediate and responsible supervision of a licensed veterinarian, not that he be employed by him. It should also only matter that a paraprofessional limit his function to that which the law allows, not that he be prohibited from initiating the services for which he is trained, such as giving inoculations.

As originally written, section 14 of this bill would have required all corporations, including "not for profits," to be owned exclusively by licensed veterinarians. Most humane societies which offer basic services at reduced costs are not owned by veterinarians, and due to objections raised, this has been amended to exempt nonprofit organizations. However, as now amended, this bill still prohibits ownership by non-veterinarians in *all* corporations operating "for profit." This poses a great problem also. Many humane societies cannot financially withstand the continual lawsuits filed against them challenging their tax exempt status. They give up their non-profit benefits to continue to exist. If this bill is enacted, as written, should an incorporated humane society not owned by licensed veterinarians lose its tax exempt status and be re-incorporated as a profit corporation, it will be forced to cease operation. Further, there are currently existing in this State "for profit" corporations, with non-veterinarian shareholders and partners, which operate to offer the services of spaying, castration and inoculations. They provide "humane society" services, but operate as profit corporations. These corporations should be exempted from coverage in section 14.

Accordingly, I herewith return Assembly Bill No. 1619 (2nd OCR) and recommend that it be amended as follows:

Page 2, Section 3, line 16: Delete "sixth" and insert "fifth"

Page 5, Section 8, line 42A: Delete "employed by and"

Page 5, Section 8, lines 42F-6: Delete "or initiate treatment"

Page 5, Section 10, line 1: After "facility" insert "included under section 6 of this Act, as amended,"

Page 9, Section 14, line 7: At the end of section insert "However, this section shall not apply to corporations incorporated under Title 14A of the New Jersey Statutes, which limit the scope of their function to providing the animal health care services of spaying, castration, anesthetization and inoculations."

Page 9, Section 15, line 4: After "employ" insert "as assistants"

Page 9, Section 15, line 6: Delete "assistant has" and insert "assistants have"

/s/ THOMAS H. KEAN,

ASSEMBLY JOINT RESOLUTION No. 66

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Joint Resolution No. 66 without my signature.

I fully support the purpose behind this resolution which is designed to draw attention to and assist the charitable activities of the New Jersey Council of Organizations for Autistic Children and Adults by designating a "State Autistic Week".

Regrettably, due to the time frame surrounding the passage of Assembly Joint Resolution 66, I am forced to return it unsigned. The resolution was not presented to me until December 7, 1982. Yet it designated December 5, 1982 through December 11, 1982 as "State Autistic Week". Consequently, I could not issue the appropriate proclamation in time to so designate that week.

Recognizing the invaluable services these charitable organizations render to our State, I feel it is only fitting that they be acknowledged, along with their work and the autistic children and adults they represent. I understand that a "National Autistic Week" is proclaimed each year. Therefore, I will designate, by proclamation, a "State Autistic Week" for 1983 to coincide with the celebration of National Autistic Week once that week has been officially designated.

Respectfully,

ASSEMBLY BILL No. 1286 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1286 (2nd OCR) without my signature.

This bill requires the governing body or administrator of any local unit, or the State Treasurer, to make arrangements with respect to any payroll check or other check due and payable to any municipal, county or State employee, for the cashing of the checks at a depository institution located within a reasonable distance of the regular place of employment of the officers or employees. A "depository institution" is defined as a state chartered or federally chartered bank, savings bank, or savings and loan association having its principal office in New Jersey.

The State of New Jersey as an employer maintains one payroll bank account, through which all payroll checks are processed. This payroll account is handled as a zero balance account, i.e., each day the account balance is zero, and only amounts equal to the checks paid each day are deposited in the account. This permits the investment of the remainder of the payroll for the purpose of producing approximately \$1.5 million a year in earnings, since the bi-weekly payroll is approximately \$32 million. New Jersey has 65,000 employees residing throughout the State. There are 567 municipalities in the State, 520 of which have at least one bank. It is reasonable to assume the State's employees reside in just about every municipality in New Jersey.

As proposed, this bill would effectively preclude us from earning income on payroll deposits because we could no longer use the zero balance account procedure, and because we would be required to maintain deposits in demand accounts scattered throughout the State. In addition, a great amount of effort would be required to calculate deposit requirements for each bank, and to assure that the deposits are timely made for each bi-weekly paid period. Each new bank account opened would also require a monthly reconciliation of the bank account.

New Jersey law requires that any bank holding the State's funds must provide for deposit insurance or collateralize the deposit. Therefore, any deposit amounts in excess of \$100,000 would require the bank to pledge collateral securities equal to 120% of the highest daily balance of the preceding month. It would be extremely difficult for the State to find banks willing to tie up such amounts of securities. Also, the State by law would be required to maintain and monitor records of such collateralization to assure compliance with banking regulations and to protect the State's assets.

This bill would require that the depository institutions maintaining payroll accounts be located a "reasonable distance" from the State employees' regular places of employment. However, this bank location standard is not defined, and is therefore susceptible to various interpretations. As there are numerous State employees residing in Pennsylvania and New York, implementation of this bill could force the State to patronize out of state banks in order to service its nonresident employees. This would frustrate New

Jersey's long time practice of maintaining bank accounts in New Jersey.

I respect the sponsor's zeal and conviction in obtaining passage of A-1286, but I nonetheless must return it without my approval. While the intent of this bill represents a valid cause, its implementation would cause significant reductions in State investment income and impose unmanageable financial and accounting procedures for the State.

Accordingly, I herewith return Assembly Bill No. 1286 (2nd OCR) without my signature.

Respectfully,

[SEAL]

To the Clerk of the New Jersey General Assembly:

Assembly Bill No. 2315 requires that I certify that I have implemented a reduction in authorized expenditures of \$30 million from the amount of the appropriations authorized under Public Law 1982, Chapter 49. Please find enclosed a copy of Executive Order No. 30 in conformance therewith.

I have also attached a list of proposed expenditure reductions that have been submitted to me by the Division of Budget and

Accounting which I am considering implementing to more specifically comply with Executive Order No. 30.

I do hereby certify that the actions taken under Executive Order No. 30 have brought the Executive Department into compliance with Assembly Bill No. 2315.

Respectfully submitted,
THOMAS H. KEAN,
Governor.

EXECUTIVE ORDER NO. 30

Whereas, I have been advised by the State Treasurer that both revenues on hand and revenues anticipated for the remainder of this fiscal year may be inadequate in amount to allow for expenditures authorized by the Fiscal Year 1983 Annual Appropriations Act, P. L. 1982, c. 49; and

Whereas, P. L. 1982, c. 227 (Assembly Bill No. 2315) states and requires that the Governor shall certify to the Legislature by January 15, 1983 that a reduction in authorized expenditures in the amount of \$30,000,000.00 has been made for the fiscal year ending June 30, 1983, except that this reduction shall not come from any State Aid account; and

Whereas, it is my Constitutional and statutory duty and responsibility as Chief Executive of this State, pursuant to Article VIII, Section 2, Paragraph 2 of the State Constitution, and R. S. 52:27B-26, P. L. 1944, c. 112, to make necessary spending cuts and establish necessary reserve accounts to ensure that expenditures shall not exceed the amount of revenues on hand and to be anticipated during the remainder of this fiscal year and to ensure that the State has a balanced budget at the end of this fiscal year;

Now, Therefore, I, Thomas H. Kean, Governor of the State of New Jersey, by virtue of authority vested in me by the Constitution and laws of this State do hereby *Order* and *Direct*:

1. That the State Treasurer and the Director of the Division of Budget and Accounting shall make expenditure reductions from Fiscal Year 1983 State spending in an amount not to exceed \$30,000,000, to be taken from expenditure items other than State Aid Accounts.

2. That no reduction shall be made in any appropriation contained in the Fiscal Year 1983 Annual Appropriations Act for the payment of debt service on obligations of the State or other jurisdictions, and that no spending reduction shall be made in any employee benefits accounts, including pension benefits and social security.

3. That the State Treasurer and the Director of the Division of Budget and Accounting shall take appropriate action to ensure that \$50 million of the May 1983 for Revenue Sharing and Business Personal Property Tax Replacement programs be deferred and held in escrow until such time as I am assured and do certify that sufficient revenues are and will be available to assure that the Constitu-

tional requirement for a balanced budget for Fiscal Year 1983 can and will be realized; this reserve shall be in addition to the immediate cuts authorized in paragraph 1.

4. I do hereby certify to the Senate and General Assembly of the State of New Jersey that by this action a reduction in authorized expenditures in the amount of \$30,000,000 has and will be effectuated in conformance with the requirement of section 10, P. L. 1982, c. 227 (Assembly Bill No. 2315), and I direct that a copy of this Executive Order be filed with the Clerk of the General Assembly and Secretary of the Senate in conformance therewith.

5. That this Executive Order shall take effect immediately.

Given, under my hand and seal this 17th day of January in the year of Our Lord, one thousand nine hundred and eighty-three, of the Independence of the United States, the two hundred and seventh.

ASSEMBLY BILL No. 1244 (OCR)

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1244 (OCR) with my objections and recommendations for amendment.

The purpose of this bill is to authorize the Department of Environmental Protection to license operators of water supply and wastewater treatment plants and systems. Pursuant to the bill, a license will be granted to a system operator upon passage of an examination conducted by the Department and administered by a board of examiners composed of licensed operators and employees of the Department.

However, the bill also provides that a licensed operator who has three consecutive years of service may not be removed or subjected to a reduction in salary except for cause and after a public hearing. This provision is unnecessary and is inimical to the purpose of the bill which is to ensure that operators are highly qualified and perform their duties to the highest standards achievable. Such a tenure provision tends to reduce innovation and promote inefficiencies. Moreover, the degree of insulation that these operators require from political manipulation, the justification sometimes given for such a tenure provision, is provided by the licensing procedure itself which will effectively prohibit the politically

motivated employment of unqualified persons as operators of water supply and wastewater treatment systems.

Therefore, I herewith return Assembly Bill No. 1244 (OCR) and recommend that it be amended as follows:

ASSEMBLY JOINT RESOLUTION No. 24

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Joint Resolution No. 24 with my objections and recommendation for amendment.

This resolution directs the Division of Parks and Forestry in the Department of Environmental Protection to prepare and submit to the Legislature by March 1, 1983 a master plan for the efficient management of the State's forest lands consistent with environmental and conservation goals.

Obviously, March 1 of this year is an unrealistic time deadline for the preparation of this master plan. It is appropriate that this deadline be extended to provide a more reasonable time period for the completion of the Department's work pursuant to the resolution.

Therefore, I herewith return Assembly Joint Resolution No. 24 and recommend that it be amended as follows:

Page 2, Section 2, Line 3: After "March 1," delete "1983" and insert "1984".

Respectfully,

Governor.

Mr. Doyle moved that the messages be spread in full upon the minutes.

Which motion was adopted.

Mr. Doyle offered the following resolution which was read by the Clerk and adopted:

Resolved, That pursuant to paragraph a. of Rule 20:6 the following Assembly Bills, conditionally vetoed by the Governor, be and are hereby given first reading for the purpose of re-enactment:

Assembly No. 1244 and Assembly Joint Resolution No. 24.

Further Resolved, That they be amended in accordance with the Governor's recommendations and advanced to second reading by special order.

On motion of Mr. Littell, Assembly Joint Resolution No. 24 was amended in accordance with the Governor's recommendations.

The following bills, as amended pursuant to the Governor's recommendations, were given second reading by special order:

Assembly No. 1244 and Assembly Joint Resolution No. 24.

Mr. Schwartz offered corrected amendments to Assembly Joint Resolution No. 57 in accordance with the Governor's recommendations:

The corrected amendments were adopted.

The Clerk read a message from the Senate that the Senate has passed the following bill in which the concurrence of the General Assembly is requested, which bill was read for the first time and given no reference.

Senate No. 3072.

On motion of Mr. Doyle, Senate No. 3072 was given second reading by special order.

The Clerk read a message from the Senate that the Senate has passed the following bills in which the concurrence of the General Assembly is requested, which bills were read for the first time and referred to the committee indicated:

Senate No. 3034, State Government, Civil Service, Elections, Pensions and Veterans Affairs Committee.

Senate No. 3075, Revenue, Finance and Appropriations Committee.

Senate No. 3076, Revenue, Finance and Appropriations Committee.

Assembly No. 872, with Senate committee amendments, without reference.

And

Assembly No. 1856, with Senate committee amendments, without reference.

On motion of Mr. Doyle the following bills were transferred to committees as indicated:

Assembly No. 873 was transferred from the Revenue, Finance and Appropriations Committee to the Municipal Government Committee.

Assembly No. 1091 was transferred from the Commerce and Industry Committee to the Judiciary, Law, Public Safety and Defense Committee.

Assembly No. 1901 was transferred from the Labor Committee to the County Government Committee.

Assembly No. 2274 was transferred from the Municipal Government Committee to the Judiciary, Law, Public Safety and Defense Committee.

Assembly No. 479 was transferred from the Judiciary, Law, Public Safety and Defense Committee to the Banking and Insurance Committee.

On motion of Mr. Rod Assembly No. 1867 was referred to the Commerce and Industry Committee for further consideration.

On motion of Mr. Doyle, Mr. Marsella was named as prime sponsor of Assembly Committee Substitute for Assembly No. 1611.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
OFFICE OF THE GOVERNOR,
January 31, 1983. }

Honorable Alan J. Karcher
Speaker of the General Assembly
State House
Trenton, New Jersey 08625

To the Speaker and Members of the General Assembly:

Pursuant to P. L. 1969, c. 203 (C. 52:14C-1 *et seq.*), known as the "Executive Reorganization Act of 1969," I submit herewith a Reorganization Plan for the Department of Education and the Department of State which would transfer the Division of the State Museum and the New Jersey Historical Commission from the Department of Education to the Department of State.

There has been a recent transfer of the Arts Council from the Department of Education to the Department of State, and the purpose for the reorganization is to further concentrate the cultural

entities of the Historical Commission and the State Museum within the Department of State.

Sincerely,

THOMAS H. KEAN,

Governor.

REORGANIZATION PLAN OF THE DIVISION OF THE STATE MUSEUM
NEW JERSEY HISTORICAL COMMISSION
FUNCTIONS WITHIN THE DIVISION OF THE STATE LIBRARY
FROM THE DEPARTMENT OF EDUCATION
TO THE DEPARTMENT OF STATE

The Division of the State Museum, in the Department of Education, together with all its functions, powers and duties, pursuant to N. J. S. A. 18A:73-1 *et seq.* and the New Jersey Historical Commission, in the Department of Education, together with all its functions, powers and duties, pursuant to N. J. S. A. 18A:73-21 *et seq.* are hereby transferred to the Department of State. All powers exercised by the Commissioner of Education, the State Board of Education and the State Librarian in direct supervision of the Division of the State Museum and New Jersey Historical Commission, are hereby transferred to the Department of State and shall be executed by the Secretary of State or his designee.

The New Jersey State Museum, as presently organized, under N. J. S. A. 18A:73-1 *et seq.* performs among other things the traditional functions of collecting, exhibiting and interpreting in the areas of natural history, archaeology/ethnology and fine arts in America with a New Jersey/Eastern United States focus. Long-term exhibitions utilize loan materials in conjunction with collection materials to treat timely issues, historic movements or events, and contemporary expression. Both long-term and short-term exhibits are interpreted through publications and through programs designed for school groups and the general public. Outreach activities include traveling exhibits, specimen loans and a film loan service.

The New Jersey State Museum pursuant to N. J. S. A. 18A:73-2 is a Division which consists of a Director and an Advisory Council and such other personnel as the Commissioner of Education deems necessary for its administration. This Advisory Council within the Division of the State Museum is called the Advisory Council of the State Museum and consists of five members appointed by the Governor. Under the reorganization, all who currently are members of the Advisory Council of the State and the Director of the State Museum shall continue according to their respective terms of office. The duties and functions of the Advisory Council of the State Museum and the Director of the State Museum shall remain the same upon the Reorganization.

The New Jersey Historical Commission, as presently organized under N. J. S. A. 18A:73-21 *et seq.* is responsible among other things for advancing public knowledge of the history of New Jersey. To do this, it sponsors public programs, research projects, publications

and commemorative observances and grant-in-aid programs for scholars, teachers and local historical organizations. It offers information and assistance to public and private organizations and individuals. In furtherance of its aims, the Commission is empowered by statute to seek and receive funds other than State appropriations.

The New Jersey Historical Commission pursuant to N. J. S. A. 18A:73-22 currently has twelve members, two members from the Senate, two members from the Assembly, six citizens appointed by the Governor, confirmed by the Senate, the State Librarian and the chief of the Office of Historical Preservation of the Department of Environmental Protection.

The New Jersey Historical Commission pursuant to this Reorganization shall be reconstituted as a Division within the Department of State and will be composed of thirteen members rather than twelve members. The additional member will be the Secretary of State. The thirteen members are:

a. the Secretary of State or his designee, the State Librarian or his designee, and the Chief of the Office of Historical Preservation of the Department of Environmental Protection;

b. six citizens of the State to be appointed by the Governor with the advice and consent of the Senate, all of whom shall be chosen by reason of their expertise in New Jersey history and qualified by academic achievement or professional affiliation, who shall serve for terms of three years and until the appointment and qualification of their successors;

c. two members of the Senate to be appointed by the President thereof, and two members of the General Assembly to be appointed by the Speaker thereof. No more than one of the Senate and Assembly members shall be members of the same political party. Any one appointed pursuant to subsection c. shall serve as a member of the commission until the expiration of his term as Senator or Assemblyman as the case may be, during which he was appointed.

This transfer will add the Secretary of State as a member of the Historical Commission. This will effectuate the purpose of this Reorganization Act and will effect better management in the Executive branch. The Secretary of State in her role as the main supervisor and coordinator of all the cultural and historical entities located within the Department of State should be part of the Historical Commission.

The purpose of this Reorganizational Plan will be to further concentrate the cultural and heritage functions of the State in a single department. Recently, the State Council on the Arts was transferred from the Department of Education to the Department of State. The Office of Ethnic Affairs is currently located within the Department of State.

This proposed transfer of the Historical Commission and the State Museum will enable the Division of the State Museum and the His-

torical Commission to work more closely and coordinate programs with the State Council on the Arts and the Ethnic Advisory Council. This will assure more comprehensive oversight and will enable the State to better coordinate its own financing. Also, a transfer of these entities to the Department of the State will promote a greater sharing of expertise of the officials of State government concerned with cultural and historical programs.

In accordance with the provisions of the Executive Reorganization Act of 1969, P. L. 1969, c. 203 (C. 52:14C-2), I find and declare that this transfer and reorganization is necessary and will do the following:

1. It will promote better execution of the laws, and more effective management of the Executive branch and its Departments, because many cultural entities will be located within one Department rather than two Departments which is the current organization.
2. It will reduce expenditures and promote economy because there will be a sharing of expertise of the officials of State government concerned with cultural and historical programs.
3. It will increase the efficiency of the operation of the Executive to a better extent insofar as there will be a greater sharing of expertise within one Department.
4. It will group and coordinate functions of the Executive as nearly as may be by virtue of the fact that the cultural programs will be located within one Department.
5. Consequently, it will eliminate overlapping and duplication of effort by locating these cultural entities within one Department.

All acts and parts of acts inconsistent with any of the provisions of this Reorganization Plan are superseded to the extent of such inconsistencies. All transfers directed by this Reorganization Plan, unless otherwise provided for herein, shall be effective pursuant to the "State Agency Transfer Act," P. L. 1971, c. 375 (C. 52:14D-1, et seq.).

The Clerk read the following messages from the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 7, 1983. }

ASSEMBLY BILL No. 345

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 345 without my signature.

This bill will provide for the issuance of a special license plate to a person who has been convicted of either drunk driving or reckless driving, if the conviction occurred more than five years prior to the application for the plate.

A special license plate is a privilege, a privilege that historically has been revocable upon a conviction for reckless driving, driving while intoxicated or death by auto. This legislation is not consistent with the philosophy of strengthening drunk driving laws that this Legislature has previously espoused.

Accordingly, I herewith return Assembly Bill No. 345 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 2268

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2268 without my signature.

This bill would appropriate \$45,300,000 to local school districts, plus \$13,556,000 in additional supplemental appropriations for the Departments of Corrections, Labor, Community Affairs and Transportation.

I return this bill without my signature because it is, as written, moot, given that the language of the bill provides that it not take

effect without the passage of a companion bill that has already been returned without my signature.

Moreover, the needs addressed by this bill have already been accounted for by the enactment into law of P. L. 1982, c. 228 (Assembly Bill No. 2317) which provided an equivalent amount of supplemental education aid, and also addressed the same needs addressed by this bill in the Departments of in Community Affairs, Transportation, Labor, and Corrections.

Accordingly, signature of this bill at this time would accomplish no purpose, and I herewith return Assembly Bill No. 2268 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 2324

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2324 with my objections and recommendations for amendment.

This bill requires that notwithstanding any provision of the "Unsatisfied Claim and Judgment Fund Law" (N. J. S. 39:6-61 et seq.) or any supplement thereto to the contrary, the unrestricted reserve of the Unsatisfied Claim and Judgment Fund is transferred to the State General Fund.

I am concerned that an outright transfer of monies from the Fund would effectively prohibit it from carrying out its designed purpose—the satisfaction of certain statutory claims for loss or injury caused by financially irresponsible or unidentified owners or operators of motor vehicles, and claims for medical expenses under no-fault insurance policies in amounts over \$75,000.

The Unsatisfied Claim and Judgment Fund's (UCJF) balance sheet of November 30, 1982 shows a \$90,000,000 deficit. This deficit does not include a very substantial incurred but not reported factor as to excess medical benefit claims.

Also, the Director of the UCJF has determined that he must assess insurance carriers \$38,000,000 for fiscal year 1983, in order to maintain the UCJF. This figure represents a 200% increase over the 1982 assessments, which itself was a 115% increase over the 1981 assessment. Should the State transfer any funds from the UCJF, the assessment will by necessity have to increase. When

the assessment on the insurer increases, it in turn must *raise* its premiums.

I am also concerned about the constitutional questions that are raised by this bill.

Sums paid into the Fund are held by the Treasurer in trust for the purposes of the Unsatisfied Claim and Judgment Fund. In recent years, the States of Wisconsin and New York have enacted legislation seeking to utilize for broad State purposes, monies held in workers' compensation and other trust funds. Both laws were ruled unconstitutional. See *Employers Insurance of Wausau v. Mitchell* at 5-6 (Circuit T., Dane County, Wis., November 2, 1982). See also *American Insurance Association, et al. v. Bouchard, et al.* (Supr. Ct., New York County, N. Y., Index No. 91531-82, Filed Dec. 30, 1982).

I respect the sponsor's zeal and conviction in obtaining passage of Assembly Bill No. 2324, and certainly understand the desire to seek out new sources of funding for necessary State programs.

Because the Unsatisfied Claim and Judgment Fund exists in part to satisfy claims for loss or injury caused by financially irresponsible or unidentified owners or operators of motor vehicles, the financial stability of the Fund will be enhanced by increasing the effectiveness of the Division of Motor Vehicles in its ability to perform its insurance related duties in an expeditious fashion. Therefore, I recommend amending Assembly Bill No. 2324 to permit monies in the Unsatisfied Claim and Judgment Fund to be loaned to DMV for those purposes.

Therefore, I herewith return Assembly Bill No. 2324 and recommend that it be amended as follows:

Page 1, Title, Line 2: Delete "General Fund" and insert "Division of Motor Vehicles in the Department of Law and Public Safety of those sums necessary for implementation by the division of the New Jersey Merit Rating Plan established pursuant to P. L. 1983, c. 65, providing for the repayment thereof, and amending P. L. 1952, c. 174"

Page 1, Section 1, Lines 1-4: Delete in entirety and insert new sections 1 and 2 as follows:

"1. Section 3 of P. L. 1952, c. 174 (C. 39:6-63) is amended to read as follows:

3. For the purpose of creating and maintaining the fund:

(a) (Deleted by amendment, P. L. 1968, c. 323, § 3.)

(b) (Deleted by amendment, P. L. 1968, c. 323, § 3.)

(c) (Deleted by amendment, P. L. 1968, c. 323, § 3.)

(d) On December 30 in each year, beginning with 1956, the director shall calculate the probable amount which will be needed to carry out the provisions of this act during the ensuing registra-

tion license year. In such calculation, he shall take into consideration the amount presently reserved for pending claims, anticipated payments from the fund during said year, anticipated payments from the fund for medical expenses to be made pursuant to section 2 of this act during the two years after said year, anticipated amounts to be reserved for claims pending during said year, *amounts transferred to the Division of Motor Vehicles pursuant to section 28 of P. L. 1952, c. 174 (C. 39:6-88), as amended by this 1983 amendatory act*, and the desirability of maintaining a surplus over and above such anticipated payments and present and anticipated reserves, such surplus not to exceed the amount actually paid from the fund during the 12 full calendar months immediately preceding the date of calculation. Such probable amount which will be needed to carry out the provisions of this act shall be assessed against insurers for such year's contribution to the fund. Such probable amount needed shall be apportioned among such insurers in the proportion that the net direct written premiums of each bears to the aggregate net direct written premiums of all insurers during the preceding calendar year as shown by the records of the commissioner. Each insurer shall pay the sum so assessed to the treasurer on or before March 31, next following.

(e) Whenever any of the provisions of this act concerning the method and sources of assessments, the maximum amounts payable from the fund, eligibility or qualifications of claimants, or amounts to be deducted from payments made from the fund are amended by law, between January 1 and April 30 in any year, the director may, if he deems it necessary, rescind any assessment made on December 30 of the preceding year. He shall then, within 15 days of the adoption of such amendment, recalculate the probable amount which will be needed to carry out the provisions of this act during the ensuing registration license year, in accordance with the provisions of subsection (d) of this section. If, in his judgment, the estimated balance of the fund at the beginning of the next registration license year will be insufficient to meet such needs, he shall determine the contributions of insurers, if any, in accordance with the provisions of subsection (d) of this section. In the event of a rescission and reassessment subsequent to March 1 in any year, insurers shall pay the sum so assessed, if any, to the treasurer within 90 days of the date of such assessment.

2. Section 28 of P. L. 1952, c. 174 (C. 39:6-88) is amended to read as follows:

28. Fund to be held in trust. All sums paid to the director as Unsatisfied Claim and Judgment Fund Fees and as additional charges against owners of uninsured motor vehicles shall be remitted to the treasurer within 30 days after the receipt of the same. All sums received by the treasurer pursuant to any of the provisions of this act shall become part of the fund, and shall be held by the treasurer in trust for the carrying out of the purposes of this act and for the payment of the cost of administering this act, *and for*

the payment of the costs of the Division of Motor Vehicles of implementing the New Jersey Merit Rating Plan pursuant to section 6 of P. L. 1983, c. 65 (C. 17:29A-35). The director shall certify to the treasurer the amount necessary to implement the New Jersey Merit Rating Plan pursuant to that section, and the treasurer shall thereupon disburse that amount from the fund. Monies transferred to the Division of Motor Vehicles pursuant to this section shall be repaid, with interest at the prevailing rate as determined by the board, out of sums appropriated to the Division of Motor Vehicles from surcharges assessed in accordance with the New Jersey Merit Rating Plan established pursuant to section 6 of P. L. 1983, c. 65 (C. 17:29A-35). Said fund may be invested and reinvested in the same manner as other State funds and shall be disbursed according to the order of the treasurer, as custodian of the fund."

Industrial Development Program-Essex County Resource Recovery Facility-Agreement with Essex County on Vendor Selection Method and Cost Recovery

It was recalled that the Board, at its meeting on October 13, 1981, directed the Executive Director to undertake all necessary planning for a resource recovery facility in Essex County, New Jersey, including the solicitation of proposals for the design, construction, and operation of the facility and as assessment of the financial feasibility of the facility and to present to the Board for its further consideration, appropriate analysis and recommendations concerning such planning. Proposals to design, build and operate such a facility were requested from four pre-qualified system vendors and three proposals were received on January 31, 1983. Evaluation of the proposals received and subsequent vendor selection is an integral part of project implementation and is necessary to prepare a recommendation concerning the effectuation of the project.

The Executive Director, to expedite these matters, has entered into an agreement with Essex County which provides for the means to undertake the evaluation of proposals, and to initiate and conduct negotiations with the selected system vendor. The agreement stipulates the method by which contracts for design, construction and operation of the facility may be executed in the future. The agreement also defines the costs to be charged to the project by the Port Authority and Essex County and prescribes the conditions pursuant to which the respective parties may recover their development costs and the amounts to be recovered. The agreement which is an interim and procedural step does not commit the Port Authority or Essex County to award any contract or to effectuate the project.

The Committee has the power to act in this matter under the By-Laws, Article XI, section D, paragraph 6.

Whereupon, the following resolution was unanimously adopted:

RESOLVED, that the agreement with Essex County executed by the Executive Director on January 14, 1983, concerning the method to be used to select a resource system vendor/operator, and providing for the recovery by the Port Authority and by Essex County of their costs associated with resource recovery project implementation is authorized and approved.

WHEREAS, At 12:01 a.m. Tuesday, March 1, the United Transportation Union (UTU) representing many of the conductors and trainmen on N. J. Transit's nine commuter rail lines is going to strike; and,

WHEREAS, Despite the fact that the offers put forth by N. J. Transit to the rail unions have won the support of the federal Rail Emergency Board and have been tentatively or finally approved by 75% of the rail workers, the conductors and trainmen voted to strike; and,

WHEREAS, They gave the people of New Jersey less than 72 hours notice of their plans even though the leaders of their union promised to give the State at least seven days notice; and,

WHEREAS, This action will disrupt the lives of countless thousands of New Jerseyans; now, therefore,

BE IT RESOLVED by the General Assembly of the State of New Jersey:

That it is the sentiment of this House to urge the parties to this dispute to enter into round-the-clock negotiations immediately for the purposes of settling this matter before it results in serious and unwarranted inconvenience to the commuters of this State; and,

Be It Further Resolved, That a duly authenticated copy of this resolution, signed by the Speaker and attested by the Clerk, be transmitted to representatives of N. J. Transit and the United Transportation Union.

The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of State and the State House press and posted in accordance with the open public meetings law, I declare the General Assembly to be in session.

The Clerk began to read the minutes of the previous meeting. Mr. Doyle moved that the reading of the minutes be dispensed with, which motion was adopted.

The Clerk then read and the General Assembly passed resolutions of welcome, condolences, commendation and recognition.

Assemblymen Jackman, Visotcky and Zangari offered the following resolution which was read by the Clerk and adopted by the following vote:

Whereas, Warner Communications Inc. has made a corporate decision to move the production facilities for the Pac-Man video game manufactured by its subsidiary unit, Atari, from the United States to Hong Kong and Taiwan and,

Whereas, This decision, which will result in the layoff of 1700 American workers, can only be described as a harsh, shameful and ungrateful action from an industry which has grown bountiful from the purchases of American consumers but now deprives its own labor force of a share in its profitable enterprises; and,

Whereas, Coming at a time when economic indicators show that this Nation at last may be starting to struggle up from the depths of the nightmare of unemployment, underutilization of industrial capacity and unanswered dreams of the American labor force, this action of Warner Communications makes a mockery of its concern for this Nation's well-being; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That this House condemns Warner Communications' decision to throw 1700 Americans out of work by moving Pac-Man production outside this country, and urges that all citizens of this State pledge to observe a boycott of all products and services of Warner Communications until such time as this intolerable decision is reversed; and,

Be It Further Resolved, That a duly authenticated copy of this resolution, signed by the Speaker and attested by the Clerk, be transmitted to the officers of Warner Communications and its subsidiary Atari.

ASSEMBLY BILL No. 1260 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1260 (OCR) with my objections and recommendations for amendment.

The purpose of this bill is to prohibit the renewal of a casino license if the licensee has failed to pay its property taxes to the municipality to which it is owing on the property which constitutes the licensed premises.

The casino industry must pay their property taxes just as any other citizen or property owner. However, as the bill is drafted, this bill could require the Casino Control Commission not to renew

the license of a casino if the casino elects to avail themselves of their legal right to appeal a tax assessment. As such, a casino would be singled out and penalized from exercising their legal right of appeal.

Accordingly, I herewith return Assembly Bill No. 1260 for reconsideration and recommend that it be amended as follows:

Page 2, Section 1, Line 25: After "licensee." insert "A denial of renewal shall not occur for the cause stated in this subsection if the licensee has properly filed an appeal of such tax assessment and shall not be forfeited nor denied during the pendency of such appeal."

Respectfully,

/s/ THOMAS H. KEAN,

Governor.

ASSEMBLY BILL No. 610 (Acs)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 610 (Acs) with my recommendations for reconsideration.

This bill amends the Child Labor Act of (N.J.S. 34:2-2 *et seq.*) to permit minors under 16 years of age to be employed in any type of domestic service, with the permission of a parent or legal guardian, in a residence other than their own home.

As written, this bill provides that *no other provisions* of the Child Labor Act shall apply to the work of minors under 16 years of age performing domestic services. The exclusion of all other sections of the act would in effect remove numerous protections afforded to working minors, such as those provided in N. J. S. 34:2-21.17, which enumerates numerous types of dangerous activities that are prohibited employments for minors under 16 years of age. Therefore, enactment of this bill as written would leave no protection for such minors working in households in use of dangerous chemical substances, or power tools such as snow blowers and power lawn mowers, which are generally recognized even by manufacturers as hazardous.

I fully support the sponsor's belief that minors under 16 years of age should be allowed under the law to perform various types of domestic services, provided they obtain their parents' or legal guardians' permission. However, I also believe that these minors should be provided all of the much needed protections currently afforded them under the Child Labor Act.

Accordingly, I herewith return Assembly Bill No. 610 (Acs) and recommend that it be amended as follows:

Page 1, Section 1, Line 15: After "act." insert "Minors may also engage in employment in domestic services performed outside of school hours or during school vacation with the permission of the minor's parent or legal guardian, in a residence other than the minor's own home."

Page 1, Section 1, Line 17: After "or"] insert "domestic service or"

Page 2, Section 1, Lines 19-24: After "[.]" delete in its entirety and insert "."

ASSEMBLY BILL NO. 1654

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1654 with my recommendations for reconsideration.

This bill amends various provisions of the Civil Service Act to permit attorneys or authorized union representatives to represent employees at Civil Service hearings. Currently by statute only attorneys are permitted to represent employees at these hearings. I agree with the purpose of this bill and, in fact, in the Civil Service bills that I have submitted to the Legislature for review, Assembly Bill No. 1720 and Senate Bill No. 2019, there is an identical provision for allowing authorized union representatives at Civil Service hearings.

Authorized union representation, however, is only one aspect of the reform needed in the Civil Service hearing process. Assembly Bill No. 1720 and Senate Bill No. 2019 provide for a more complete and integrally related revision to the hearing process. For example, in those bills, before a suspension can occur there must be a departmental hearing which provides additional protection to public employees which is currently not provided. Currently, a public employee is suspended and at a point later in time a departmental hearing is held. In Senate Bill No. 2019 and Assembly Bill No. 1720 there is clarification of the Commission's power for a de novo review. There is also an added provision for employee protection against reprisals not in the current statute.

I am aware that there is presently being considered an administrative rule dealing with the subject matter in this bill. In the interim, prior to the aforementioned overall statutory revision, this rule should provide adequate and necessary relief to public employees.

I cannot allow a continued piece-meal approach to Civil Service revision, yet I do not want to deny the sponsor credit for this legislation, therefore, I recommend that this bill be effective upon passage and enactment of either Senate Bill No. 2019 or Assembly Bill No. 1720

Accordingly, I herewith return Assembly Bill No. 1654 and recommend that it be amended as follows:

Page 2, Section 3, Line 1: Delete "immediately" insert "upon the passage of and enactment of P. L., c. . . . (C.) (now pending before the Legislature as Senate Bill No. 2019 of 1982 and Assembly Bill No. 1720 of 1982)"

ASSEMBLY BILL No. 1197 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1197 (OCR) with my recommendations for reconsideration.

The purpose of this bill is to provide that any tenured professional, officer, or employee of a State or county college or industrial school who is suspended pending determination of a charge which is not determined within 120 days shall receive full salary as of the 121st day until the determination is made, excluding delays at the request of the charged person. If the charge is dismissed but the suspension is continued during appeal, salary shall continue during that period. Any pay received from substitute employment during this period will be deducted from the individual's salary. If the charge is dismissed, the individual shall be reinstated with full pay from the first day of suspension.

My concerns with this bill are fivefold:

1. It is my understanding that suspended professors and other school employees are sometimes the subject of State or federal investigations. In such instances, it is customary for the prosecutor to request that the college not press its case so that the criminal case against the employee is not impaired. I feel it is unfair to require the college to pay an employee during this potentially lengthy period.

2. The bill states that full payment of salary will be made from the 121st day following suspension until the determination is made, but does not specify by whom this determination shall be made. There are numerous levels of appeal available to an employee, and

a determination is made at every one of these levels. The language of the bill should be amended to specify that this determination is the one made by the Board of Trustees of the college. This will clarify the current ambiguity in the bill and make this provision comparable to the corresponding provision in the statute granting these rights to public school teachers.

3. This bill, as written, requires that a suspended employee be paid full salary from the 121st day following suspension until a determination is made. If charges against an employee are sustained after the 121st day, the employee will receive full salary during the entire appeal process, even if the charges are sustained on every successive level. The bill should be amended to provide that payment of salary will cease upon the first determination which sustains the charges.

4. Although an employee whose suspension or dismissal is overturned is reinstated with full salary from the date of suspension, an employee against whom charges are sustained is not required to reimburse the college for salary received during a justified suspension. This permits an employee against whom a determination of guilt has been made to continue to draw salary throughout a lengthy appeal process, and encourages the practice of filing spurious appeals. There should be a provision in this bill providing for the reimbursement by an employee against whom charges have been sustained for all salary payments made after the 181st day of suspension.

5. The 120 day time period during which a determination must be made is wholly inadequate and unrealistic. Studies have indicated that, due to various administrative delays and due process time requirements which are not the fault of the Department of Higher Education, the 120 day limit is rarely met. I have been informed that 180 days is a more realistic and attainable figure. Accordingly, the bill should be amended to extend the period during which a determination must be made from 120 days to 180 days.

Accordingly, I herewith return Assembly Bill No. 1197 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 8: After "against him" insert ", other than for an indictment under the laws of the United States or the State of New Jersey,"

Page 1, Section 1, Line 9: Delete "120" insert "180".

Page 1, Section 1, Line 12: Delete "120" insert "180".

Page 1, Section 1, Line 13: Delete "121st" insert "181st".

Page 1, Section 1, Line 13: After "determination" insert "by the Board of Trustees".

Page 2, Section 1, Line 23: After "appealed, then the" insert "salary".

Page 2, Section 1, Line 23: After "continued" insert ", reinstituted or instituted".

Page 2, Section 1, Line 26: After "suspension." insert "If the charges are sustained the employer may recover any salary which was paid to the employee during the period of suspension."

Respectfully,

Mr. Doyle moved that the messages be spread in full upon the minutes.

Mr. Doyle offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to paragraph a. of Rule 20:6 the following Assembly bills, conditionally vetoed by the Governor, be and are hereby given first reading for the purpose of reenactment:

Assembly Nos. 1260, 1654, 1197, and Assembly Committee Substitute for Assembly No. 610.

Further Resolved, That they be amended in accordance with the Governor's recommendations and advanced to second reading by special order.

Mr. Matthews offered amendments to Assembly No. 1260 in accordance with the Governor's recommendations, which were adopted.

Ms. Kalik offered amendments to Assembly No. 1654 in accordance with the Governor's recommendations, which were adopted.

Mr. Markert offered amendments to Assembly Committee Substitute for Assembly No. 610 in accordance with the Governor's recommendations, which were adopted.

Mr. Mazur offered amendments to Assembly No. 1197 in accordance with the Governor's recommendations, which were adopted.

The following bills were given second reading by special order:

Assembly Nos. 1260, 1654, 1197, and Assembly Committee Substitute for Assembly No. 610, all as amended in accordance with the Governor's recommendations.

The Clerk read the following messages from the Governor:

ASSEMBLY BILL No. 543

To the General Assembly:

Pursuant to Article V, Section I. Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 543 without my signature.

Assembly Bill No. 543 authorizes county and municipal sewerage authorities to deposit funds in checking accounts which earn interest on balances in the account and which require minimum balances to be maintained in order to qualify for interest payments.

At the time this bill was introduced, state legislation was needed in order to permit sewerage authorities to deposit funds in the type of checking account described above. However, due to a recent change in federal law, the sponsor advises that sewerage authorities can now invest in this kind of checking account. As a result, this bill is no longer needed.

I agree it is appropriate for sewerage authorities to be authorized to place funds in the type of checking account described above, and applaud the sponsors for recognizing that need. However, since current law in fact permits them to do so, little purpose is served by signing this legislation into law.

Accordingly, I herewith return Assembly Bill No. 543 without my approval.

Respectfully,

ASSEMBLY BILL NO. 1203 (2ND OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1203 (2nd OCR) without my signature.

This bill would permit a liquor license to be given as security for any debt. The bill also requires that the Director of the Division of Alcoholic Beverage Control and the other issuing authority (i.e., the municipality) must be notified by a banking institution whenever a license is given as security for a lien created by the institution.

The bill, by allowing a liquor license to be used as collateral, implies a property right in that license. However, a liquor license, just as any other license issued by the State, constitutes not a property right but a privilege which can be revoked by the State for any violation of the terms and conditions of the license. If a property right in a liquor license was statutorily implied, the existing regulatory and procedural practices at the Division of Alcoholic Beverage Control would not be sustainable.

Accordingly, I herewith return Assembly Bill No. 1203 (2nd OCR) without my approval.

ASSEMBLY BILL No. 1666

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 1 of the Constitution, I herewith return Assembly Bill No. 1666 without my signature.

This bill would provide that any member or retiree of the Jersey City Pension system or of a previous pension system merged into the City system may direct the retirement system to withhold from his pension payments membership dues payable to any association, society, or organization for retired employees designated by the member or retiree.

While this legislation certainly is well-intended, I return this bill without my signature because it would impose substantial administrative costs on the State—costs currently estimated at something over \$250,000 per year.

Were the State pension systems subject to this requirement, the law could not be administratively implemented. The State would have to revise its entire pension payroll system to allow for this additional deduction. That would require a massive new record keeping and filing system. Under these circumstances, it is unfair to single out a smaller group of pensioners for special treatment.

It would be irresponsible for the State to expose itself to these significant administrative cost increases. To require our taxpaying citizens who are obligated to pay the pensions to assume the administrative expense of deducting dues for a private association is simply not a wise application of scarce budget dollars at the current time.

Finally, the administrative drawbacks of trying to implement this proposal on a small scale for a single system in the municipality of Jersey City would almost certainly be followed by demands for similar treatment from other State programs where the size and cost implications would be far greater.

Accordingly, I herewith return Assembly Bill No. 1666 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 1470 Senate Reprint (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1470 Senate Reprint (OCR) without my signature.

This bill requires the Department of Commerce and Economic Development to make information available concerning procedures for establishing an employee stock ownership plan (ESOP) to employees requesting it and to provide assistance and/or funds for conducting a feasibility study. It also requires the Commissioner of the Department of Commerce and Economic Development to provide technical assistance to employees or employers seeking to arrange a purchase of a facility through the use of any employee stock ownership plan.

In 1981 the Legislature passed Assembly Bill No. 1021 which Governor Byrne signed. This bill directed the Department of Labor and Industry to undertake a study as to the best means of providing encouragement and assistance in the formulation of ESOP's and employee stock ownership trusts, and to develop a plan for providing such encouragement and assistance. Assembly Bill No. 1021 further directed the Commissioner of the Department of Labor and Industry (within one year of the effective date of the bill) to report the findings and conclusions of the study, together with details of the plan developed pursuant thereto, to the Legislature. In March, 1982, Commissioner Bodman of the Department of Labor released such a report, including a detailed set of recommendations as to how the State of New Jersey could most economically and reasonably encourage and facilitate the formation of ESOP's.

Assembly Bill No. 1470 establishes several means whereby the State *shall* provide assistance in establishing ESOP's. It *does not*, however, follow the detailed suggestions of the Department of Labor Report.

For example, the Labor Report recommended limiting the State's participation in ESOP feasibility studies to those involved in making the initial informal decision on the ESOP's profitability. The Report stated that the costs of the study should be borne by the parties interested in forming the ESOP. In contrast, Assembly Bill No. 1470 requires the State, through the Department of Commerce and Economic Development, to provide numerous types of technical assistance to employees interested in forming an ESOP. This mandatory technical assistance will require a substantial personnel commitment, as well as significant sums of money. Further, Assembly Bill No. 1470 requires the State, in some instances, to "grant funds" to potential ESOP's for obtaining technical information regarding establishment of an ESOP.

In all respects, the implementation of Assembly Bill No. 1470 would be less cost effective than the ESOP proposal developed by the Department of Labor. Given the current fiscal restraints, the Department of Commerce and Economic Development will be unable to provide the technical assistance mandated by this bill. Also, there are no funds available for an appropriation for implementing the program or for making grants.

While I respect the sponsor's zeal and conviction in obtaining passage of Assembly Bill No. 1470, I nonetheless must return it without my signature. I fully support the establishment of an economically feasible and reasonable ESOP program, but I believe that there is a less burdensome means, outlined in the Department of Labor Report, by which the State could effectuate the underlying purpose of this well-intentioned legislation.

Accordingly, I herewith return Assembly Bill No. 1470 Senate Reprint (OCR) without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 2295

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 2295 without my signature. This bill would create a Task Force to recommend a mechanism to follow up on the recommendations of the Commission on Children's Services. Children are our lifeblood and our future. I am highly committed to insuring that government in all of its actions affirmatively promotes the development and well-being of all of our children. For that reason, I am very supportive of attempts to ensure that the needs of children remain prominent in our constellations of concerns.

Nonetheless, I do not believe that this bill is the right way to proceed in order to properly protect and help our children. Rather than create a mechanism to follow up upon the recommendations of the Commission's report, it creates a legislative Task Force to study the issue of the creation of a follow-up mechanism. I believe that this intermediate step of another study to determine what mechanism should be created to deal with the first study is unnecessary and will simply delay our moving forward in a meaningful way to deal with children's needs and problems.

Accordingly, I have not signed this bill. Instead, by Executive Order, I have established a Governor's Committee on Children's Services Planning. It will consist of respected members of our child welfare, child advocacy, social services, education and health care communities. This committee will be charged with moving constructively to prioritize and develop plans to implement the recommendations of the Commission on Children's Services and ensure that government fairly, promptly and efficiently addresses the needs of our children. Moreover, this Committee will be given free reign to develop any proposal in regard to the provision of services to children that it sees fit and I will certainly place great weight upon the recommendations that I receive from the Commission.

Accordingly, I herewith return Assembly Bill No. 2295, without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

Mr. Doyle moved that the messages be spread in full upon the minutes.

Mr. Doyle offered the following resolution which was read by the Clerk and adopted:

Resolved: 1. That printed copies of Assembly Concurrent Resolution No. 55 entitled "A Concurrent Resolution proposing an amendment to Article IV, Section VII, paragraph 2 of the Constitution," be placed upon the desks of the members of the House forthwith, and that a record of such action be made in the Minutes of the General Assembly.

2. That the Clerk of the General Assembly forward 40 copies of said Assembly Concurrent Resolution No. 55 to the Senate with the request that the same be placed upon the desks of each Senator in open meeting forthwith.

The Clerk then caused to be placed on the desk of each member a copy of Assembly Concurrent Resolution No. 55 and the placing thereof was noted in the Minutes accordingly.

Mr. Doyle offered the following resolution which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 17:3 a public hearing is ordered to be held on Assembly Concurrent Resolution No. 55, proposing an amendment to the Constitution, before the Assembly Independent Authorities and Commissions Committee; and that the public hearing be held in Room 420, State House Annex, Trenton on April 11, 1983 at 10 a.m., and that said committee make a written report thereof to the General Assembly.

The Clerk read the following:

MESSAGE TO THE GENERAL ASSEMBLY

Dated: March 14, 1983.

The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of State and the State House Press and posted in accordance with the open public meetings law, I declare the General Assembly to be in session.

The Clerk began to read the minutes of the previous meeting. Mr. Doyle moved that the reading of the minutes be dispensed with, which motion was adopted.

The Clerk then read and the General Assembly passed resolutions of welcome, condolences, commendation and recognition.

The following communications were sent to the desk and read by the Clerk:

New Jersey Economic Development Authority—1982 Annual Report.

New Jersey Highway Authority—Annual Report 1982 (30th Anniversary).

New Jersey Turnpike Authority—Annual Report 1982.

Annual Report of Employee Stock Ownership Plans/N. J. Dept. of Labor.

Mr. Doyle moved that the communications be received and filed.

Which motion was adopted.

Senate No. 1441 was given third reading.

On motion of Mr. McEnroe that the bill pass the vote was as follows:

In the affirmative were—

Albohn, Baer, Bennett, L. Brown, W. Brown, Charles, Chinnici, Cooper, Costa, Cowan, Deverin, Doria, Doyle, Felice, Flynn, Fortunato, D. ASSEMBLY BILL No. 245

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 245 without my signature.

The purpose of this legislation is to permit deductions of up to \$5,000 per year to a maximum of \$25,000 over a ten-year period from State gross income tax for contributions made to a trust to

be used for the purchase of single family residential property within the State.

Although this bill is well-intentioned, it is questionable whether the exemption from the 2%-3½% New Jersey income tax accomplishes this bill's purpose in the absence of a similar exemption from the much higher federal income tax rates. In fact, the 10% penalty should there ever be a withdrawal from the fund for non-housing purposes is far greater than the New Jersey income tax savings of 2% to 3½% on the money invested. For example, if a person earning \$20,000 per year managed to set \$5,000 aside as per this bill, he would still have to pay all federal taxes on that sum, and would only receive a \$100 savings on his state taxes, an extremely small savings incentive toward buying a house at today's prices. Yet, if he later tried to remove the money for non-housing uses, he would pay a 10% or \$500 penalty. Even a person earning \$100,000 per year would only save \$125 per year in taxes, yet face the same potential \$500 penalty on early withdrawal.

Furthermore, notwithstanding the very minimal, if any, advantages to be gained from this legislation, there are significant disadvantages: it would impose significant administrative burdens and administrative expense on the Division of Taxation; would result in a loss of between \$600,000.00 and \$1 million per year to the General Fund; and would set a dangerous precedent in establishing a deduction from gross income contrary to the established policy behind our gross income tax. The last point is especially important; as a matter of policy our statute established the New Jersey income tax as one on gross income rather than net income. This has enabled us to enjoy an ease and simplicity of filing which has resulted in a great savings of time and expense to our Division of Taxation, to accountants and bookkeepers, and to our taxpaying citizens. As a result, we have been able to minimize the burden on accountants, auditors, and tax lawyers, and have reduced the confusion and filing costs to the individual taxpayer. Any decision to change this longstanding gross income approach would be a significant one; if desired, that change should be made through a deliberate overall policy decision, rather than a piecemeal approach.

I applaud the sponsor's efforts to reduce the cost of housing in New Jersey, but to enact a bill which would be of minimal effectiveness in accomplishing its intended purpose, yet would bring rather significant costs and disadvantages, simply would not be responsible in these times of austerity.

Accordingly, I herewith return Assembly Bill No. 245 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,

Governor.

ASSEMBLY BILL No. 421

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 421 without my signature.

This bill would change the deadline for the submission by school districts of enrollment figures for State aid applications from October 5 to October 12. Enrollment counts are currently taken by the school districts on the last school day of September of each year.

There is pending legislation dealing with the *overall* budget timetable issue for school districts. This is a problem area which the Legislature should deal with as a whole. I recommend that Senate Bill No. 1831/Assembly Bill No. 2000 be amended to incorporate the date change provision in this bill.

Accordingly, I herewith return Assembly Bill No. 421 without my approval.

Respectfully,

ASSEMBLY BILL No. 1399 (OCR)

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 1399 (OCR) without my signature.

This bill is an anti-ticket scalping bill. It prohibits the resale of any ticket of admission for an entertainment at a state run facility (the Arts Center, Rutgers University, the Meadowlands) for a price in excess of twenty percent (20%) or three dollars (\$3.00) more than its face value, whichever is greater. This bill is one of two anti-ticket scalping bills passed by the Legislature, the other being A-1466 sponsored by Assemblyman Gallo.

I believe that these pieces of legislation are necessary. Intimidation and harassment has occurred in ticket lines, particularly at the Meadowlands, because of the activities of a small minority of unsavory ticket brokers. Moreover, we have received evidence of sales of stolen tickets, sales of tickets for events which exceed theater capacity and the sale of tickets to events which were postponed and finally cancelled; despite which, the persons who bought the tickets

never received their money back. For these reasons, I believe that an anti-ticket scalping measure is salutary.

In view of the problems which give rise to the need for this legislation, however, I believe that A-1466, which provides for the oversight of ticket brokers by the Division on Consumer Affairs, will more adequately deal with the problem that confronts us. The simple prohibition of the resale of a ticket for over a certain price will not rectify the problem of tickets being sold to non-existent or overbooked events. Moreover, this bill does not prohibit on-site resale, as does A-1466, and it is that type of resale which seems to have caused the greatest problems in terms of intimidation, harassment and the like. Thus, while I believe that A-1399 (OCR) addresses part of the ticket scalping problem, I believe that A-1466 provides a more comprehensive solution.

Accordingly, I herewith return A-1399 (OCR) without my signature.

Respectfully,

ASSEMBLY BILL No. 1431 (2ND OCR)

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1431 (2nd OCR) without my signature.

While I strongly agree with the notion that the State should encourage all eligible New Jerseyans to register to vote, this legislation seeks to increase those numbers by indiscriminately flooding public and private offices with registration forms. It would require that voter registration forms be distributed to state, county, and municipal offices which have "substantial and regular contact with the public" as well as other private offices that deal with the public. The printing and mailing of countless numbers of forms to literally thousands of state, county, and municipal offices, as well as private agencies and offices, represents a costly and ineffective attempt to achieve an otherwise laudable goal. While mass distribution of forms may certainly encourage registrations, prior experience as demonstrated that most of the users of these forms are not new voters but voters who are already registered; they either mistakenly feel the need to re-register or use the form to file a change of address. The better method for encouraging increased registration is to permit the county commissioners of registration to pursue policies best suited to their local needs.

Accordingly, I herewith return Assembly Bill No. 1431 (2nd OCR) without my approval.

ASSEMBLY BILL No. 1483 (2ND OCR)

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1483 (2nd OCR) without my signature.

An existing statute, N. J. S. 39:4-14.2, provides that bicycle operators must ride on the right side of the roadway except under five specified circumstances. This legislation would amend the statute to add a provision that it is impermissible to ride a bicycle on the left side of the roadway except under these same circumstances.

This bill proposes a redundant, unnecessary amendment which would add nothing to the existing statute.

Accordingly, I herewith return Assembly Bill No. 1483 (2nd OCR) without my approval.

ASSEMBLY BILL No. 3108

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3108 without my signature.

This bill would require municipalities to anticipate in their 1983 budgets the amount of gross receipts and franchise tax revenues which they would have received in 1982 had the State not retained a portion of those revenues.

Assembly Bill No. 3108 would permit municipalities to anticipate as revenues in their 1983 budgets \$659 million which is the total amount of gross receipts and franchise tax revenues collected in 1982. On its face this does not present a problem, since under the provisions of my proposed FY '84 budget, municipalities are expected to receive in the aggregate roughly the same amount that they will be permitted to anticipate under Assembly Bill No. 3108.

The difficulty with the bill is that for purposes of anticipating revenue it would apportion \$659 million among municipalities based on 1982 criteria. Each municipality will have to anticipate the portion of the gross receipts and franchise tax revenues which it would have received had the full \$659 million been distributed to municipalities in 1982. However, due to changes in factors from 1982 to 1983, \$659 million apportioned among municipalities pursuant to 1982 factors will generate a different sum for a municipality than \$659 million apportioned pursuant to 1983 factors. The difference in allocation from year to year is expected to be particularly significant this year due to a projected decline in revenues from some South Jersey utilities.

This problem is heightened by the fact that Assembly Bill No. 3108 is mandatory and requires a municipality to anticipate the amount. Hence, a municipality must anticipate the sum generated by the bill even though it knows that under the terms of the Governor's budget and based on the 1983 criteria it is projected to receive less than that amount in 1983.

In addition, the mandatory nature of the legislation takes from each municipality its independent right to decide whether or not to anticipate increases in gross receipts and franchise taxes in its 1983 budget or to wait until the exact amount of the increase is delivered and is available in surplus for appropriation in its 1984 budget. Municipalities have enjoyed this flexibility in prior years, and I believe they should continue to do so.

To avoid these problems, I have decided not to affix my signature to this bill. Instead, administratively, municipalities have been permitted to anticipate up to 90 percent of the portion of the estimated gross receipts and franchise tax revenue increase which I have allocated to them in my FY '84 budget recommendation. Thus, the amount that each municipality may anticipate in its 1983 budget will reflect the amount that it can reasonably expect to receive in 1983.

Accordingly, I herewith return Assembly Bill No. 3108 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 978

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 978 with my objections and recommendations for amendment.

The purpose of this bill is to amend N. J. S. 2C:33-4 to expressly clarify that harassing communications such as offensive telephone calls be deemed to have taken place either where it was made or where it was received. Among the activities prohibited by N. J. S. 2C:33-4 which defines the offense of harassment is the making of communications, such as telephone calls, either anonymously; at inconvenient hours; in offensively coarse language or in any other manner likely to cause annoyance or alarm. This bill provides that a communication under the "harassment" statute shall be deemed to have taken place either where it was made or where it was received. This would permit prosecution of such an offense in the municipal court of either the municipality in which the call was made or in the municipality in which the call was received. Thus, in cases where the maker's location could not be proved, the case could be prosecuted at the place where the communication was received. This would probably occur most frequently in cases involving annoying telephone calls from a person known to the victim and would obviate the need to trace the geographic source of such calls.

This bill deals with the question of jurisdiction of the municipal court. Jurisdiction over the subject matter is the power of the court to hear and determine cases of the class to which the proceedings in question belongs. The power of the court to deal with the subject matter of any given action rests solely in its having been clothed with such power by either the Constitution or statutory grant. *State v. Osborn*, 32 N. J. 117, 122 (1960). The Legislature conferred upon each municipal court and the judges thereof jurisdiction over petty disorderly person offenses set forth in the New Jersey Code of Criminal Justice which occur within the territorial jurisdiction of the court (N. J. S. 2A:8-21(d)), and defined the territorial jurisdiction of each such municipal court to be the territory embraced within such municipality. N. J. S. 2A:8-20.

N. J. S. 2C:33-4 provides, "A person commits a petty disorderly persons offense if, with purpose to harass another, he: (a) Makes, or causes to be made, a communication or communications any-

mously or at extremely inconvenient hours, or in offensively coarse language, or any other manner likely to cause annoyance or alarm . . .” This defines the offense as “making” or “causing to be made” a certain offensive communication. The statute could be read to mean that a prosecution for this offense may only be prosecuted in the municipality in which the communication was “made”.

The precursor of this section was N. J. S. 2A:170-29. That statute dealt with one person telephoning another and did not address making a communication. That statute also contained a specific jurisdictional statement that “any offense committed under . . . this section may be deemed to have taken place at either the place at which the telephone call was made or the place at which the telephone call was received.”

The question of jurisdiction regarding N. J. S. 2C:33-4 was raised in *State v. Halleran*, 181 N. J. Super. 542 (1981). There the court held that “While N. J. S. 2C:33-4 does not contain the specific grant of jurisdiction to both the court of the municipality from which the telephone call was received, nonetheless, we hold that the municipal court had jurisdiction over this matter. N. J. S. A. 2C:1-1 of the new Code, which sets forth rules of construction, in pertinent part provides:

e. The provisions of the code not inconsistent with those of prior laws shall be construed as a continuation of such laws.

It is evident that the provisions of N. J. S. A. 2C:33-4 are not inconsistent with those of the prior law, N. J. S. A. 2A:170-29. Therefore, N. J. S. A. 2C:33-4 must be construed as a continuation of the prior law, and the jurisdictional grant contained in N. J. S. A. 2A:170-29 carried over to the new Code. See *State v. Butler*, 178 N. J. Super 205, 210-211 (App. Div. 1981).”

There is nothing in N. J. S. 2C:33-4 or its legislative history to show an intention on the part of the Legislature to depart from the grant to municipal courts jurisdiction over certain specified offenses “occurring within the territorial jurisdiction of the court.” However, N. J. S. 2C:33-4 does not furnish any guidance for determining the place of the offense and the Statute does not specify the situs of the offense. This is rectified by this bill in effect codifying the *Halleran* decision.

While I agree that this bill is necessary to correct the gap in Title 2C to specifically grant jurisdiction, I propose amending the bill to make it conform with the language of N. J. S. 2C:33-4 rather than the old language of N. J. S. 2A:170-29.

Therefore, I herewith return Assembly Bill No. 978 and recommend that it be amended as follows:

ASSEMBLY BILL No. 1255 (3rd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly No. 1255 (3rd OCR) with my recommendations for reconsideration.

This bill creates a 20-member task force combining the expertise of industry, academia and environmentally-concerned citizens to study prior clean-up efforts involving chemical contamination, to identify programmatic inefficiencies and ineffectiveness in these efforts, and to recommend a contingency response plan which would serve as the basis for a statewide master plan for the cleanup of chemical contamination. The task force would develop cleanup protocols to guide the Department of Environmental Protection in responding to chemical contamination in the State, and also criteria for rating contamination sites on the basis of severity and the urgency of the need for cleanup. The bill also provides an appropriation of \$100,000.00 from the Spill Compensation Fund to carry out the work required by it

The additional appointed members of the task force are unnecessary to carry out the tasks required by the bill. The Hazardous Waste Advisory Council itself is capable of designing a contingency response master plan for the Department. The process of appointing additional members will unnecessarily slow the work required by the bill. If the Council requires the help of additional experts or other consultants, the amendatory language I have recommended authorizing the Council to "cause [the work] to be conducted" will permit outside assistance to be retained by the Council.

Accordingly, I herewith return Assembly No. 1255 (3rd OCR) with my recommendations for amendment:

ASSEMBLY BILL No. 1261

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly No. 1261 with my objections.

The purpose of this legislation is to establish an affirmative action program for veterans by requiring that every public works contract contain appropriate provisions by which contractors, subcontractors, or their assignees must guarantee an equal employment opportunity to veterans in accordance with a program to be prescribed and adopted by the State Treasurer.

Although I am aware of, and sympathetic toward, the problems faced by veterans in finding employment after their separation from service, I cannot responsibly sign this bill in its present form due to the numerous legal, constitutional, and administrative problems it raises.

The Attorney General has informed me that this legislation may contravene the Commerce Clause of the United States Constitution in that it goes well beyond what the United States Supreme Court has suggested were the limits on a State's ability to prescribe the terms and conditions under which it will participate in the labor market.

The definition of "public works contract" in this bill is so broad that it can extend to work performed outside the State of New Jersey. In order to correct this defect, this definition must be limited to work actually performed within the State

Furthermore, I have been informed by veterans' groups throughout the State that Vietnam era veterans, as a group, are the primary victims of the employment problems addressed by this legislation. In fact, many job training and affirmative action programs for veterans on both the State and Federal level are specifically targeted at Vietnam era veterans. Vietnam era veterans have faced unique problems which have impeded their entry into the labor force. For this reason, I believe the scope of this bill should be limited to this class of veterans.

Finally, this legislation fails to set forth any procedure by which the State Treasurer shall monitor and enforce the provisions of this affirmative action program. I have made some recommendations which would clarify the role of the State Treasurer in this process.

Therefore, I herewith return Assembly Bill No. 1261 and recommend that it be amended as follows:

Page 1, Section 1, Line 2: After "veterans", insert "of the Vietnam era".

Page 1, Section 1, Line 3: After "veterans", insert "of the Vietnam era".

ASSEMBLY BILL NO. 2314 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2314 (OCR) with my recommendations for reconsideration.

This bill amends our criminal nuisance statute and creates a civil nuisance action to enjoin the maintenance of premises where prostitution occurs and obscene material is sold or exhibited. I am returning the bill for substantial amendments in order to assure that it properly meshes with our existing criminal code, to give the courts discretion in fashioning the remedies under the bill and to avoid inhibiting the exercise of first amendment rights of free speech.

The bill establishes as a "nuisance" the maintenance of "any premises, place or resort as a house of assignation or prostitution or as a place where lascivious material is sold, photographed, manufactured, exhibited or otherwise prepared or shown." The maintenance of such a nuisance is punishable as a crime of the fourth degree.

This definition presents serious construction problems. First, "house of assignation" is not defined in the bill and we do not know what kind of facility is meant. Accordingly, I propose to delete this phrase from the bill. Secondly, the language creates a new prohibited class of material, namely "lascivious material." Use of this new term ignores the existing definition of "obscene material" in the New Jersey Criminal Code. In defining "lascivious material" the bill uses the existing definition of "obscene material" sold to minors set forth in the New Jersey statutes. The bill should be amended to directly refer to the existing definition of "obscene material" rather than create the confusion of a new phrase. In addition, the provision fails to articulate the distinction between private activities and commercial or public obscenity. Since the State's regulation of private activity is open to constitutional challenge, I am recommending amendments to clarify that the prohibited activity with respect to sale or exhibition of obscene material is that currently defined in our criminal code.

The bill also clarifies that when a criminal nuisance is found, any obscene material may be seized and destroyed.

The second part of the bill provides for a civil nuisance action to enjoin the criminal nuisance described above. The Attorney General, the county prosecutor or any county resident would be permitted to bring a civil action in the name of the State to abate the nuisance and permanently enjoin maintenance of the nuisance. In order to avoid unreasonable harassment of legitimate businesses, I believe the power to institute these actions should be limited to public officials.

While the civil nuisance action is pending, the court is given the power to issue an ex parte restraining order preventing the removal of or interference with any of the personal property and contents of the premises. The court has no discretion whether or not to issue such an order but must do so upon the application of the plaintiff. The bill makes provision for service of the ex parte order and requires the officer serving the ex parte order to make an inventory of the contents of the premise. Violation of the restraining order

constitutes contempt of court. The *ex parte* restraining order raises constitutional concerns since it would effectively close down the business before any finding is made that illegal activities are occurring there. At this preliminary stage in the proceeding the *ex parte* order should be limited to maintaining the status quo and preserving evidence. Accordingly, we recommend that the order direct the preservation of samples of materials at the premises and that an inventory of its contents be made.

The application for the restraining order must be coupled with an application for a temporary injunction. The hearing on the temporary injunction must be held within 10 days. A temporary injunction would close the premises against its use for any purpose complained of in the petition until the final hearing. The defendant must be served with notice of the application for a temporary injunction at least five days before the hearing. If the court finds at the hearing that the allegations in the petition are "sustained to the satisfaction of the court," a temporary injunction *must* be issued. In addition, the restraining order discussed above is to remain in effect (or if it had not been issued, it must now be included in the court's disposition). Thereafter, pending the final hearing on the application for a permanent injunction, the owner of the property may secure the release of the property from the court's order if the court finds "that the owner did not have any knowledge that the property was being used in maintaining the nuisance and if the owner agrees to take whatever action is necessary to insure that the property will not be used to continue the nuisance."

I recommend three amendments to the provisions governing the temporary injunction. First, to help assure that this kind of prior restraint has proper procedural safeguards to satisfy constitutional concerns, I recommend that the injunction be issued only after a finding by the court that clear and convincing evidence supports the application. Secondly, the court should have discretion in issuing the injunction and formulating the order. Finally, to be consistent with accepted legal terminology, the injunction should be referred to as a "preliminary" rather than "temporary" injunction.

If, at the final hearing, the court determines that the nuisance exists, it *must* enter a permanent order enjoining the defendant and any other person from maintaining the nuisance at that location and enjoining the defendant from maintaining the nuisance elsewhere. In addition, the court *must* proceed with the forfeiture of property used for maintaining the nuisance and *must* close the location for one year pursuant to N. J. S. 2C:33-12.1. My only amendment to these provisions is to give the court discretion to impose these remedies rather than mandating that the court do so. In addition, a penalty of not less than \$300 nor more than \$1,000 must be imposed upon the person maintaining the nuisance.

The bill also provides that evidence of the general reputation of the location or an admission or finding of guilt under the criminal

laws of prostitution or obscenity is admissible for the purpose of proving the existence of the nuisance.

In accordance with the above observations, I herewith return Assembly Bill No. 2314 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, lines 11 through 14A: Delete and after line 14A insert "c. He knowingly conducts or maintains any premises, place or resort as a house of prostitution or as a place where obscene material as defined in N.J.S. 2C:34-2 and N.J.S. 2C:34-3 is sold, photographed, manufactured, exhibited or otherwise prepared or shown in violation of N.J.S. 2C:34-2, N.J.S. 2C:34-3, and N.J.S. 2C:34-4."

Ms. Kalik and Mr. Lesniak offered the following resolution which was read by the Clerk and passed by the following vote:

An Assembly Resolution strongly opposing the use of the Office of the Director of the State Division on Women for partisan purposes.

Whereas, Joan Wright was an Assemblywoman from the 39th legislative district and vacated that seat to accept a gubernatorial appointment as Director of the State Division on Women; and,

Whereas, In assuming that title and its responsibilities she was pledging to work on behalf of all women in the State, regardless of political party; and,

Whereas, That title should not be used to forward the nomination of any one political candidate and certainly not one who opposes the Equal Rights Amendment; and,

Whereas, Joan Wright disregarded this trust and responsibility was disregarded by endorsing a candidate from her former legislative district who does not endorse the Equal Rights Amendment; and,

Whereas, By so endorsing this candidate she abused her office and also did a disservice to the candidate seeking election in that same district who is a strong advocate of the ERA amendment; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey;

1. That this House hereby condemns the use of the Office of Director of the State Division on Women for partisan purposes, especially when such misuse works contrary to the expressed purpose of the Division on Women.

Resolved: 1. That printed copies of Senate Concurrent Resolution No. 146 entitled "A Concurrent Resolution proposing to amend Article I, paragraph 2 of the Constitution of the State of New Jersey," be placed upon the desks of the members of the General Assembly forthwith; and

2. A record of the placing thereof be made in the minutes of the Assembly and the Clerk certify such placing and the date thereof to the Secretary of the Senate.

The Clerk then caused to be placed on the desk of each member a copy of Senate Concurrent Resolution No. 146 and the placing thereof was noted in the minutes accordingly.

Mr. Doyle offered the following resolution, which was read by the Clerk and adopted:

Resolved: 1. That printed copies of Assembly Concurrent Resolution No. 3021 entitled "A Concurrent Resolution proposing to amend Article IV, Section VII, paragraph 2, of the Constitution of the State of New Jersey," be placed upon the desks of the members of the House forthwith, and that a record of such action be made in the minutes of the General Assembly.

2. That the Clerk of the General Assembly forward 40 copies of said ACR No. 3021 to the Senate with the request that the same be placed upon the desks of each Senator in open meeting forthwith.

The Clerk then caused to be placed on the desk of each member a copy of Assembly Concurrent Resolution No. 3021 and the placing thereof was noted in the minutes accordingly.

Mr. Doyle offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 17:3 a public hearing is ordered to be held on Assembly Concurrent Resolution No. 3021, proposing an amendment to the Constitution, before the Assembly Aging Committee; and that the public hearing be held in Room 348, State House Annex, Trenton on Tuesday, May 3, 1983, at 10 a.m., and that said committee make a written report thereof to the General Assembly.

The Clerk read the following messages from the Governor:

ASSEMBLY BILL No. 1984 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1984 (OCR) without my signature.

Assembly Bill No. 1984, entitled the "Supplemental Revenue Sharing Assistance Act," provides a State program to hold municipalities harmless for the loss of federal general revenue sharing funds.

The program will provide State aid to those municipalities receiving less federal general revenue sharing aid in entitlement period 14 and thereafter than received in entitlement period 13. The amount of the State aid will be the amount of the loss less any increases over 1982 levels in payments which the municipalities received from the Municipal Purposes Tax Assistance Fund.

Payments from the Supplemental Revenue Sharing Assistance Fund are to be made on a quarterly basis on or before January 15, April 15, July 15 and October 15 of each year. The State Treasurer is to notify municipalities by January 15 of each year the amount of aid to be received under the act; that amount may be included in the municipality's annual budget and the municipality may immediately thereafter make commitments against the amounts.

The bill makes a supplemental appropriation of \$10,100,000 to the Supplemental Revenue Sharing Assistance Fund and directs that sufficient annual appropriations be made to the fund each year.

This bill is designed to address the problem faced by municipalities which are losing federal revenue sharing monies due to the change in collecting the New Jersey gross receipts and franchise taxes.

In order to enable the State to correct the problem, Senator Bradley had secured an amendment for the State that would have corrected this problem. However, the amendment required the State to amend its franchise and gross receipts tax statute to provide for local retention and collection in order to continue this treatment of the gross receipts taxes under the federal revenue sharing formula. The amendment required the Governor of the State of New Jersey to notify the Secretary of the Treasury by January 1, 1983 that this change has been made. I had legislation introduced to accomplish this. However, the Legislature declined to pass the bills in time so that this alternative is no longer available.

The solution proposed by this bill is not possible because of the many millions of dollars which it would cost the State in the FY'83

and FY'84 budgets. With the present fiscal constraints facing the State, this alternative is not feasible. In addition, the potential liability imposed on the State in future years by the bill is enormous. The program is not specifically targeted to losses caused by the change in the collection method for the gross receipts and franchise taxes. It requires reimbursement for losses due to normal formula changes or decreases in federal appropriations to the program.

Accordingly, I herewith return Assembly Bill No. 1984 (OCR) without by approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 784 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 784 with my recommendations for reconsideration.

This bill requires every State licensed health care facility (facility) to notify the State Board of Medical Examiners (Board) of: (1) the results of any disciplinary proceeding by the governing body of the facility against a physician or surgeon licensed by the Board if it results in a physician's or surgeon's reduction or suspension of privileges or removal from the medical staff of the facility; and (2) any medical malpractice liability insurance claim settlement, judgment or arbitration award to which the facility is a party. This bill also requires an insurer or insurance association to notify the Board of any medical malpractice claim settlement, judgment or arbitration award for over \$25,000.00, against any Board licensed physician or surgeon insured by the insurer or association; an insurer or insurance association is immune from liability for furnishing this information.

I fully agree with the intent and purpose of this bill, which is to eliminate the serious impact on the public of impaired, dishonest or incompetent health care professionals. However, despite its praiseworthy goal, this bill as written contains certain technical and substantive deficiencies, which, if cured, will further ensure that its intent and purpose are achieved.

As written, this bill does not provide a time limit or specify when the required notifications shall be made to the Board. If facilities or insurance companies choose to wait months before they notify the Board of a disciplinary proceeding claim settlement, judgment

or arbitration award against a professional, certain medical practices which endanger the public health, safety and welfare may needlessly continue. To ensure that the required notifications will be put to maximum use in protecting the public health, all such required notifications should be made within thirty days of the specified event or request.

As written, this bill provides that facilities shall *only* report a disciplinary proceeding "when the proceeding results in a physician's or surgeon's reduction or suspension of privileges or removal from the medical staff. . ."

Based on the experiences of the Board in reviewing past cases, it is more common for a facility to encourage and allow a "problem" professional to "resign" (under threat of removal if he or she refuses) than to actually suspend or expel the individual. Thus, this bill's present operative language may only encourage even greater use of that euphemism as a bargaining device—and would not provide much additional nor useful information to the Board, which would remain in ignorance of a potentially dangerous situation. Worse yet, the "problem" professional is free to apply to another facility which may unsuspectingly accept his or her candidacy since the application for privileges typically asks only about prior suspensions or removal of privileges. In fact, the facility ridding itself of the potentially unqualified professional by accepting a "resignation" will sometimes go so far as to promise in exchange that it will avoid disclosing the reason for the professional's departure to any new facility checking application credentials. Our keen interest in protecting the public health is not served by such defensive maneuvers carried out in fear of threatened litigation by the departing professional. The operative language of this bill should be broadened to require notification to the Board of all facility disciplinary actions as well as proceedings, and resignations resulting from such disciplinary actions.

Accordingly, I herewith return Assembly Bill No. 784 and recommend that it be amended as follows:

Page 1, Section 1, Line 4: delete "The results of any" and insert "Any"; after "proceeding" insert "or action taken"

Page 1, Section 1, Line 6: after "proceeding" insert "or action"

Page 1, Section 1, Line 7a: after "removal" insert "or resignation"

Page 2, Section 1, Line 12: delete "and"

Page 2, Section 1, Line 13: after "board" insert "and shall be made within thirty days of the proceeding or action, request, settlement, judgment or award"

Page 2, Section 2, Lines 2-3: delete "forthwith"

Page 2, Section 2, Line 7: after "association." insert "Any physician or surgeon licensed by the Board who is not covered by medical malpractice liability insurance shall notify the Board in

writing of any medical malpractice judgment or arbitration award for over \$25,000.00, to which he or she is a party."

Page 2, Section 2, Line 8b: delete "and"

Page 2, Section 2, Line 9: after "board" insert ", and shall be made within thirty days of the settlement, judgment or award"

ASSEMBLY BILL No. 785 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 785 with my recommendations for reconsideration.

This bill grants immunity from civil damages to any person who in good faith and without malice provides information to the State Board of Medical Examiners (Board), voluntarily or upon request, concerning the repeated or gross misconduct of a Board licensed physician or surgeon which the person or the Board has reasonable cause to believe violates the State medical practice act. This bill also provides that (1) a physician, surgeon, or other person may not invoke the physician-patient privilege to prevent such information from being provided to the Board; (2) in the event such information is received by the Board concerning any matter relating to the same parties and the same questions of law and fact involved in pending criminal or civil proceedings, the Board shall defer disciplinary proceedings on such matter until final disposition of the criminal or civil proceeding; and (3) any information supplied to the Board is confidential pending final disposition of its inquiry or investigation.

I fully agree with the intent and purpose of this bill, that is to recognize and eliminate the serious impact on the public of impaired, dishonest or incompetent health care professionals. Despite its praiseworthy goal, this bill as written contains certain technical and substantive deficiencies, which, if cured, will further ensure that its intent and purpose are achieved.

As written, this bill provides immunity *only* in cases of "repeated or gross" misconduct. Existing law (Professions and Occupations Regulated By State Boards of Registration and Examination N.J.S.A. 45:1 *et seq.*) renders licensees of *all* professional and occupational licensing boards (including the State Board of Medical Examiners) liable to disciplinary proceedings for a much broader class of conduct than that contained in this bill. Under N.J.S.A.

45:1-21 a licensee (such as a health care professional) who engages in dishonesty, fraud, deception, gross negligence, gross malpractice or repeated acts of negligence, malpractice or incompetence as well as professional misconduct may be disciplined. Furthermore, licensees who are incapable for medical or other good causes of discharging licensee functions or who have been convicted of moral turpitude or crimes relating adversely to licensing activity are also subject to Board action. If enacted in its present form, this bill would create the anomalous situation whereby a person reporting information for the narrow class of stated activity (gross or repeated misconduct) would be immunized, but a person disclosing fraudulent or deceptive conduct or conduct indicating incapacity (e.g. alcoholism or mental illness) would not enjoy the same immunity. In order to avoid such a result, the standard of "repeated or gross" misconduct should be broadened to include any misconduct.

I am concerned about the probable adverse impact of Section 3 of this bill. This section would paralyze the Board from conducting disciplinary proceedings until *final disposition* of any pending criminal or civil proceeding. Wholly apart from the technical questions of whether or when a criminal or civil proceeding is finally disposed of (i.e. is it at the time of settlement, after a jury verdict, or on the exhaustion of all state and federal appeals) and whether the parties' questions of law and fact are the same (questions which are of no small legal dimension), to require the Board to defer its proceeding usually for a period of years will effectively foreclose *any* disciplinary proceeding in the matter. Witnesses' recollections will fade, key witnesses will no longer be available and perhaps most importantly, the public's interest in effecting a cessation of improper licensee conduct is precluded. For example, if a physician were the subject of a criminal indictment or a civil action regarding medicaid or medicare fraud, the Board's disciplinary action would have to await the final outcome of that proceeding, which can pend for years. Also, it is possible that the mere presence of a criminal investigation or a grand jury inquiry would constitute a "criminal proceeding" within the meaning of Section 3 and, therefore, preclude disciplinary proceedings. Similarly, an egregious instance of malpractice, or misconduct (e.g. a sexual assault within the course of a medical examination or unnecessary or improperly performed surgery) simply by virtue of its pendency in civil or criminal litigation would bar proceedings by the Board. While it is true that this section allows for a temporary suspension of licensure where continued medical practice "would endanger the public health, safety or welfare", the present status of the law (which allows for parallel proceedings) protects *both* the public's interest as well as that of the individual licensee. Therefore, Section 3 should be deleted in its entirety.

Accordingly, I herewith return Assembly Bill No. 785 and recommend that it be amended as follows:

Page 1, Section 1, Line 5: delete "repeated or gross"

Page 2, Section 3, Lines 1-12: delete in entirety

Page 2, Section 4, Lines 1-2: delete "4." and insert "3."

Page 2, Section 5, Line 1: delete "5." and insert "4."

Respectfully,

ASSEMBLY BILL No. 3003 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3003 (OCR) with my objections and recommendations for amendment.

The purpose of this bill is to amend Title 39 of the Revised Statutes to ensure that New Jersey's Vehicle Weight Enforcement Program is consistent with federal law. The bill further amends Title 39 to permit the presence of longer trucks and "double-bottom" vehicles on our Interstate highways in accordance with the mandate of the Federal Surface Transportation Assistance Act of 1982 (STAA). The STAA and the Appropriations Act of 1982 made several significant changes in federal law governing the length and width of trucks using the Interstate system and other qualifying federal aid highways. Assembly Bill No. 3003 (OCR) would bring New Jersey into conformity with the dimensional requirements of this federal legislation.

Under the federal legislation, states must allow semi-trailers of no less than 48 feet in length when in a tractor/semi-trailer combination and no less than 28 feet in length when in a tractor/semi-trailer, trailer combination, more commonly known as "double-bottoms." The states are also precluded from setting an overall length limitation on tractors, semi-trailer or tractor/semi-trailer combinations. Additionally, no state may impose a length limitation on the tractor portion of truck combinations consisting of a tractor and either one or two trailing units because it could have the practical effect of imposing an overall length limitation on these truck combinations.

In enacting the Surface Transportation Assistance Act, Congress has not only preempted this and every other state's discretion in determining the dimensions of commercial vehicles which can safely travel their roads, but it has done so at the threat of losing Federal Highway funds. I am vehemently opposed to the existence of these large "double-bottom" vehicles on our highways and am incensed that Congress has dictated to the State of New Jersey dimensional limitations which intimidate our motoring public and threaten their safety on our highways. It is my intention, therefore, to see to it

that New Jersey's motorists are protected to the fullest extent possible and to ensure that our highways and bridges remain durable by complying with the absolute minimum requirements of the federal legislation. This can only be accomplished by enacting legislation which makes New Jersey's allowable length limitations reflective of the minimum standards permitted under federal law.

As such, I propose that the trailer length limitation on the "double-bottom" vehicles be amended to reflect a 28 foot maximum as opposed to the 28½ foot limit present in the bill.

In addition, the final printed version of Assembly Bill No. 3003 (OCR) failed to completely mirror the amendments adopted on the Senate floor regarding the grandfathering provisions for "constructor" vehicles. As such, I have incorporated this missing language into the conditional veto.

Therefore, I herewith return Assembly Bill No. 3003 (OCR) and recommend that it be amended as follows:

Page 8, Section 2, Line 75y: After "feet" delete "six inches"

Page 15, Section 3, Line 24: After "is" insert "operated within an area that is 30 miles or less from"

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
May 26, 1983.	

ASSEMBLY BILL No. 2274 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2274 (OCR) with my recommendations for reconsideration.

This bill provides for the issuance of alcoholic beverage licenses or special permits to certain private clubs and organizations in towns which have passed referenda outlawing the sale of alcoholic beverages. The statute which this bill amends presently provides for the issuance of licenses or permits to bona fide golf and country clubs in such municipalities.

An Assembly committee amendment which only allowed the issuance of these licenses and permits in towns having a population of more than 16,000 but less than 40,000 according to the most recent decennial federal census, in a county of the second class, would inadvertently invalidate licenses which have been issued to private golf and country clubs under the present statute. This error should be corrected, as should a second, technical error in the bill.

Accordingly, I herewith return Assembly Bill No. 2274 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 4: After "municipality" DELETE remainder of the line.

Page 1, Section 1, Line 5: DELETE entirely

Page 1, Section 1, Line 6: Before "in which" DELETE "county of the second class"

Page 2, Section 2, Line 10: Before "bona fide" DELETE "an order, organization or association or a" and INSERT "such a constituent unit, chartered or otherwise duly enfranchised chapter or member club or a"

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

[SEAL]

Attest:

/s/ W. CARY EDWARDS,
Chief Counsel.

Mr. Doyle moved that the message be spread in full upon the minutes.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL NO. 775

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 775 with my objections and recommendations for amendment.

The purpose of this bill is to provide that the State Attorney General shall cause to be prominently advertised in every county of this State, by the means he deems most effective, notice of the amendments to the New Jersey Code of Criminal Justice providing mandatory and extended terms of imprisonment for persons convicted of committing certain crimes while in possession of a firearm (the Graves Act).

I have long supported the general intent behind this bill. I have had my staff working on this proposal for nearly one year. We have contacted Florida, Massachusetts, Pennsylvania and other states who already have similar legislation and who already have experience in conducting such advertising campaigns. Based on the experiences of other states, I am convinced that this can be an effective program to combat crime.

My Staff has compiled cost estimates for different methods of advertising criminal penalties. We have studied the possibility of radio and television advertising, billboards, store window decals, brochures and other methods of advertising. My staff has made recommendations before both the Assembly and Senate Committees to amend this bill, particularly in regard to the fiscal impact and costs of this bill, and yet these recommendations were not adopted. My staff made specific recommendations as to how to fund such a program, and based upon the experiences in Pennsylvania, Massachusetts and Florida, I am convinced that the private sector will help finance such a campaign through a non-profit organization. Such a proposal was made to the Legislature, yet the bill contains no funding mechanism.

The Attorney General has also expressed concern regarding this bill. He points out first, that the bill is mandatory in nature; second, the means he selects could be subject to criticism and defendants might try to escape the mandatory sentencing by alleging the Attorney General failed to meet his obligation to post notices pursuant to this bill; and third, there is no funding for this legislation, and the costs would be prohibitive.

In Pennsylvania, where a similar program was initiated in 1982, the start-up costs were approximately \$100,000. I recommend the bill be amended to provide an appropriation of \$75,000 for start-up

costs. My staff examined two possible vehicles for advertising criminal penalties. The first option is to create a charitable educational organization which would qualify under Section 501 (c) (3) of the United States Internal Revenue Code and be incorporated as a non-profit corporation under the laws of the State of New Jersey. The second option is to create a commission in State government which would qualify under Section 170(c)(1) of the United States Internal Revenue Code. As such, either organization will be able to receive tax deductible contributions from the private sector to finance an advertising campaign. The purpose of the corporation or commission should be to educate the general public in New Jersey concerning the existence of the State's mandatory sentencing laws, particularly the mandatory sentencing law providing mandatory and extended terms of imprisonment for persons convicted of committing certain crimes while in possession of a firearm, and other criminal statutes. The impact of the project should increase the effectiveness of those laws and enhance the safety of residents of the State.

The corporation's Board of Directors or the members of the Commission should be made up of individuals who believe that citizens must be made aware of the law and that an active public education campaign must involve public officials and community leaders. The members of the Board or Commission, its staff, and representatives of associations and citizens should coordinate their activities in order to successfully develop television, radio, newspaper, billboard, and printed materials for public dissemination.

In analyzing the above proposals, I feel a Commission established in the Department of Law and Public Safety which will be able to receive tax deductible contributions from the public sector and which is authorized to establish a non-profit corporation is the best option. I recommend the Commission be composed of two State Senate members who are not representatives of the same political party, appointed by the President of the Senate; two General Assembly members, who are not representatives of the same political party, appointed by the Speaker of the General Assembly; the State Attorney General or his designee; the President of the New Jersey Police Benevolent Association; the President of the State Prosecutors Association; and twelve public or Governmental official members appointed by the Governor.

I further recommend the State appropriate funds to match contributions made to the Commission up to \$250,000 (\$250,000 private contributions and \$250,000 appropriated by the State). This would create a fund of \$500,000 by which to conduct an effective advertising campaign.

Therefore, I herewith return Assembly Bill No. 775 and recommend it be amended as follows:

"1. This act shall be known and may be cited as the 'Act to Deter Criminal Activity.'

2. There is hereby established in the Department of Law and Public Safety the 'New Jersey Commission to Deter Criminal Activity.' The commission shall consist of 19 members.

a. Two members of the New Jersey State Senate who are not representatives of the same political party, appointed by the President of the Senate.

b. Two members of the New Jersey General Assembly who are not representatives of the same political party, appointed by the Speaker of the General Assembly;

c. The State Attorney General or his designee;

d. The President of the New Jersey Police Benevolent Association or if he shall refuse to serve, fail to qualify, or become disqualified, a public member appointed by the Governor;

e. The President of the State Prosecutors Association or if he shall refuse to serve, fail to qualify, or become disqualified, a public member appointed by the Governor; and

f. Twelve public or governmental official members appointed by the Governor. All members shall serve without compensation but may be reimbursed for reasonable expenditures incurred during the performance of their duties for the commission.

3. The legislative members, Attorney General, Police Benevolent Association President, and Prosecutors Association President shall serve for terms contiguous with their elective or appointive term. The other members shall be appointed for terms of three years and shall serve until the appointment of their successors, except that the terms of those members who are first appointed shall be staggered terms of one, two, and three years respectively as determined by the Governor. Vacancies shall be filled for unexpired terms only and in the same manner as the original appointment.

4. The commission shall meet at least four times annually and the first meeting shall be held within 90 days of the enactment of this act.

5. A chairman shall be designated by the Governor from among the members of the commission.

6. The commission shall be empowered to:

a. Solicit and receive gifts, bequests, donations and grant aid from any source whatsoever. These funds shall be used for the purpose of educating the general public in New Jersey regarding the State's criminal statutes and the consequences of committing criminal acts in the State. Such contributions, gifts, bequests, donations, or grant aid shall be used exclusively for public purposes;

b. Advertise the consequences of participating in criminal activity in any media the commission deems appropriate, including but not limited to television, radio, newspaper, billboards, or printed material;

c. Educate the general public in New Jersey regarding the State's criminal statutes and the consequences of committing criminal acts in the State. The commission shall educate the general public regarding the State's mandatory sentencing laws, and particularly the mandatory sentencing law providing mandatory and extended terms of imprisonment for persons convicted of committing certain crimes while in possession of a firearm;

d. Enter into contracts with a person upon terms and conditions as the commission shall determine to be reasonable, employ a staff and do any thing the commission deems necessary, to carry out the purposes and to exercise the powers given and granted in this act;

e. Establish a nonprofit charitable educational corporation under the laws of the State of New Jersey which shall be empowered to exercise the powers given and granted to the commission in the preceding subsections of this section to carry out the purposes of this act. A nonprofit corporation established by the commission shall be organized and operated exclusively for educational or other charitable purposes; no part of the net earnings of which shall inure to the benefit of any private shareholder or individual upon the liquidation or dissolution of the corporation for any cause whatsoever, neither the property of the corporation nor any right therein shall inure to the benefit of any of the directors, officers, or any other private individual but all property or rights therein, or the proceeds thereof, shall be fully disposed of by the Board of Directors of the nonprofit corporation to one or more organizations which then qualify as organizations described in Section 501(c) (3) of the Internal Revenue Code of 1954, or the corresponding provisions of any subsequent law, or to a governmental unit as the Board of Directors may select; no substantial part of the activities of which shall be carrying on propaganda, or otherwise attempting, to influence legislation; and any such non-profit corporation established hereunder shall not participate in, or intervene in including the publishing or distributing of statements, any political campaign on behalf of any candidate for public office.

7. The commission shall appoint from its class of members appointed pursuant to subsection f. of Section 2 herein, the Board of Directors of a nonprofit corporation established by the commission pursuant to subsection e. of section 6 of this act. All members of the Board of Directors shall serve without compensation but may be reimbursed for reasonable expenditures incurred during the performance of their duties.

8. There is hereby appropriated from the General Fund \$75,000.00 for the general use of the commission and \$250,000.00 to be allocated as provided in section 9 of this act.

9. The \$250,000.00 appropriated to the commission in section 8 of this act shall be allocated to the commission in an amount equivalent to funds donated to the commission, or to any non-profit corporation established by the commission pursuant to subsection e. of section 6 of this act, in the aggregate from nongovernmental sources. The cumulative State appropriations matching donations to the commission, or non-profit corporation, from nongovernmental sources, in the aggregate, shall not exceed \$250,000.00.

10. A person who has been convicted of a crime shall be subject to the mandatory sentencing provisions of Title 2C of the New Jersey Statutes despite the failure of the commission or any non-profit corporation established by the commission pursuant to subsection e. of section 6 of this act to adequately advertise the mandatory sentencing provisions thereof."

ASSEMBLY BILL No. 1312 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1312 (OCR) with my objections for reconsideration.

This bill establishes a mechanism whereby municipalities that own deteriorated property can encourage redevelopment of the property through lease-purchase arrangements with resident first-time homebuyers and housing corporations. The bill would enable municipalities to enter into a lease-purchase arrangement with a resident first-time homebuyer or a housing corporation for municipal property which meets certain criteria set forth in the bill.

Under the terms of the lease, the lessee must undertake the rehabilitation or conversion of the property for residential purposes pursuant to a schedule set forth in the lease. The bill anticipates that the property leased from the municipality will be rehabilitated or converted, and then the units leased to low and moderate income tenants. The rents charged to these tenants must be within low and moderate income ranges.

The lease with the municipality may give the first-time homebuyer or housing corporation an option to purchase the property. The purchase price must reflect the fair market value of the property as determined at the time of the execution of the lease, plus the

interest on this value. In order to obtain funds to exercise the option, the lessee may include in the rents charges which may be accumulated to be used to purchase the property.

I have no objections to the program set forth in this bill. I am returning it for technical amendments. I am proposing a series of amendments which will assure that the terms "housing corporation" and "resident first-time homebuyer" are used uniformly throughout the bill to refer to the lessee under discussion. In some places the bill refers to a "nonprofit corporation" or "lessee corporation," terms that are inconsistent with the definition amendments made to the bill in committee. I am also deleting from the bill the inconsistent cross-references between section 8 and section 12 with respect to a proposed amendment to N. J. S. 40A:12-21. The sponsor advises that this cross-reference is unnecessary and that the amendment to N. J. S. 40A:12-21 may be deleted from the bill. In its place, an amendment may be inserted in section 8. b. to clarify that if the lessee declines to exercise its option to purchase the property or renew the lease, the municipality may negotiate a lease or purchase with another housing corporation or resident first-time homebuyer pursuant to the terms and conditions of the bill.

Therefore, I herewith return Assembly Bill No. 1312 (OCR) and recommend that it be amended as follows:

Page 1, Title, line 2: Delete "stuctures" and insert "structures"

Page 1, Title, line 4: Delete "rousing" and insert "housing" delete "law" and insert "low"

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
June 13, 1983.	

ASSEMBLY BILL No. 1704

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1704 without my signature.

This bill is designed to increase disability benefits under New Jersey's Workers' Compensation Law to injured workers who have held more than one job. At present, if an employee holds more than one job (let us say one part-time and one full-time) and he is injured while working at the part-time job, his compensation benefits are based upon the salary he was making at the part-time job. The following example illustrates how one worker's hypothetical benefits would be calculated:

		Workers' Compensation Benefit
Worker X	Job A = 35 hrs/wk @ \$5/hr. = \$175	\$122.50/wk
<hr/>		
(holds 2 jobs)	Job B = 10 hrs/wk @ \$6/hr. = \$ 60	42.00/wk
		<hr/>
		\$235

Thus, worker X is accustomed to bringing home \$235/wk. If injured during Job B, however, he will only receive compensation based on his second job (e.g. \$42/wk). Assembly Bill No. 1704 seeks to increase the benefits payable to a worker in this type of situation by requiring the part-time employer to pay benefits based

upon the total number of hours worked by the employee at all of his jobs. Hence, under the example above, employer B would be responsible for paying out benefits to the employee of \$164.50 (\$122.50 + \$42.00).

A major overhaul of our Worker's Compensation Law was completed in 1980. The reforms which were adopted at that time held down employer costs while providing substantially increased benefits to seriously injured workers. The inequity which now exists with regard to the limited class of people who fit into the above described category represents a gap in our reform efforts of 1980. This particular bill, though well intentioned, is not the method to use to correct that inequity.

Assembly Bill No. 1704 does not address the broad questions of how to determine benefits and how to distribute fairly the costs for injuries to persons holding multiple jobs. It imposes a seemingly arbitrary threshold of 35 hours per week and is silent with regard to the practical problems which would flow from enactment of the bill such as what happens if a minor injury incapacitates the worker at one job but not at another, and what types of corroboration of "other employment" may be necessary beyond the employee's assertions that he is entitled to the benefits under this bill.

There has been no cost analysis or study on how to finance the increased benefits mandated in Assembly Bill No. 1704. It is conceivable that a fund, similar to the Second Injury Fund now in existence, could be used to spread the cost of this benefit. This would be in keeping with the notion that all employers should bear the cost of workers' compensation benefits.

While fully supportive of legislation which promotes our public policy of adequately meeting the economic needs of injured workers, I feel that Assembly Bill No. 1704 is not comprehensive enough so as to avoid the obvious questions which will arise from both employees and employers.

Accordingly, I herewith return Assembly Bill No. 1704 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 867 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 867 (OCR) with my recommendations for reconsideration.

Assembly Bill No. 867 makes two amendments to the statute which prohibits littering on highways and roads in the State. First, the bill creates a rebuttable presumption with respect to who in the vehicle is doing the littering. Specifically, the bill provides that the registered owner of the vehicle, if present in the vehicle or, if the registered owner is not present, then the driver is presumed to be responsible for violating the statute where the following three conditions are met: 1) the litter is thrown or dropped from the vehicle by an occupant of the vehicle; 2) there are two or more occupants in the vehicle; and 3) it cannot be determined which occupant of the vehicle is the violator. This amendment addresses an enforcement problem under the anti-littering law. A law enforcement officer may see litter coming from a car and be able to take down the license plate number without seeing who actually did the littering. This bill provides an appropriate way to address this practical problem.

The second amendment would require that penalty points be assessed against a person who violates the anti-littering law. The bill directs the Director of the Division of Motor Vehicles to adopt rules and regulations assessing penalty points against violators of the statute. However, these penalty points would not be included as points for the purposes of surcharges under the New Jersey Automobile Insurance Reform Act. I am recommending that this amendment be deleted from the bill.

The point system which we have developed through our Department of Motor Vehicles is designed to remove from our roads dangerous and unsafe drivers. It does so by assessing points for various traffic violations, and imposes sanctions, such as mandatory attendance at driver education classes or license revocation, once a certain number of points have been accumulated. While littering is certainly wrongful conduct and presents the public with an unpleasant nuisance, it does not raise the serious safety issues that offenses such as failing to stop at a red light do. The Legislature has recognized the difference between the offense of littering and other traffic violations by providing that the points for littering would not be accumulated for surcharge purposes under the New Jersey Automobile Insurance Reform Act. Accordingly, I see no reason for including the offense of littering within our motor

vehicle point system and recommend that this provision be deleted from the bill.

Accordingly, I herewith return Assembly Bill No. 867 (OCR) and recommend that it be amended as follows:

ASSEMBLY BILL No. 1458

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1458 with my recommendations for reconsideration.

Assembly Bill No. 1458 amends the New Jersey Statutes governing fiduciary corpus commissions. The bill changes the way in which corpus commissions are calculated for executors and administrators of decedents' estates and fiduciaries for the estates of absentees. Under current law, these fiduciaries are allowed corpus commissions of 5% on the first \$100,000 of corpus and up to 5% on the excess. In addition, where there are two or more fiduciaries, commissions may be allowed up to 1% for each additional fiduciary. The standard for fixing the corpus commissions within these ranges is the "actual pains, trouble and risk" which the fiduciary experienced in settling the estate. In addition, the court has the discretion to allow commissions in excess of the above percentages where unusual or extraordinary services have been rendered.

In place of this discretionary approach to corpus commissions, the bill would substitute a mandatory schedule of corpus commissions. The bill would require that the corpus commissions be calculated as follows:

—5% on the first \$200,000;

—3½% on the excess over \$200,000 up to \$1,000,000; and

—2½% on the excess over \$1,000,000.

The above percentages represent a minimum amount of corpus commissions, since the bill gives the court discretion to impose an even greater percentage.

Where there are two or more fiduciaries, the bill would require that an additional 2% in corpus commissions be allowed for one additional fiduciary. If there are more than two fiduciaries, then corpus commissions would be increased by 1% for each additional fiduciary.

The bill goes on to repeal the statutory standard that commissions on corpus in excess of \$100,000 must be made with regard to the fiduciary's "actual pains, trouble and risk in settling the estate, rather than in respect to the quantum of the estate." This standard affects corpus commissions for trustees under the will, guardians, as well as personal representatives of decedents' estates and fiduciaries for absentees.

The bill thus changes the philosophy governing the award of corpus commissions from a discretionary allowance to a mandatory schedule. The value of having a fixed schedule Statewide is that it will assure uniformity throughout the State with respect to the award of corpus commissions. All parties involved, the testators, beneficiaries as well as the fiduciaries, will have certainty with respect to the amount of corpus commissions to be paid by the estate. While I appreciate the need for some uniformity and certainty in the awarding of corpus commissions which the schedule set forth in this bill accomplishes, there still should be some flexibility in awarding corpus commissions. Commissions should also reflect the work and responsibility of the fiduciary in managing the estate and not be purely a function of the size of the estate. Accordingly, I recommend that the "pains, trouble and risk" standard be retained in the statutes to assure that deviations may be made from the statutory schedule in accordance with this standard. I am updating the language in that provision in order to accommodate the new statutory schedules.

I am advised by probate experts that the increase in corpus commissions set forth in the bill is justified due to the increased complexity of estate management, caused by the number of investment alternatives available and the many changes in the gift and estate tax laws. The potential liability of fiduciaries has increased accordingly.

While I agree that additional compensation for fiduciaries may be necessary, the schedule set forth in this bill seems too high. The bill's schedule is higher than the Division of Taxation's guidelines. The Division of Taxation has in its regulations a schedule for calculating corpus commissions for executors and administrators which it will allow as a deduction on the estate's transfer inheritance and estate tax return. In the absence of a court judgment awarding a different sum for commissions, the estate may take these sums as a corpus commission deduction. For estates in excess of \$1,000,000

I would recommend that the guidelines from the Division of Taxation be used and accordingly would reduce the $2\frac{1}{2}\%$ figure set forth in the schedule for commissions on corpus in excess of \$1,000,000 to 2%.

In addition, I find excessive the mandatory 2% in corpus commissions for one additional fiduciary and a mandatory 1% for any fiduciary more than two. In a multi-million dollar estate where there are three fiduciaries, the bill would mandate that corpus commissions total $5\frac{1}{2}\%$ of the corpus in excess of \$1,000,000 ($2\frac{1}{2}\%$ for the first fiduciary, plus 2% for the second fiduciary, plus 1% for the third fiduciary). I recommend that the current rule be retained which gives the court discretion in awarding commissions up to 1% for each additional fiduciaries. I note that the bill provides no fiduciary would be entitled to any greater commission than he would be allowed if there were one fiduciary involved. This is a fair and sensible rule and one I recommend we implement.

The bill also permits real estate to be included in corpus for the purposes of calculating corpus commissions. However, an automatic award of commissions based on real estate could create liquidity problems for an estate. Current law gives the court discretion to allow a fiduciary reasonable compensation with respect to services which the fiduciary rendered to real estate. In addition, the testator can provide in his will for compensation to the fiduciary for real estate included in the estate. Accordingly, under current law a fiduciary may receive compensation for services rendered with respect to real estate and I see no need for this provision which would make such compensation automatic.

The bill also makes a correction to P. L. 1979, c. 501 which set a fixed percentage schedule for calculating corpus commissions based on the years of administration for guardians and trustees under a will. I have no problem with this change.

Accordingly, I herewith return Assembly Bill No. 1458 and recommend that it be amended as follows:

If there are two or more fiduciaries, their commissions on corpus shall be the same as provided in the case of one fiduciary, and, in addition thereto, the court may allow corpus commissions in excess of the commissions to which one fiduciary would be entitled under N.J.S. 3B:18-14, at a rate not exceeding 1% of all corpus for each

additional fiduciary. *No one fiduciary shall be entitled to any greater commission than that which would be allowed if there were but one fiduciary involved.*"

ASSEMBLY BILL No. 3387 (OCR)

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3387 (OCR) with my recommendations for reconsideration.

This bill creates a new basis for determining the 1983-84 maximum tuition rate that private schools may charge local districts for programs for educating handicapped children. This bill specifically bases the maximum tuition rate for 1983-84 on the tuition rate in effect for the 1982-83 school year, but also gives an increase over last year's maximum tuition rate based on the Consumer Price Index (CPI) for the New York and northern New Jersey area as reported by the Department of Labor for calendar year 1982. However, the maximum tuition rate for the 1983-84 school year shall not be less than the ranked per pupil cost for the program in each category of handicap in the New Jersey public schools as calculated by the Department of Education in 1983. This bill supersedes the formula utilized by the State Board of Education for the past seventeen years to the extent that the formula yields figures less than the maximum tuition rate in effect for the 1982-83 school year plus an increase in the CPI.

The Department of Education is required by law to develop a formula for the maximum tuition rate chargeable by private schools for the handicapped with the caveat "in no case shall the tuition rate in a nonpublic school exceed the maximum day class cost of education per pupil of children in similar special education classes

in New Jersey public schools." After taking office, the Commissioner of Education realized that the formula used to calculate the maximum tuition rate and developed pursuant to the aforementioned law, had no relation to the *actual cost* to educate the handicapped children in our private schools. Recognizing this pitfall in the formula, the Commissioner ordered immediate study by a committee which recommended that the maximum tuition rate be based on *actual allowable educational costs* of operating private school programs.

The solution to this whole problem is that tuition be based on *actual cost*. This bill is not the solution. However, recognizing the sensitive nature of this issue, I am going to grant the relief this bill seeks as simply a transitional measure until the Department of Education is ready to implement the actual cost approach. I commend the Commissioner for recognizing the problems with the formula early on and encourage him to implement the actual cost as the basis for the maximum tuition as quickly as possible.

Because actual cost will be the measure of the maximum tuition rate chargeable by private schools for education of the handicapped, there will no longer be a formula to report to the education committees under Section 2 of this bill.

Accordingly, I herewith return Assembly Bill No. 3387 (OCR) and recommend that it be amended as follows:

Assembly Bill No. 831 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 831 (OCR) with my recommendations for reconsideration.

This bill would require a supplier of liquified petroleum gas to residential dwellings to give notice to customers using such gas as a principle heat source five days prior to discontinuing service for non-payment of bills. I believe that five days notice is not sufficient. This bill should provide that seven days notice be given to such customers, as is required pursuant to regulations promulgated by the Board of Public Utilities regarding electricity and natural gas customers.

Accordingly, I herewith return Assembly Bill No. 831 (OCR) and recommend that it be amended as follows:

Assembly Bill No. 2162 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2161 (OCR) with my recommendations for reconsideration.

This bill would permit counties and municipalities to donate unneeded municipal or county realty to a nonprofit national fraternal organization or association or any of its local or regional branches. The public property could be sold to the fraternal organization for nominal consideration at a private sale. The bill permits, but does not require, that the conveyance be conditioned upon an agreement by the fraternal organization or association to provide certain charitable services to residents of the county or municipality, such as assistance to needy, elderly or handicapped citizens, college or technical school students, nonprofit volunteer organizations which provide educational or recreational activities for juveniles and nonprofit organizations providing disaster relief.

I note that the bill does not require that a fraternal organization receiving the public property must engage in any charitable or educational work in furtherance of the public good. Needless to say, the donation of public property to a private social organization without any public or philanthropic purpose being served would be an improper disposition of public property. To address this loophole, I am recommending an amendment to the bill to require that the sale and conveyance of public property to a fraternal organization pursuant to the statute be subject to an agreement with the fraternal organization to provide charitable services to residents of the county or municipality. This provision will assure that a sale and conveyance under the act will serve the public interest.

Accordingly, I herewith return Assembly Bill No. 2162 (OCR) and recommend that it be amended as follows:

Assembly Bill No. 776 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution of New Jersey, I herewith return Assembly Bill No. 776 (2nd OCR) with my recommendations for reconsideration.

The bill would create the New Jersey Life and Health Guaranty Association, which in the event of the impairment of insolvency of an insurer, would guarantee the payment of benefits and continuation of coverages for the protection of policyholders of the impaired or insolvent.

All insurers selling the types of contracts covered by the act would be required to be members of the Guaranty Association as a condition of doing business in New Jersey. The Association would come under the immediate supervision of the Commissioner of Insurance, and would be subject to the applicable provisions of the insurance laws of New Jersey.

Several sections of the bill trouble me. Section three contains a provision which excludes from the bill's protection, the holders of single premium deferred annuities. Many citizens in our State hold such annuities and would be unprotected if a provider of these services were to become insolvent. Of the 27 states which have enacted Life and Health Guaranty Funds, all of them have included single premium deferred annuity policyholders. There should be uniformity of financial security to all New Jersey policyholders.

Also, section 16 of the bill establishes that upon contribution of funds to the Association, the insurer may offset in any succeeding calendar year, until such contribution is fully recovered, up to 20% of the amount of such contribution against its premium tax liability to this State accrued with respect to business transacted in the calendar years following contribution.

In essence, this section passes along all the costs of the Guaranty Fund to our State Treasury. Though members of the insurance industry would administer the Fund, they would be essentially free from its financial obligations because of their ability to receive a credit for their assessments to the Fund against their outstanding tax premium liability.

Accordingly, I herewith return Assembly Bill No. 776 (2nd OCR) and recommend that it be amended as follows:

Section 3, Page 2, line 26: After "et seq.") insert "." and omit rest of line.

Section 3, Page 2, lines 27 and 28: Omit in entirety.

Section 16, Pages 13 and 14, lines 1 through 20: Omit in entirety.

ASSEMBLY BILL No. 3081 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3081 (OCR) with my recommendations for reconsideration.

This bill appropriates \$15,000,000.00 to the Department of Environmental Protection from the Natural Resources Fund created pursuant to the Natural Resources Bond Act of 1980. The act authorized \$15,000,000.00 for dam restoration for State projects, for matching grants to local governments, or for emergency repairs to local or private dams. This bill appropriates funds for matching grants to local governments for 19 dams enumerated in the bill and for administrative costs.

The Senate Revenue, Finance and Appropriations Committee amended the bill by adding six additional projects to the list of projects approved for funding by the Department of Environmental Protection. These six projects have not been included on the department's dam restoration project priority list, but are currently under consideration for funding as part of next year's list. It would be premature to provide funds for these projects until they are fully evaluated as part of the department's prioritization process.

Accordingly, I herewith return Assembly Bill No. 3081 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 4: Delete "\$15,000,000.00" and insert "\$10,300,000.00"

Pages 1-2, Section 1, Lines 17-22: Delete entirely

Page 2, Section 1, Line 23: Before "and for" delete "sion")

Page 2, Section 1, Line 23: After "costs." delete "Of the amount hereinabove"

Page 2, Section 1, Lines 24-26: Delete entirely

ASSEMBLY BILL No. 647 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 647 (2nd OCR) without my signature.

Assembly Bill No. 647 provides a mechanism for imposing certain relocation costs upon landlords. The bill is aimed at landlords whose buildings are evacuated due to health and building code violations. Where municipal officials close a rental building for these reasons, the burden of providing relocation assistance to the displaced tenants falls upon the municipality. This bill would shift that responsibility to the landlord in the following way. Where the landlord has been found in a final court adjudication liable for a civil or criminal penalty under a housing or construction code, the cost of the relocation assistance paid to the displaced tenants would become a lien on the property collectible in the manner provided by law. The owner could appeal the lien on the basis that the cause of the violations was outside his control and that abatement of the code violations is economically unfeasible.

I am in full support of the purpose of this bill. Landlords who fail to abide by the housing and construction codes should be required to bear the costs that their irresponsibility imposes on the public. Nevertheless, I am compelled to veto the bill due to the numerous serious and complicated technical problems which must be worked out before this law can go into effect. I am advised by title and real property experts that the bill is deficient in that it establishes no procedure or requirement for recordation of the lien. Recordation is essential in order that adequate notice can be given to those doing a title search on the property for prospective purchasers or lenders. In addition, no specific duration is placed upon the lien, which means that it could continue indefinitely, which is

clearly an unintended result. In addition, the bill gives no indication of the priority which the lien will have with respect to other liens against the property. Finally, the bill provides no opportunity for the property owner to pay the relocation benefits and obviate the necessity for the lien. Once these issues are satisfactorily resolved, I would be happy to sign legislation addressing this problem.

Accordingly, I herewith return Assembly Bill No. 647 (2nd OCR) without my approval.

ASSEMBLY BILL NO. 1593

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1593 without my signature.

Under current law, three types of students are entitled to a free public education in any given school district: those whose parents or guardians reside in the district, those who have been placed in the district by the Division of Youth and Family Services, and those who live in the homes of district residents other than their parents or guardians, provided that such residents are supporting the children gratis, will assume responsibility for them with respect to school requirements, and plan to keep them beyond the school term.

This bill permits boards of education to place additional requirements of proof of residence and support upon individuals who permit a child of another person to live with them and attend school in their district. Specifically, this bill requires that the child's parent or guardian file with the county superintendent a sworn statement that they are not supporting the child, a copy of their federal income tax return or other documentation the board may deem necessary to support the validity of the sworn statement. Further, the board of education may contest the validity of the sworn statement before the county superintendent for her determination. Either party may appeal the decision of the county superintendent to the commissioner but to do so they must escrow the amount of the net current expense budget per pupil.

There are three major problems posed by this bill: (1) a possible violation of the Administrative Procedure Act; (2) the controversiality of requiring production of Internal Revenue Service forms as documentation of support; and (3) the potentially prohibitive escrow amount required to be deposited with the local board prior to making an appeal.

The Administrative Procedure Act (N. J. S. 52:14F), which established the Office of Administrative Law, requires that administrative hearings be conducted by an independent hearing officer rather than by department functionaries. Certain departments are allowed by statute to perform their own hearings, however, the Department of Education is not one of those. The county superintendents are department functionaries reporting to the Commissioner of Education. By requiring the county superintendents to hold these hearings, this bill seemingly contradicts the intent of the Administrative Procedure Act.

The use of the federal income tax form is of questionable legality and certain controversiality. The bill calls for the use of a "current federal tax return or other documentation as the board may deem necessary" to corroborate affidavits of residency. Although the bill does not absolutely require the production of I. R. S. forms and restricts their use to the extent that they directly pertain to issues of child support, considerable invasion of privacy issues are raised by this provision.

This bill also requires that upon appeal of a determination by the county board of education that a student is ineligible, the appealing party must place in escrow with the local board a sum not to exceed the net current expense budget per pupil for the district. The Department of Education estimates that the escrow amount required would average \$2,800.00. This requirement would place an excessive hardship on low and middle income families, and would constitute a financially based deterrent to pursuing an appeal. This procedure raises questions of due process and equal protection violations.

Despite the aforementioned problems in the bill, this bill does have some positive aspects which the Legislature may want to consider in order to grant relief to our school districts in disproving sworn statements. In addition to the current law which requires the person with whom the child resides to file a sworn statement it requires the parent or guardian to also submit a sworn statement. The bill further deviates from current law by providing for a stiff penalty if any person falsifies the sworn statement. I am reluctant to deal with these positive aspects of the bill through a conditional veto not knowing the full repercussions of such changes without a legislative hearing.

Accordingly, I herewith return Assembly Bill No. 1593 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,

ASSEMBLY BILL No. 1646 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1646 (OCR) without my signature.

Assembly Bill No. 1646 requires that, prior to the adoption, amendment, or repeal of any rule which would impose a penalty upon a municipality or county or its agencies or authorities for noncompliance, a State agency must give at least 30 days' notice of its intended action to the chief administrative officer of the county or municipality. The bill provides that a local government found to be in violation of a rule must be given 45 days in which to comply with the rule before being assessed a penalty.

While laudable in its intentions, the legislation would generate tremendous amounts of unnecessary paperwork and expense for the State. The obligation imposed by this bill on State agencies duplicates the work which they are already obligated to do under the "Administrative Procedure Act," P. L. 1968, c. 410 (C. 52:14B-1 et seq.). The Office of Administrative Law regularly publishes the New Jersey Register which contains the text and explanation of every rule or rule-change proposed by any agency in the State. At present, 289 of our municipal government entities and 13 of our county government entities subscribe to the New Jersey Register. Thus, all of the information which this bill would require the State to provide to local governments is already available as part of the public record for any interested local government.

Finally, I am not convinced that local governments should be given a 45 day grace period to comply with State rules which they have violated before being assessed a penalty for noncompliance. Such a rule can greatly weaken the impact of many State regulations designed to protect the public.

Accordingly, I herewith return Assembly Bill No. 1646 (OCR) without my approval.

ASSEMBLY BILL No. 1680 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1680 (OCR) without my signature.

Assembly Bill No. 1680 amends the Optional Municipal Charter Law to require that a recall petition must be signed by at least 35% of the registered voters of the municipality. Under current law, that percentage is 25%.

Apparently, this bill was passed to inhibit a recall effort currently underway, and thus is designed to have a political impact rather than make any desirable improvement in existing law.

Under the Optional Municipal Charter Law, the recall petition is the first step in initiating the recall of an elected official. Once the petition is signed by the requisite number of the voters and filed, a recall election must be held. If the recall is approved by the affirmative vote of the majority of those voting on the question, the elected official is then removed from office.

The percentage of voters necessary to sign a recall petition must be reasonable. If the figure is too low, the municipality may be plagued by the cost and upheaval of recall elections triggered by a small minority of citizens. On the other hand, if the percentage is too high the citizens may be deprived of their ability to remove from office elected officials who fail to discharge their duties in an effective fashion.

Current law places the percentage of signatures required on a recall petition at 25% for municipalities operating under the Optional Municipal Charter Law. This figure is in line with similar laws governing other municipalities. For example, the percentage of voters necessary to sign a recall petition under the commission form of government is 25% of those who voted at the last general election for members of the General Assembly. N. J. S. 40:75-27. The percentage governing recall petitions in municipalities operating under the Municipal Council or Municipal Manager Plans is 20% of those who voted in the last general election. N. J. S.

40:84-12. The Optional County Charter Law requires that 20% of the registered voters sign a recall petition. N. J. S. 40:41A-89. Accordingly, the 25% figure in the Optional Municipal Charter Law governing recall petitions is consistent with existing law. The increase in that percentage to 35% proposed by this bill is inordinately high when compared with other statutes.

In the absence of any evidence of abuse caused by the present requirements or any other data supporting a change, I find no reason to increase the percentage of voters necessary to sign a recall petition from 25% to 35%.

Accordingly, I herewith return Assembly Bill No. 1680 (OCR) without my signature.

ASSEMBLY BILL No. 2190

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2190 without my signature.

This bill would prohibit the Department of Environmental Protection from siting sanitary landfill facilities for the acceptance for disposal of putrescible waste materials within a $2\frac{1}{2}$ mile radius of public airports or private airports in a county of the second class having a population exceeding 300,000 but less than 350,000. This bill would only apply to Mercer county.

Although I appreciate the concern of the sponsors of this legislation about the hazards to air traffic which are caused by birds attracted to some sanitary landfill facilities, the Department of Environmental Protection presently has rules which ensure that possible bird/aircraft collision hazards are taken into account when landfill facilities are sited. These rules prohibit the operation of landfill facilities within $2\frac{1}{2}$ miles of fourteen designated airports in the State and prevent the operation of such facilities near all airports until effective deterrent plans have been implemented to ensure that bird hazards are minimized. One airport in Mercer county is already included on this list, and the department has discretion to designate other airports if the risks warrant.

I strongly oppose the setting by statute of specific, locally applicable siting criteria for waste disposal facilities. The development and implementation of such criteria and the siting of these facilities is more appropriately left to the regulatory process, which allows the facilities to be planned and constructed in an environmentally sound and logistically suitable way.

Accordingly, I herewith return Assembly Bill No. 2190 without my signature.

ASSEMBLY BILL No. 2248 (2ND OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2248 (2nd OCR) without my signature.

This bill limits the applicability of New Jersey Sunday closing laws (N. J. S. A. 2A:171-1 *et seq.*) by expanding the scope of the "works of necessity and charity" exception to those laws. This exception is defined to include regular fund raising activities of a charitable or religious organization, whether or not such activities are conducted by the organization directly or by paid employees or by the leasing of facilities to independent contractors for the sale of articles otherwise prohibited from being sold on Sundays, whether or not such contractors earn a profit from the sale. In order to be eligible for the exception, a religious or charitable organization must be registered in accordance with the Charitable Fund Raising Act of 1971 (N. J. S. A. 45:17A-1 *et seq.*). Also, the exception does not apply in counties of the first class having a population in excess of 845,000.

In 1981, the citizens of Hudson county voted to retain Sunday closing laws in their county, and I believe they should retain their statutory privilege to decide upon this issue again when it is eligible for a county referendum in 1984. This bill would in effect emasculate what the county voters established they preferred in 1981—no Sunday sales.

Also, I am concerned that this bill violates Article IV, Section 7, Paragraph 9(13) of the New Jersey Constitution, which provides:

The Legislature shall not pass any private, special or local laws . . . Regulating the internal affairs of municipalities formed for local government and counties, except as otherwise in the Constitution provided.

Presently, Bergen and Hudson counties are the only remaining counties where the county citizens, pursuant to their statutory privilege, have voted to retain New Jersey Sunday closing laws as operative. I believe this bill is "special", in a Constitutional sense, because by force of its population limitation, it arbitrarily exempts Bergen county and only applies to Hudson county.

In addition, I am concerned that this bill will provide unnecessary loopholes in the Sunday closing laws, transcending the spirit of the law and providing potentially unscrupulous business concerns with an unfair competitive edge over the large majority of Hudson county merchants, who abide by the law.

While I respect the sponsor's zeal and conviction in obtaining passage of Assembly Bill No. 2248, I nonetheless must return it without my approval. It is unlikely that this bill could pass Con-

stitutional muster, and I believe it would be consistent with established public policy to let the taxpayers of Hudson county decide this issue for themselves.

ASSEMBLY BILL No. 3055 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3055 (2nd OCR) without my signature.

Assembly Bill No. 3055 would establish a tax increment financing act for New Jersey. Tax increment financing is an economic development tool whereby a municipality sets aside an area within the municipality as a tax increment financing district. It then issues bonds to pay for public improvements within the district in order to encourage development. Any property taxes attributable to appreciation of property within the district would be set aside to pay for the bonds.

Under Assembly Bill No. 3055, municipalities eligible for tax increment financing would be past, present, or future recipients of State urban aid. The governing body of a municipality would be authorized to designate a limited area within the municipality as a tax increment financing district. No finding of blight or need for rehabilitation is necessary before designating an area a tax increment financing district. The bill envisions that a district agent would be designated by the governing body to prepare a preliminary tax increment financing plan. The plan must provide that at least 25% of the estimated projects within the district be associated with housing development and that 20% of this 25% must be associated with low and moderate income housing development. The plan must be submitted to the Commissioners of Community Affairs and Commerce and the State Treasurer for approval. Once State approval of the plan is obtained, the plan then must be submitted to the municipal governing body for its approval. Once the plan is approved in this way, then the district agent is authorized to enter into written agreements with developers concerning their proposals for developing the district.

The bill authorizes municipalities to issue tax increment financing bonds to finance implementation of the plan. These bonds could

either be general obligation bonds or a tax increment financing bond similar to a revenue bond. The issuance of the bonds would be subject to the approval of the Local Finance Board. The criteria that the Board may use when approving or disapproving an issue is not specified in the bill. Presumably, the criteria in the Municipal Qualified Bond Act would govern these determinations.

The bill does not clearly outline the ways in which the bond proceeds could be spent. I am advised that the intent is to permit the bond proceeds to be used to help finance project costs of private developers. However, the bill contains no guidelines on how these project costs may be financed to assure that the public interest is met. In addition, the proceeds of the bonds could be used for those purposes for which municipalities may currently use bond proceeds, namely for infrastructure improvements and public facilities.

The bonds would be paid off with the tax increments raised in the district. If the tax increments raised are insufficient to meet the bond payments, then gross receipts revenues due the municipality would be used to meet the debt service payments. In addition, the bill would permit the New Jersey Infrastructure Development Bank to guarantee or insure the bonds. However, the Department of Treasury advises that in light of the other demands upon those revenues, it is unlikely that any infrastructure monies would be available for this purpose.

In the event that the tax increments raised are in excess of the amount needed to pay debt service on the bonds, the excess is to be distributed pursuant to the tax increment plan. The bill contains a sunset provision which limits the ability of governing bodies to designate a district to the 20 years following the effective date of the bill.

In vetoing this bill, I am not categorically indicating my opposition to tax increment financing. However, from the information I currently have, it appears that tax increment financing is a controversial issue. Proponents of tax increment financing, particularly many economic development experts, view it as a useful economic development tool in depressed urban areas. Proponents maintain that tax increment financing can serve as a catalyst for economic development by providing a formal format to gain the cooperation of developers and municipal officials to develop a particular area in the municipality. In addition, tax increment financing may make an infrastructure bond issue politically palatable because the public is assured to the extent possible that the debt service on the bond proceeds is likely to be met by additional revenues raised from the district.

On the other hand, tax increment financing has been criticized as a financial gimmick which presents municipalities with financial disadvantages rather than advantages. Currently, if a municipality wishes to encourage development in a particular area, it may issue general obligation bonds to finance infrastructure and other public improvements in the area. Thereafter, its tax rate would be fixed

taking into account its costs (including the debt service on the bonds) and the total assessed value within the municipality (including the appreciation within the area). The result would be a tax rate which would generate sufficient revenues to pay: (1) the debt service of the bonds, (2) municipal expenses, and (3) any new municipal costs associated with the new development. The school district and county when fixing their tax rates would also be able to take into the account the appreciation in the district and new costs associated with the development in the district and would fix their tax rates accordingly. Thus, there would be sufficient revenues generated by the county and school district to meet their budget needs.

Tax increment financing would disrupt this system in the following way. It would exclude from the calculation of the tax rate any appreciation within the district and would exclude the costs of the debt service on the bonds. Thus, there is no direct correlation with the amount of money needed to pay off the bonds and the tax rate. As a result, the resulting tax increment may or may not be sufficient to meet the debt service payments. Since under the existing system, the tax rate would have been fixed in a manner designed to generate sufficient revenues to pay the bonds and other expenses an argument can be made that from a financial perspective the present system is preferred.

Under the tax increment financing proposal in this bill, if the tax increment is insufficient to pay the debt service on the bonds, the gross receipts monies due the municipality would be used to make those payments. In the event the gross receipts monies were also insufficient to pay the debt service, then the municipality is faced with a serious fiscal problem. If the bonds are general obligation bonds, the municipality would have to pay the debt service from its revenues thereby generating a further deficit in its budget. On the other hand, if the bonds are revenue bonds, the municipality could be faced with a default with resulting fiscal harm to the municipality, other municipalities and the State. It is expected that the interest on tax increment bonds will be higher than the interest on municipal general obligation bonds due to the fact that their payment is somewhat more tenuous.

Of course, if the amount of the tax increment is greater than the amount needed to pay debt service, then the tax rate was too high and the citizens were paying more taxes than the government needed to meet its expenses.

For these reasons, many financial advisors maintain that tax increment financing will offer no financial advantage to New Jersey municipalities. On the contrary, it may lead to higher bond costs, and where the tax increments are insufficient to pay off the bonds, budget deficits will result. By permitting municipalities to issue revenue bonds, we are opening the door for potential bond defaults.

In vetoing this bill, I am not suggesting that tax increment financing has no place in New Jersey. I strongly support redevelopment

in our urban areas and would like to provide our urban municipalities with all of the necessary economic redevelopment tools to spur growth. For example, the administration initiated urban enterprise zone legislation which I recently signed into law which is designed to foster economic redevelopment in our urban areas. However, in our attempts to help urban areas we must be careful that they do not undertake activities which in the long run create greater fiscal problems. Accordingly, I am returning Assembly Bill No. 3055 with the recommendation that tax increment financing be restudied to assure that it does not detract from the financial stability of our local governments, which in itself is important for economic development.

One area of concern is the possibility of a tax increment financing bond default if the tax increments and gross receipts monies are insufficient to meet debt service payments. Perhaps this could be addressed by making the tax increment financing bonds general obligation bonds of the municipality. However, some mechanism would have to be developed to avoid a deficit in the municipal budget in the event the municipality is required to meet the balance of the debt service payments.

Another area of concern meriting further investigation is the use of the increment financing bond proceeds. Should the bond proceeds be limited to traditional uses of municipal bonds, namely infrastructure improvements and public improvements, or should municipalities be able to assist private developers directly with their project costs as well. If so, guidelines or limitations on this use of the proceeds should be implemented to assure that the public interest is being served.

The relationship between the tax increment financing bonds and the municipal debt limitations law must be clarified.

The requirement in the bill that 25% of the development within the tax increment financing district must be housing related has been criticized as too limiting. This is a concern that should be addressed.

The provisions governing the State review of the preliminary tax increment financing plan should be strengthened to assure that State officials can consider the total economic development plan and the fiscal situation within the municipality.

The standards governing the Local Finance Board's review of tax increment financing bond issues must be clarified.

The impact of tax increment financing on school aid should be considered.

One major problem in this bill as drafted is that it would automatically cause budget deficits for the municipal, county and school district because it does not exclude from the calculation of the tax rate the appreciation in the tax increment financing district. If the appreciation in the district is included in the tax rate calculation, then the tax increments would be needed to meet the municipal,

school and county costs. Accordingly, the way in which the tax rates are calculated in a municipality which has a tax increment financing district must be technically worked out. In addition, a provision is needed to exclude the debt service payments on the bonds from the calculation fixing the municipal tax rate. Otherwise too much money will be generated by the taxes, since the amount needed to pay the bonds would be raised from the property outside the district plus the tax increments would be available for that purpose.

The bill also contains other technical problems with respect to the definition of tax increment and the provisions providing that any deficit in the tax increments will be made up by gross receipt funds. The latter provision requires that the Treasurer be notified by January 1 whether the tax increments are sufficient. However, the tax rates are not struck until well after January 1. Accordingly, by January 1 the financial officer has no way of knowing whether or not tax increments will be sufficient.

Accordingly, I herewith return Assembly Bill No. 3055 (2nd OCR) without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3186 (Acs)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3186 (Acs) without my signature.

This bill would permit elected officials in the Village of South Orange to take office on the third Monday in May, the date specified in the Village's special charter, P. L. 1977, c. 183, rather than on July 1 as required by the Uniform Nonpartisan Elections Law. The municipality is seeking this change in order to prevent a six week "lame duck" period which it feels is too long.

I find no strong policy reason for creating a special exception from the Uniform Nonpartisan Elections Law for the Village of South Orange. If the six week waiting period is too long for the Village of South Orange, then it may be too long for other municipalities and perhaps consideration should be given to attending the Uniform Nonpartisan Elections Law. However, riddling that law

with unnecessary exceptions for those municipalities objecting to its provisions will destroy all the advantages of a uniform law.

I do recognize that in some situations an exception from the uniform rule is appropriate. For example, recently enacted P. L. 1983, c. 183 permits commissioners elected under the commission form of government in the Walsh Act to take office the third Tuesday in May. However, this exception was justified due to the peculiar nature of the commission form of government where the elected commissioners serve as the executive heads of the municipality's departments. The form of government in the Village of South Orange is structured in a more traditional way, and does not require special exception.

Accordingly, I herewith return Assembly Bill No. 3186 (Acs) without my signature.

ASSEMBLY BILL No. 3228

To the General Assembly:

This bill provides that in a municipality in which the equalized property tax rate for school purposes would increase in any one year by an amount in excess of \$0.01 per \$100.00 of equalized valuation as the result of notification after January 15 of the prebudget year of a reduction in State aid to education to be paid due to a general reassessment or revaluation of real property valuations in the municipality, the following formula shall apply:

- a. In the year following reassessment or evaluation, State aid shall be paid as if the reassessment or revaluation had not occurred.
- b. In the second year, half of the State aid shall be based on the new property valuation and half shall be paid as if the revaluation had not occurred.
- c. In the third year, State aid shall be based on the new property valuations.

The problems with this bill are threefold: First, while an "equalized property tax rate for school purposes" could be computed using equalized value and the local school budget, property tax rates are set using actual assessed values.

Second, there is only an apparent, not a necessary relationship between assessed value and equalized value. The equalized value is determined for a district as a whole, using the sales/ratio study. Assessed values are determined for individual properties using either the market, income, or replacement approach. A change in assessed value may have an impact upon the equalized value of a district, but a change in assessed value is determined independently of equalized value. In fact, one purpose of a reassessment could be to bring the total assessed value of a municipality in line with its equalized value.

Third, equalized values change constantly. It is not change itself but the change within a district relative to the change Statewide that determines a district's State support ratio, and ultimately its State aid. Also, drastic enrollment declines can affect the State support ratio as dramatically as any revaluation and hence the share of the budget to be raised locally.

Finally, property values are only one of three elements in the State aid formula. The other elements are budgets and enrollments. As each of these varies, the State support ratio will vary. It will be difficult to isolate the effects of a reassessment on total equalized value, and therefore difficult to isolate the effects of the reassessment on the other factors which enter into the aid calculations at both the State and local levels. Administering this law would be a nightmare even if the Department of Treasury was able to identify and isolate the effects of a reassessment on total equalized value.

This is the kind of bill that requires full and meaningful consideration through the legislative process including review by legislative committees and should not go no reference in the legislative process. It further requires a full legislative hearing to provide for input and an exchange of views between affected parties because of the extraordinary relief sought in the bill and the effect it will have on municipalities, school districts and the whole tax structure in the State. This kind of consideration I find to be absent.

Accordingly, I herewith return Assembly Bill No. 3228 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3246 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3246 (OCR) without my signature.

This bill would, for the purpose of establishing the seniority of individuals who work as assistant foresters (fire) in the Division of Parks and Forestry of the Department of Environmental Protection, credit time spent by them in other positions in the division. Several persons holding the position of assistant forester (fire) were upgraded to that position following a reorganization of the division several years ago. The upgrading of the position placed those persons holding the new title together with other assistant foresters in the Division of Parks and Forestry for civil service "bumping" purposes.

The Civil Service Commission is authorized under New Jersey law, to promulgate uniform rules and regulations for the proper implementation of reduction-in-force procedures. These rules are designed to protect all State employees and they provide a right of appeal to the Department of Civil Service for employees who are not satisfied with the determinations made with regard to their status under the rules. Assembly Bill No. 3246, while protecting certain individuals, does so at the expense of other employees and in a manner that is in conflict with these longstanding civil service rules. Because of the State's austere fiscal situation, if the bill were to become law, other employees would have to be laid off to protect the persons covered by it. This is neither fair, reasonable nor desirable.

Accordingly, I herewith return Assembly Bill No. 3246 (OCR) without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3275

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3275 without my signature.

This bill provides that no municipality shall receive nor make a Meadowlands adjustment payment for any year in which its equalization valuation per capital exceeds \$200,000.00. Any Meadowlands adjustment payment made contrary to this act must be returned within 90 days.

When the Hackensack Meadowlands District was formed, an intermunicipal tax sharing formula was devised to enable the municipalities within the district to share the benefits as well as the costs of development in the district. The bill is designed to prevent Teterboro, regarded as a "tax haven," from sharing in the HMDC intermunicipal tax sharing formula.

I am declining to sign this bill because no analysis has satisfactorily demonstrated to me that the change proposed by this bill is in conformity with the purpose of the intermunicipal tax sharing formula. The bill appears to have been drafted specifically in order to exclude Teterboro. It does not reflect a policy directed change to the statute which happens to result in the exclusion of Teterboro. For these reasons, the bill runs the risk of being arbitrary and capricious or being viewed as special legislation.

With this veto, I do not mean to imply that the intermunicipal tax sharing formula should remain unchanged. It may be that restructuring, modifying or fine tuning of the formula is in order. I would willingly entertain any such proposals provided they are based on sound data and analysis and represent a coherent policy on this matter.

Accordingly, I herewith return Assembly Bill No. 3275 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3367

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3367 without my signature.

This bill authorizes the dissolution of a municipal parking authority in circumstances where the authority has outstanding bonds.

Current law provides for the dissolution of a municipal parking authority only where all of its bonds or other obligations have been paid and discharged. N. J. S. 40:11A-24.

This bill permits the governing body of a municipality to dissolve its parking authority in cases where the municipality has : (1) guaranteed the payment of interest and principal on the bonds sold by the municipal parking authority; and (2) the municipality has guaranteed the refinancing of the bond obligation. A municipality meeting this criteria may dissolve the parking authority upon determination that the municipal parking authority has: (1) been operating at a deficit; and (2) has insufficient income to meet its operating expenses and obligations of interest and principal installments due or to become due.

The dissolution of the parking authority must be approved by the affirmative vote of at least 2/3rds of the full membership of the governing body.

The dissolution must be predicated on the following five conditions:

1. All outstanding employment contracts be terminated.
2. The municipality must appropriate sufficient monies to discharge all outstanding debts (other than bonds) of the municipal parking authority.
3. The municipality's guarantee of the parking authority bonds shall remain in effect to pay the interest and principal on the bonds as they become due.
4. All the bondholders of the municipal parking authority and any trustee must consent to the dissolution.
5. Upon dissolution of the parking authority, all of the rights, interests and properties of the parking authority would be transferred and vested in the municipality.

The bill goes on to provide that a copy of the ordinance for dissolution must be certified and filed in the office of the Secretary of State and transmitted to the Director of the Division of Local Government Services. Upon the filing of the certified copy of the ordinance and proof that the bondholders have consented to the dissolution, the parking authority will be deemed dissolved and its property vested in the municipality. A copy of the certified ordi-

nance, certified by the Secretary of State, will be admissible in evidence and serve as conclusive evidence of its proper filing.

The provisions in the bill governing dissolution standing alone are appropriate due to the numerous safeguards for the bondholders, creditors of the parking authority and the public as noted above. However, despite the appropriateness of these provisions, they are inconsistent with a recently enacted law governing the dissolution of local authorities.

P. L. 1983, c. 313 (Assembly Bill No. 144, 1982-1983 session) provides comprehensive legislation regulating the creation, dissolution and fiscal affairs of local authorities. These provisions supplement the laws governing all local authorities. The dissolution provisions in P. L. 1983, c. 313 permit the dissolution of a local authority which has outstanding bonds.

The provisions of P. L. 1983, c. 313 permit a local governing body to dissolve an authority at any time, provided the Local Finance Board approves the dissolution. In approving dissolution, the Local Finance Board must find that adequate provision is made for the payment of all creditors or obligees of the authority and that adequate provision is also made for the assumption of the authority's services which are necessary for the health, safety and welfare of the recipients of those services. This is a much simpler and more comprehensive rule than the narrowly drawn provisions in Assembly Bill No. 3367.

Since there is no need to have in our statutes two ways to dissolve a parking authority which has outstanding bonds, I have decided to veto this bill in favor of the provisions in recently enacted P. L. 1983, c. 313.

I am advised that this bill was introduced to permit the dissolution of a particular municipal parking authority facing financial problems. Since dissolution can now be sought under newly enacted P. L. 1983, c. 313, this bill is no longer necessary for that purpose.

Accordingly, I herewith return Assembly Bill No. 3367 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3519

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3519 without my signature.

This bill would repeal increases in the Residual Market Equalization Charge that were approved on April 4, 1983, and reaffirmed on August 10, 1983.

This bill would usurp the authority of the Department of Insurance in the rate making area. It would have the effect of setting aside an exhaustively considered determination. In addition to constitutional infirmities posed by this bill, the public interest generally is not served by legislative rate making.

The entire question of flat per car surcharges as an offset to residual market losses will be reevaluated early next year in connection with the implementation of the new New Jersey Automobile Full Insurance Availability Act.

Finally, the proper way to produce significant reductions in automobile insurance premiums is through legislative reform of the system. Enactment of reform proposals will achieve true cost containment for New Jersey motorists. I urge the Legislature to act expeditiously on reform measures.

Accordingly, I herewith return Assembly Bill No. 3519 without my approval.

ASSEMBLY BILL No. 3524

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3524 without my signature.

Current law provides that the Director of the Division of Motor Vehicles may fix the fees paid to motor vehicle agents for the registering of motor vehicles, issuing registration certificates and licensing of drivers, and issuing and filing of certificates of origin and certificates of ownership. Assembly Bill No. 3524 requires that the director not allow any fees to exceed fees in effect on February 28, 1983. The purpose of this bill is to limit the fees paid to motor vehicle agents before the Division of Motor Vehicles increased those fees on March 1, 1983. The Legislature has failed to consider the findings and recommendations of two task force reports and one legislative committee report accomplished under the prior administration that dealt with the very issue of compensation of New Jersey motor vehicle agents. I think, therefore, it is necessary to look briefly at the history of the compensation of New Jersey motor vehicle agents.

In February of 1978 the Public Advocate issued a report highly critical of customer services in all motor vehicle agencies. In response to the report then Attorney General Degnan formed an interdepartmental Task Force composed of members from offices of the Attorney General, the Public Advocate, the Division of Motor Vehicles, the Division of Consumer Affairs, and the Bureau of the Budget.

In November 1979 this Task Force issued its report recommending among other things the updating and enforcing of performance standards for agents and their employees. Further, it was suggested that agents enter into contracts with the Division of Motor Vehicles to provide whatever resources would be necessary to improve service. The Task Force's most controversial recommendation which prompted a subsequent legislative committee report was to provide a State takeover of all agencies.

Again, in 1979, the Public Advocate's office issued a follow-up report on the Division of Motor Vehicles and specifically analyzed the customer services that the agencies provided.

On April 11, 1980 Chairman Herman of the Assembly Judiciary Law, Public Safety and Defense Committee submitted a report to the Speaker of the General Assembly opposing the Task Force recommendation of a State takeover of the agencies. The report also stated "it is clear that some of the reasons for poor service in some of the motor vehicle agencies are the responsibility of the State. For example, inadequate fee payments in recent years have caused many local motor vehicle stations to operate short-handed, and in some instances have helped to drive motor vehicle operators totally out of the business. It should be noted that the studies documenting private agency inefficiency were done at a time when the agents were complaining about receiving too little in fees to operate efficiently."

In April of 1981 then Attorney General Zazzali requested the formation of a new Task Force to try to resolve the continuing

debate of the agencies takeover by the State and to further consider the suggestions made by the 1979 Task Force.

In September of 1981 then Director of Motor Vehicles Wiskowski temporarily raised the agent commission rate while at the same time establishing an internal Agency Classification Study Group to develop a *permanent* compensation schedule based on agency volumes and service to the public.

In December of 1981 the second Task Force established by then Attorney General Zazzali issued a report which called for a simplification of the compensation plan for agents, and also recommended that agent compensation be tied to customer services as well as volume.

After the change in administrations, the Division of Motor Vehicles reconvened the study group that the former Director had created in September 1981. The group was directed to develop a method to simplify the compensation plan, that would also provide equity to all parties and ultimately guarantee the service levels to the public.

As a result of the report of that group, this administration implemented the current compensation plan on March 1, 1983. The new plan eliminated a number of complicated mathematical formulas which govern expenses and minimum salary thresholds that had been criticized by the Task Force established under the prior administration. The new compensation plan relates commissions to both volume and business and the quality of service provided to the public. Specifically, the current compensation plan for the first time ever requires each agent to sign a performance contract which mandates that the agent spend a minimum number of hours per week managing agency operations, maintain employee levels as determined by the division based upon the computer configuration in each agency and guarantee that the customer waiting time will never exceed 20 minutes.

The Division of Motor Vehicles has over 20 million one-on-one contacts with citizens of this State yearly. This high degree of public contact requires that the division strive for excellence in rendering services on a prompt, efficient and effective basis. Enactment of this bill, would restrict the Division of Motor Vehicles' ability to most effectively serve the millions of motorists in the State of New Jersey. It rejects the findings and recommendations of the prior administration's Public Advocate and Attorney General's Task Forces not to mention the Legislature's own committee.

Accordingly, I herewith return Assembly Bill No. 3524 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 3697

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3697 without my signature.

The purpose of this legislation is to create a commission to study the cost of financing the pension benefits provided in Assembly Bill No. 484 for veteran members of the Teachers' Pension and Annuity Fund and to appropriate \$100,000.00 to allow the commission to effectuate its purpose.

This legislation is unacceptable for two major reasons. First, it is unnecessary. Independent analyses of the fiscal impact of Assembly Bill No. 484 have been conducted by the Division of Pensions of the Department of the Treasury and by the Division of Budget and Program Review of the Office of Legislative Services. Both of these analyses, which were based on actuarial studies, arrived at the same cost estimate for implementing Assembly Bill No. 484. I cannot perceive the merit of undertaking yet another analysis of this subject, at a cost of \$100,000.00, after two concurring studies based on actuarial data have been conducted by knowledgeable professionals. Furthermore, it would be immaterial even if the proposed commission's cost estimate differed from the existing estimates, since the figures arrived at by the actuary of the pension fund determine the amount of the payments to be made by the State.

Second, there is no known precedent for legislation establishing commissions to study the cost of pending bills. This type of background work should be done by the appropriate legislative committee, which can rely on the resources of the Office of Legislative Services and the affected State agency.

Accordingly, I herewith return Assembly Bill No. 3697 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 75 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 75 (OCR) with my recommendations for reconsideration.

This bill would permit licensed professional engineers, land surveyors, and their employees to enter on the lands of third parties to make land surveys under certain circumstances.

While the object of this legislation is to facilitate entry onto property for the legitimate purpose of making a land survey, it should be noted that only a land surveyor and not a professional

engineer engages in the practice of land surveying. Accordingly, I believe that only a land surveyor and agents, servants or employees under his direction who are necessary to make a land survey should have the authority to enter lands of another during reasonable hours when necessary to make a land survey.

I also believe that certain safeguards, in addition to those already in the legislation, ought to be added to protect the legitimate interests of property owners, whose lands would become subject to entry. In its current form, the legislation does not state with precision what steps should be taken before a surveyor notifies the local police department of his intention to enter the property. Direct attempts to contact the property owner and if there be one, the lessee, through certified mail ought to be required before the land surveyor advises the local police department that he has been unsuccessful in locating the owner.

Additionally, the names and addresses of each of the persons who intends to enter the property should be filed with the local police department.

Accordingly, I herewith return Assembly Bill No. 75 (OCR) and recommend that it be amended as follows:

Page 1, Title: After "authorizing" delete "licensed professional engineers and"

Page 1, Section 1, line 1: Delete "professional engineering or"

Page 1, Section 1, lines 7-16: Delete in entirety and insert:
"a. The licensed professional land surveyor has made a reasonable attempt, as defined in this section, to notify the owner of the land and, in the case of a lease, the lessee thereof, of his desire to enter on, over and upon the owner's or lessee's land to make a land survey and, said attempt having failed, the licensed professional land surveyor has given written notice, 7 days prior to such proposed entry, to the municipal police department of the municipality in which such land is located of his intention to so enter, containing the names, addresses and telephone numbers of those who propose to enter the land and the date, time, duration, and location of such proposed entry; and,"

Page 1, Section 1, after line 21: Insert new subsection c as follows:

"c. As used in this section, a "reasonable attempt" to notify an owner or lessee shall mean: an attempt to seek acknowledgment of the owner of the land and, in the case of a lease, the lessee thereof, by certified mail, return receipt requested, such attempt to be made a second time if unsuccessful the first time and a third time if unsuccessful the second time, each attempt to be made on a separate business day."

ASSEMBLY BILL No. 218 (2ND OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 218 (2nd OCR) with my objections for reconsideration.

This bill would ban the transport or in transit storage of high-level radioactive materials in any county of New Jersey which has an average population density exceeding 1,000 persons per square mile as measured in the most recent decennial census. The bill currently would effect Essex, Bergen, Hudson, Middlesex, Union, Camden, Passaic, Mercer and Monmouth counties. The bill also authorizes the Department of Environmental Protection to ban specific classifications of radioactive materials covered by the act from any area of the State upon a finding that the protection of the public requires it, but authorizes the department to allow the transportation of the radioactive materials through these populous counties upon a finding that national security interests or urgent public policy objectives necessitate it. The department may also allow the transportation of nuclear fuel to, and waste from, nuclear electricity generating plants upon a finding that there is no feasible alternate route which involves less risk to the public.

My principle objection to the bill is that it would inadvertently prohibit the transportation of certain scientific equipment and materials used for research, medical therapeutic and educational purposes in New Jersey. It is appropriate that the Department of Environmental Protection be given authority to issue certificates of handling for these materials on a case-by-case basis for transportation through the populous counties covered by this bill if the department is satisfied, after closely examining the intended uses of the materials and the methods in which they will be transported, that

their transportation will not pose a significant threat to public health and safety.

Also, while the bill only allows the transportation of nuclear fuel to and spent nuclear fuel from electricity generating facilities upon a determination that no less hazardous route can feasibly be utilized, the bill should impose a requirement that transporters of nuclear fuel consider all alternate modes as well as routes of transportation, as well as alternatives to the shipments themselves, before certificates of handling are issued to them. Moreover, these shipments, which could pose the greatest threat to public safety, should only be allowed if the department and the State Police have determined that adequate safety precautions have been taken and emergency response capabilities exist to protect the public during the transportation of these materials through the State. It should also be established by the department as a precondition to issuing such certificates of handling that the shipments are secured by adequate insurance or other forms of indemnification given the risks posed by the transportation of spent nuclear fuel to the public.

Additionally, there are two changes I would recommend which are technical in nature. The effective date of this bill, which puts section 1 into effect immediately but leaves the rest of the bill inoperative for 60 days, should be amended to make the entire bill effective 60 days after enactment. Also, the provision that restricts the transportation of plutonium isotopes should be made consistent with the bill's other restrictions which only apply to amounts of radioactive material having activity in excess of 20 curies.

Accordingly, I herewith recommend the following amendments for concurrence by the Legislature:

Page 1, Section 1, Line 6: After "exceeding" DELETE "2" and INSERT "20 curies".

Page 1, Section 1, Line 7: DELETE entirely.

Page 2, Section 3, Lines 1 through 14: DELETE entirely and insert:

3. Notwithstanding the provisions of sections 1 and 2 of this act, the department may issue "certificates of handling" on a case-by-case basis for radioactive materials covered under this act:

a. For compelling reasons involving urgent public policy or national security interests which transcend public health and safety concerns;

b. For research or development activities, medical therapy, or educational purposes which the department determines do not pose significant threats to public health and safety;

c. For the transportation of fresh or nonirradiated nuclear fuel to any nuclear generating facility upon a finding by the department that there is no feasible alternate route or mode of transportation which involves less risk to the public; or

d. For the transportation of spent or irradiated nuclear fuel from any nuclear electricity generating facility upon a finding by

the department that there is no feasible alternate route or mode of transportation or method of disposition which involves less risk to the public health and safety; provided, however, that no certificate of handling shall be issued for the transportation of any spent or irradiated nuclear fuel in New Jersey unless the department and the State Police have jointly determined that adequate safety precautions have been taken by the transporter and that adequate emergency response capabilities exist to protect the public during such transportation, and the department has further determined that the shipment of such fuel is secured by a limit of insurance or other form of indemnification, either by law or privately obtained, which is appropriate for the protection of the public in view of the risks associated with such transportation.

Page 2, Section 5, Line 1: After "60 days after enactment" DELETE ", except for" and INSERT ".".

Page 2, Section 5, Line 2: DELETE entirely.

/s/ THOMAS H. KEAN,

ASSEMBLY BILL No. 399 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 399 (OCR) with my objections for reconsideration.

This bill would permit any veteran who is a member of the Police & Firemen's Retirement System to purchase all or a portion of the time, not to exceed five years, which he may have spent in active military service prior to his enrollment in the pension fund. This legislation also provides that neither the State nor the member's employer would be liable for any payment to the retirement system in connection with such a purchase.

I have been informed by the Division of Pensions of the Department of the Treasury that this bill is technically unsatisfactory because there is no way for a guaranteed benefit program to be structured so that there is no additional cost to employers following a purchase of service. When a member elects to purchase military time, an actuarial projection is made based on the individual's current age and salary, and that individual's estimated age and salary at retirement. The estimated retirement age used is the average retirement age of all members in the pension fund. Virtually all

of the persons who elect to purchase military time will do so in order to qualify for some unique benefit, such as early retirement, and will not work until the average retirement age. In addition, pension benefits are sometimes increased by Statute, causing increased pension costs to the employer. The actuary is also required to predict the individual's salary at retirement, which is virtually impossible. If salaries rise higher than anticipated, there are additional pension costs which must be borne by the employer. Therefore, this bill would eventually result in additional costs which all employers participating in the program would have to absorb.

The only method of assuring that the employer would bear no part of this additional cost would be to provide for an additional assessment, if necessary, upon the retirement of each electing member. However, I have been advised by the Attorney General that, as the bill now reads, such an assessment could not be made. Therefore, the clear legislative intent that the employer will bear no costs resulting from a purchase of military credit is frustrated.

This situation can be remedied by adding language to the bill which clearly states that, upon retirement, an electing member may be assessed for the cost of any additional retirement benefit attributable to the purchase of military service credit. The member would be provided with the option of not paying this assessment and receiving pro rata pension credit based on service purchased prior to the retirement date.

On April 25, 1983 I conditionally vetoed Senate Bill No. 1362, which extended the right to purchase pension credit for military service to members of the Teachers' Pension & Annuity Fund, for the reasons indicated above. Senate Bill No. 1362 was reenacted by the Legislature with my recommendations and was signed into law on May 31, 1983. Principles of consistency would dictate that the same approach be taken with regard to this legislation.

Accordingly, I recommend the following amendments for concurrence by the Legislature:

Page 3, Section 2, Line 18: After "service.", insert "Neither the State nor the employer of a member who applies to purchase credit under the provisions of this supplementary act shall be liable for any payment to the retirement system on behalf of the member for the purchase of such credit."

Page 3, Section 2, Line 20B: Omit "may be promulgated by the Division of Pensions.", and insert "as shall be approved by the board of the retirement system. "Notwithstanding any other provision of this act, if, upon retirement, the member's payment for purchase of military service credit is insufficient to provide for the additional retirement benefit attributable to such service, the difference may be assessed to the member, or a pro rata benefit may

be granted based on the member's payment for such purchase prior to the date of retirement, at the election of the member."

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 716 ACA

To the General Assembly:

Pursuant to the Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 716 with my objections and recommendations for amendment.

In recent years, New Jersey has been plagued by an increase in the sale, possession, and use of illicit drugs. The trafficking in illegal drugs is destroying our youth and has added to our crime problem. A major reason for the increasing drug problem has been theft from establishments which manufacture, distribute, or dispense narcotics or controlled dangerous substances.

Assembly Bill No. 716 addresses the aforementioned problem by clarifying and defining the instances wherein an employer who is authorized to manufacture, distribute, or dispense narcotics and other controlled dangerous substances may require his employees to submit to a polygraph test as a condition of employment. I believe that this bill is an important step in solving a problem that threatens our citizens and our way of life in New Jersey.

However, I object to the insertion of the term "polygraph" for the term "lie detector". These terms are not synonymous. A "polygraph" is merely one kind of a "lie detector". For instance, there exists other lie detectors that measure truth or falsity by way of a buzzer or a ball attached to a float. The substitution of the term "polygraph" for the term "lie detector" will narrow and limit the application of Assembly Bill No. 716 without logical reason.

Therefore, I herewith return Assembly Bill No. 716 and recommend that it be amended as follows:

Page 1, Section 1, Line 5: DELETE "polygraph" and INSERT "lie detector".

Page 1, Section 1, Line 22: DELETE "polygraph" and INSERT "lie detector".

Page 2, Section 1, Lines 24-25: DELETE "polygraph" and INSERT "lie detector".

/s/ THOMAS H. KEAN,

ASSEMBLY BILL No. 805 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 805 (OCR) with my objections for consideration by the Legislature.

This bill would require that any tentative approval granted by the Department of Environmental Protection for a new solid waste disposal facility must be the subject of a hearing before an administrative law judge. At such a hearing, the municipality in which the solid waste facility is to be located would be party of interest with the right to present testimony and cross examine witnesses. Following the hearing, the administrative law judge would make a recommendation to the department concerning the proposed facility which the department would either adopt, reject, or modify with a written explanation of its decision.

My objection to this bill is that it would add a duplicative new procedural level which will add significantly to the time and resources required to obtain approval for necessary solid waste facilities without significantly enhancing the opportunity for participation by effected municipalities in the decision-making process. There is presently amply opportunity for local input under the approval process already established by the Solid Waste Management Act.

The act provides that, prior to including a proposed solid waste facility in a district solid waste management plan, the county board of freeholders or the Hackensack Meadowlands Development Commission, as the case may be, must consult with local officials, as well as with agencies concerned with water supply, water pollution, and zoning and must also hold a public hearing during which effected parties, including the municipality in which a proposed facility is to be located, may state objections to the plan. If the inclusion of the proposed facility in the solid waste management plan is approved, an applicant may apply to the Department of Environmental Protection for permission to construct the facility, and finally to obtain an operating permit. Under the Solid Waste Management Act, this requires the preparation by the applicant of a detailed

environmental impact statement and complete engineering designs which must be reviewed by State, local and federal agencies. Pursuant to departmental regulation, an additional public hearing must be held regarding the proposed engineering designs, at which time local objections to the facility may again be raised.

This procedure is sufficient to ensure that local comments and objections to a proposed solid waste facility have been heard and considered by the decision-making agencies. The additional hearings and administrative review mandated by this bill would have the effect of introducing further uncertainty and delay into the financing and development of necessary solid waste facilities without providing concomitant benefits. Therefore, this bill should be amended to reflect the present approval process under the Solid Waste Management Act and the regulations adopted by the Department of Environmental Protection to implement the act. In doing so, the bill should require a full and impartial public hearing to be conducted by the department on the engineering design for a proposed solid waste facility at which ample opportunity is given for interested parties to state objections to the facility and to obtain answers from the applicant to questions about the facility.

Accordingly, I herewith return Assembly Bill No. 805 (OCR) with the following amendments for enactment by the Legislature:

Page 2, Section 1, Line 26: After "application" DELETE "an adjudicatory" and INSERT "a public"

Page 2, Section 1, Line 27: After "conducted by" DELETE "an administrative law judge" and INSERT "the department"

Page 2, Section 1, Lines 27 thru 32: DELETE "The affected municipality shall be a party of interest to the hearing, and shall have the right to present testimony and cross-examine witnesses. This hearing shall be conducted in the manner provided in the 'Administrative Procedure Act', P. L. 1968, c. 410 (C. 52:14B-1 et seq.);" and INSERT "The department shall adopt and promulgate rules and regulations necessary to ensure that such public hearing is full and impartial and that the applicant is present to answer questions relating to the facility which are posed by interested parties."

ASSEMBLY BILL NO. 832 OCR

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 832 with my objections and recommendations for amendment.

The purpose of this bill is to statutorily prescribe who can provide or obtain, and under what circumstances, information concerning an electronic fund transfer or electronic fund transfer account. The substance of this bill is patterned after Regulation E promulgated by the Federal Reserve Board.

I am returning A-832 to you for two reasons. First, this bill ignores current law by not providing for a provision that would allow a State Governmental agency to require disclosure by a financial institution of electronic fund transfer or account information with respect to a person applying for or receiving public assistance. For instance, section 1140 of the Public Assistance Manual gives our Department of Human Services the power and the right to investigate the "second sources" (which include financial institutions) listed on an applicant's application for financial assistance. Clearly, the purpose of such a provision is to provide the State Governmental agency with a means of detecting fraud. Accordingly, I recommend that A-832 be amended to require a financial institution to disclose electronic fund transfer or account information when requested by a Governmental agency in connection with the agency's investigation of a person applying for or receiving public assistance.

Secondly, I recommend that a portion of Section 6 of this bill be amended. Section 6 of this bill establishes a civil cause of action against financial institutions or government agencies who act negligently, willfully, or recklessly in violating this act. This section then enumerates the damages which may be recovered if an institution or agency is found to have acted negligently, willfully, or recklessly. Among these damages are punitive damages. This bill does not make it clear that punitive damages should not be awarded where an institution's or agency conduct is found to be only negligent. Punitive damages should be awarded only where an institution's or agency's conduct is found to be either willful or reckless. In *Di Giovanni v. Pessel* 55 N. J. 188 (1970), the New Jersey Supreme Court observed that something more than the mere commission of a tort is always required for punitive damages. *Id.* at 190. The court reasoned:

"There must be circumstances of aggravation or outrage, such as spite or 'malice,' or a fraudulent or evil motive on the part of the defendant, or such a conscious and deliberate disregard of the interests of others that his conduct may be called

willful or wanton. Lacking this element, mere negligence, however 'gross,' is generally held not to be enough." *Id.* at 190-191.

Accordingly, I herewith return Assembly Bill No. 832 for reconsideration and recommend it be amended as follows:

Page 2, Section 3, Line 14: DELETE "."; INSERT "; or".

CORRECTED COPY

ASSEMBLY BILL NO. 901 (4th OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 901 (4th OCR) with my objections for reconsideration.

This bill would establish a comprehensive procedure to be implemented by the Attorney General and the Department of Environmental Protection for screening persons who apply for a permit to collect, transport, treat, store or dispose, of solid or hazardous waste in New Jersey. The purpose of the bill is to preclude any involvement in the solid or hazardous waste industries by persons with a record of certain criminal behavior or of some other undesirable activities. The bill would disqualify from licensure persons who have been convicted of certain enumerated crimes, those who do not possess a reputation for good character, honesty and integrity, those who have failed to demonstrate expertise and reliability in their

previous experience in the solid or hazardous waste industries, and those who have pursued economic gain in an occupational manner or context which is in violation of the civil or criminal public policies of this State.

While I am totally in agreement with the concept behind this bill and believe that it is an important element in efforts to eradicate criminal involvement in the solid and hazardous waste industries, I have been advised by the Attorney General that certain changes should be made to the bill.

The bill provides that anyone who has been convicted of certain enumerated crimes within the preceeding ten years is ineligible to be licensed pursuant to the bill unless the person has affirmatively demonstrated his rehabilitation. The Attorney General has advised me that this ten-year ineligibility is unduly harsh, where, for example, an applicant's crime is an isolated incident or where debarment is due to corporate liability for the conduct of an employee. Therefore, I recommend that the ten-year exclusionary period be deleted so that an individual who has previously been convicted of one of these crimes may make application for a license at any time based on rehabilitation. It should be noted that the applicant would still bear the burden of providing his rehabilitation by clear and convincing evidence, and the Attorney General, in evaluating this evidence, would consider the nature of the offense and the circumstances surrounding it.

The Attorney General has also recommended that a public interest exception be added to the bill. Thus, for example, if it is shown that only one company is presently able to service a particular municipality or county, the Attorney General could recommend and the Department of Environmental Protection could determine that the issuance or renewal of a license for that company is necessitated by the public interest, notwithstanding some factor which would otherwise disqualify the applicant. No community should be left without essential services, regardless of questions which may exist about the desirability or qualifications of the individuals or organizations providing those services. However, this licensure should occur only for a temporary period of no more than six months to give other companies sufficient time to make arrangements to service that particular locality.

The Attorney General has recommended further that perjury should be added to the list of crimes which are grounds for disqualification under the bill. This crime goes to the central issue of the integrity of the applicant and should be considered in the licensing process. Additionally, a violation of the "Solid Waste Utility Control Act" should be grounds for disqualification since this law authorizes the economic regulation of the solid waste industry and prohibits any attempt to monopolize it. Certainly, a violation of this law also casts doubt on the integrity and reliability of a prospective licensee based on his prior experience in the industry.

Presently, Assembly Bill No. 901 (4th OCR) only requires that changes in or additions to the list of persons required to be identified on a disclosure statement must be reported by an applicant after the original statement is filed. I would recommend that an applicant be required to update any information that must be disclosed within 30 days of a change in that information. For example, convictions which postdate the filing of the applicant's disclosure statement are of material importance with regard to the individual's continuing eligibility for licensure and should be made known to the Attorney General.

Finally, the bill inadvertently may have an effect on the Hackensack Meadowlands Development Commission and on other State agencies or departments. For this reason, the list of exemptions to licensure under the bill should be broadened to include State agencies and departments in addition to counties, municipalities and their agencies. There are also several minor, technical errors in the bill which should be corrected.

Accordingly, I herewith return Assembly Bill No. 901 (3rd OCR) with the following amendments for enactment by the Legislature:

Page 4, Section 2, Line 72: After "Any" INSERT "State department, division, agency, commission, or authority, or"

ASSEMBLY BILL NO. 1308 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1308 (2nd OCR) with my recommendations for reconsideration.

This bill is intended to encourage the New Jersey Housing Finance Agency (HFA) to convert existing structures not originally designed for housing purposes into multiple dwellings for residential use. The bill amends provisions of the Housing Finance Agency (HFA) statute to authorize HFA to make loans to qualified housing sponsors for the purpose of converting nonresidential structures into multiple housing accommodations. Since the existing statutory law has been construed to empower the Agency to engage in the financing of the conversions, these amendments are not legally necessary. Nevertheless, they are designed to emphasize the State's interest in having the Agency encourage conversions. The bill directs the HFA to seek to schedule the issuance of bonds over a two year period in the amount of \$50 million to be devoted to financing conversions. In addition, the Agency is directed to promote conversions and to provide advice and services to potential qualified housing sponsors who are or may become developers of conversions. The bill also requires HFA to report to the Legislature within 24 months of the act's enactment on its success and the feasibility of marketing the bonds and its recommendations for any changes in the legislation.

I have no objection to encouraging conversion projects since it is in the public interest of this State to do so. However, due to the unpredictable nature of the financial market I feel it is unwise to specify a particular dollar amount regarding the issuance of bonds. I therefore recommend that such specific language be deleted from the bill.

Accordingly, I herewith return Assembly Bill No. 1308 (2nd OCR) and recommend that it be amended as follows:

ASSEMBLY BILL NO. 1423

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1423 with my recommendations for reconsideration.

This legislation would permit members of the Police and Firemen's Retirement System of New Jersey who experienced an interruption in creditable service due to reassignment by their employer to a department or agency where the member was no longer serving as a policeman or fireman to qualify under the special retirement provisions of N. J. S. 43:16A-11.1, which require more than 30 years of creditable service, provided that the member would have had more than 30 years of creditable service but for the interruption. Members qualifying under this bill would qualify for special retirement benefits by purchasing pension credit for the period during which their service was interrupted.

This legislation, although commendable in principle, is unacceptable in its present form due to policy and fiscal deficiencies.

Throughout my Administration, I have periodically been called upon to enact pension legislation which would enable certain members to purchase pension credit for time not actually served as a member of the applicable pension fund. While I have evaluated all of these bills on their individual merits and acted accordingly, I have consistently demanded that pension members electing such special benefits be responsible for the full cost, i.e., employer's and employee's portion, of purchasing of pension credit, I see no reason at this time to deviate from this policy.

My Administration has repeatedly indicated that these are times of fiscal austerity, and has frequently urged that it is time for State government to do more with less. The Division of Pensions of the Department of the Treasury has informed me that the employee's share of the purchase of pension credit is between 25% and 30% of the total cost; the remaining portion is borne by the other members of the pension fund and, ultimately, the general public.

Accordingly, I herewith return Assembly Bill No. 1423 and recommend that it be amended as follows:

Page 1, Section 2, Line 12: After "regulation.", insert "Neither the State nor the employer of a member who applies to purchase credit under the provisions of this supplementary act shall be liable for any payment to the retirement system on behalf of the member of the purchase of such credit. If, upon retirement, the member's payment for purchase of credit for service during a period of a reassignment as defined in section 1 of this act is insufficient to provide for the additional retirement benefit attributable to such service, the difference may be assessed to the member, or a pro rata credit may be granted based on service purchased prior to the date of retirement, at the election of the member."

Respectfully,

Assembly Committee Substitute for Senate Bill No. 1485
and Assembly Bill No. 1972

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 with my objections and recommendations for amendment.

The purpose of this bill is to amend N. J. S. 2C:58-3 and 2C:58-4. The bill raises the fee for a permit to purchase a handgun from \$2.00 to \$20.00. The bill also establishes a \$20.00 fee for a firearm identification card and for a permit to carry a handgun. Where no fingerprint investigation is required on any of the aforementioned applications, the fee will be \$5.00. The bill also changes the disposition of the fees.

In a memo dated June 28, 1983, Legislative Counsel, Albert Porroni, informed my Counsel that the Assembly Committee Substitute for these bills omits language which was added to New Jersey Statute 2C:58-3 by Public Law 1982, Chapter 173 (Senate Bill No. 611 Scs). The provisions of R. S. 1:3-1 do not encompass a correction of this kind of omission and, therefore, enactment of the Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 in its present form would result in the omitted language being removed from subsection 1 as it was written in Public Law 1982, Chapter 173.

Therefore, I herewith return the Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 and recommend it be amended as follows:

ASSEMBLY BILL NO. 1896 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1896 (OCR) with my recommendations for reconsideration.

Assembly Bill No. 1896 exempts property received by descent or other distribution from equitable distribution in divorce cases.

Under current law when parties become divorced, the property which they acquired during the marriage is divided between them. The allocation to each spouse of a share of the joint assets is known as "equitable distribution." This bill addresses the issue of whether property inherited by intestate succession should be considered a joint asset eligible for equitable distribution.

A 1980 amendment to the law exempted from equitable distribution gifts, devises and bequests, with the exception of interspousal gifts which would remain subject to equitable distribution. These exemptions were authorized because in most cases, the gift, devise or bequest in question will be from parents or other relatives or persons who intend that the property belong to the recipient and not the recipient's spouse. To permit a compulsory division of the asset between the intended recipient and his spouse would be contrary to the natural expectations of the recipient and the giving parent, relative or other person. Since the efforts of neither spouse resulted in the gift, devise or bequest, in all fairness it need not be regarded as a material asset.

The 1980 amendment inadvertently failed to refer to property received by intestate succession. This bill is intended to correct this oversight by specifically exempting from equitable distribution property acquired by descent or other distribution. This change is consistent with the principle behind existing law that family property which passes to a spouse should remain with that spouse and not be subject to equitable distribution in the event of divorce.

I am recommending a conditional veto to make technical corrections to the bill. As presently worded the bill would exempt property received by "devise, bequest, or descent or other distribution." The words "bequest" and "descent" are no longer meaningful under our revised probate code. The phrase "devise" includes all

property received under a will. To refer to property inherited where there is no will the appropriate reference is "by intestate succession." The phrase "or other distribution" while intended to refer to estate distributions could be construed to refer to other kinds of distribution, such as distributions from a dissolved partnership or a bankrupt's estate. I recommend that the bill be amended to delete the reference to "bequest, or descent or other distribution" and insert "intestate succession" in its place.

Accordingly, I herewith return Assembly Bill No. 1896 (OCR) and recommend that it be amended as follows:

Page 2, Section 1, lines 42 and 43: Delete "bequest, or descent or other distribution" and insert "or intestate succession"

ASSEMBLY BILL NO. 2113

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2113 with my recommendations for reconsideration.

This bill amends the law governing the Small Municipal Plan of Government under the Optional Municipal Charter Law (Faulkner Act) which is an optional plan of government for municipalities with a population under 12,000.

The bill would permit a municipality operating under the Small Municipality Plan to be divided into two wards, provided the municipal council shall consist of five or seven members (otherwise a three member council would be permitted). Any municipality which is divided into two wards may have no more than one councilman elected from each ward; the remaining councilmen must be elected at large. The bill further provides that the mayor of the municipality must either be directly elected by the voters or selected from among the councilmen elected at large.

No data or information has been submitted to me demonstrating the need for small municipalities to be divided into two wards. It would appear that a municipality which has a population of under 12,000 would be fragmented by such a division and that abuses could develop. Accordingly, we would recommend that the bill be conditionally vetoed to eliminate the option for two wards in the Small Municipality Plan of Government, and that the provisions making the above mentioned technical corrections be retained.

In addition, the bill makes two technical corrections to the Small Municipality Plan of Government under the Faulkner Act. First, it corrects two references to a four year term for the mayor. Under this plan of government the mayor and councilmen serve three year terms. Secondly, under the Small Municipality Plan of Government, the mayor may be selected either by the councilmen from among their number or by the voters at an election. This bill clarifies that the manner chosen for selecting the mayor is included in the public question which is submitted to the voters at the charter election. These technical amendments are appropriate.

Accordingly, I herewith return Assembly Bill No. 2113 and recommend that it be amended as follows:

ASSEMBLY BILL NO. 3325

To the General Assembly:

Pursuant to Article 1, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3325 with recommendations for reconsideration.

This bill would authorize the Commissioner of Commerce and Economic Development to inform, advise, revise, and help finance the formation of employee stock ownership plans. In addition, the bill would provide tax exemptions on income received as interest payments on loans made to establish a 100% employee stock ownership plan.

While I fully support the establishment of an economically feasible and reasonable ESOP program, I recommend that several changes be made in the bill.

Sections 8 and 9 of this bill amend "The Corporation Business Tax Act," (P. L. 1945, c. 162), and the "Savings Institute Tax Act", (P. L. 1973, c. 31) respectively, so as to exempt from taxation interest income received on any loan made to an employee stock

ownership of a business. Section 10 of this act amends the Gross Income Tax Law to provide for the same exemption.

There is no precedent for providing the broad and extensive tax exemptions which are contained in this bill. At the present time, no other interest on income is exempt from taxation in New Jersey, including interest received on New Jersey obligations and United States obligations.

Furthermore, Section A of the "Worker Owned Corporation Study Act", (P. L. 1981, c. 82), requires the Commissioner of Labor to submit to the Legislature an annual report concerning the formation of new employee stock ownership trusts and the operation of existing employee stock ownership trusts in this State. In light of the overall responsibilities of the Department of Commerce and Economic Development created under Assembly Bill No. 3325, it should also be the responsibility of the Commissioner of the Department of Commerce and Economic Development to prepare these reports to the Legislature.

Finally, this bill charges the Department of Commerce with various specifically defined obligations but fails to provide an appropriation to allow them to carry out these functions. The Department of Commerce has advised me that the cost of fully implementing this bill would be approximately \$140,000 per year. Accordingly, I am recommending that such an appropriation be made.

Accordingly, I herewith return Assembly Bill No. 3325 and recommend that it be amended as follows:

Page 3, Section 8, Lines 1-212: Delete in its entirety

Page 8, Section 9, Lines 1-74: Delete in its entirety

"8. The Commissioner shall annually submit to the Legislature a report concerning the formation of new employee stock ownership trusts and the operation of existing employee stock ownership trusts in this state, and shall include in the report an account of State activity, during the previous year, in connection with these trusts.

This supersedes the annual reporting requirements previously assigned to the Department of Labor and Industry under Section 6 of P. L. 1981, c. 82.

"9. There is appropriated \$142,000 from the General Fund in order to effectuate the purposes of this act."

Former Speaker, Marion West Higgins; Former Senator and Ambassador to New Zealand, Anne C. Martindell; Former Assemblyman, Carl Orechio; Former Senator, Stephen B. Wiley; Former Speaker, S. Howard Woodson; Former Senate President, Raymond Bateman.

The following resolution was read by the Secretary of the Senate and adopted:

A Concurrent Resolution calling for the creation of a council to prepare and coordinate State programs commemorating the bicentennial session of the New Jersey Legislature.

Whereas, The New Jersey Legislature, established by the State Constitution of 1776 and inspired by the spirit of independence and freedom, has had a profound and lasting effect in shaping the history of the State of New Jersey; and

Whereas, 1982-1983 marks the two-hundredth Legislative session and culminates the epochal period of 1776-1983; and

Whereas, The State of New Jersey should take formal action to assure appropriate observance of the two-hundredth anniversary of the operation of our Legislature and to prepare and coordinate commemorative programs throughout New Jersey; now, therefore,

Be It Resolved by the Senate and General Assembly of the State of New Jersey:

1. There shall be established The Council of New Jersey Legislators, Inc. to consist of members and former members of the Legis-

lature, such persons and organizations supportive of the aims of the Council as may be provided in the bylaws of the Council, as members, and Governors and former Governors of the State of New Jersey as honorary members. Members and honorary members shall serve without compensation.

2. The Council shall be incorporated as a nonprofit corporation pursuant to Title 15A of the New Jersey Statutes. Legislative Counsel shall provide the Council with legal assistance for this purpose.

3. The Council shall organize as soon as may be practicable and shall select a board of trustees from among its members. The first board shall consist of the presiding officers and the minority leaders of each House of the Legislature. The first board shall also select six cochaIRS to serve until the 1984 annual meeting of the board.

4. It shall be the duty of the Council to:

a. Formulate and recommend ideas to further the effectiveness of the New Jersey Legislature;

b. Encourage and assist in the preparation and publication of scholarly works relating to the history and culture of State government;

c. Encourage and assist public and private colleges and universities in the development of programs and projects relating to political science and the legislative process;

d. Plan and coordinate programs and activities to educate the public as to the role of an effective Legislature; and

e. Develop appropriate expressions of observance of the bicentennial, including but not limited to determination of objectives, scheduling of events, planning of special public works, and overall coordination of public observance and commemoration of the bicentennial.

5. Every department, agency or office of the State of New Jersey shall cooperate with the Council and provide it with such documents, materials and information as the Council may deem necessary.

6. The Council may accept donations or grants of money, property or personal services from any source.

STATEMENT

This resolution calls for the creation of The Council of New Jersey Legislators, Inc. to assure effective observance of the two-hundredth anniversary of the operation of our State Legislature. WHEREAS, The Honorable Sylvia Pressler, of Englewood, Judge of the Appellate Division of Superior Court has been nominated for reappointment; and

WHEREAS, Judge Sylvia Pressler has been endorsed for reappointment by the New Jersey and Bergen County Bar Association, the Governor, the former Chief Justice of the New Jersey Supreme Court and other esteemed members of the legal and civic community; and

WHEREAS, The Chief Justice of the Supreme Court has lauded Judge Pressler as a judge of the very highest quality, a judge with an impeccable record and one of the most outstanding and most highly responsible members of the Judiciary; and

WHEREAS, The Honorable Sylvia Pressler is the only woman jurist in New Jersey serving as judge of the Appellate Division, and holds the second highest position of any woman jurist in New Jersey history; and

WHEREAS, In order to prevent a vacancy in the Appellate Division of the Superior Court the nominating and confirmation process must be completed on or before October 5, 1983; and

WHEREAS, The nomination of this outstanding jurist has been prevented from full, fair and impartial hearing and consideration on her qualifications before the 40 members of the New Jersey Senate by the action of one Senator; and

WHEREAS, Both the Governor and the Chief Justice of the Supreme Court have declared that the situation threatens the independence and integrity of the Judiciary; and

WHEREAS, It is vital that every individual in our society, have confidence in the confirmation process, the Judiciary and the decisions it produces, and that the decisions of the Legislature and the Judiciary not be tainted by even the appearance of conflict of interest; and

WHEREAS, The public's perception of such an apparent conflict of interest is growing in this instance; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That the General Assembly makes a fervent and respectful appeal to the Senator from the 39th District to let the nomination of Judge Sylvia Pressler be considered fairly, fully and impartially by the entire Senate.

Honorable William Bishop
New Jersey General Assembly
Rockaway Townsquare Mall
Rockaway, N. J. 07866

Gentlemen:

The purpose of this letter is to apologize to Assemblyman Bishop and the entire Assembly for a call which I made the other day to Assemblyman Bishop. I had learned from an article in a newspaper that the Assemblyman had introduced a bill on a subject that the Administrative Office of the Courts and the Assignment Judges were studying at my direction. The subject was the circumstances under which it is appropriate for a judge to seal records in litigation. I called the Assemblyman to advise him that the same matter with which his legislation was concerned was under study by the Judiciary for the purpose of developing rules that would govern the sealing of records in the future. I asked the Assemblyman if he would allow our study to go ahead before he moved his legislation, suggesting that it was my belief that we would adopt rules governing this matter satisfactory to him and that I would keep him informed of our progress. [He was kind enough to agree.] Coincidentally, on that same day I presided at a regular meeting of the Assignment Judges at which one of the agenda items was this very subject.

It is obvious to me that the call should not have been made. My invariable practice concerning such matters has been to advise the Administrative Office of the Courts when I learn of proposed legislation affecting the Judiciary and, when the AOC and Judiciary are working on the same problem, I direct the AOC to advise the legislator of our work and to keep him or her informed. I have never directly contacted a legislator concerning legislation (as I did with Assemblyman Bishop) with the exception of the Appropriation Bill as it affects the Judiciary and the further exception of legislation concerning judicial salaries.

Though I am certain the Assemblyman was not intimidated in any way by me, I realize the potential of such a call and the fact that it constitutes, regardless of my intention, an intrusion into the business of the Assembly. I regret it, and as I stated above, I apologize.

I would appreciate it if you would advise your colleagues of the substance of this letter.

Sincerely,

ROBERT N. WILENTZ.

Mr. Doyle moved that the message be spread in full upon the minutes.

A resolution by Assemblyman Dean A. Gallo and all Assembly members:

WHEREAS, Assembly Bill No. 3929 would serve to insulate our civil courts from any undue political influence with regard to the faithful maintenance of open public records guaranteed under our Constitution; and

WHEREAS, To avoid the appearance or having been intimidated by the Chief Justice's admittedly wrongful intrusion into the legislative process, this Assembly has an obligation to its electorate to proceed with careful and active consideration of Assembly No. 3929; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That the Assembly Judiciary Committee is hereby directed to take up the subject of Assembly No. 3929, a measure to prohibit the sealing of court records for the purpose of protecting a public official from adverse notoriety, at the earliest possible time and to give the bill proper hearing and prompt consideration for the purpose of reporting it for action on the floor of the Assembly.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
November 21, 1983 }

ASSEMBLY BILL No. 1717

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1717 without my signature.

This bill would establish a Hypertension Control Program in the Department of Health and provide the department with central authority and responsibility for the development of a Statewide system of community-based high blood pressure control programs. The bill authorizes the Commissioner of Health to provide advisory and technical assistance, gather data on the incidence of diseases associated with high blood pressure, develop training education programs for health care professionals and assist agencies in the development of comprehensive and coordinated hypertension programs.

The New Jersey Department of Health presently operates a comprehensive hypertension control program, with 10 to 13 contracts Statewide. This program is funded from federal Block Grants totaling approximately \$1,030,000.00. Since 1976 the Department has provided these comprehensive programs, which target screening to populations at highest risk, without the necessity of specific statutory enabling language. I clearly support and recognize the need to continue such screening programs in New Jersey. As drafted, however, this legislation is somewhat premature insofar as the department has advised me that the federal funding for these worthy programs is not in jeopardy.

Additionally, I find it misleading and nonfactual to have "legislative findings" enacted into law that give a clear impression New Jersey does not have a comprehensive program to control high blood pressure when the federal program has existed in our State since 1976. If, in fact, the sponsor feels there is a need to involve the State in an expansion of this program, then that intention should be clarified through a more detailed piece of legislation which addresses the fiscal ramifications and provides for the necessary appropriation.

I respect the sponsor's zeal and conviction in obtaining passage of Assembly Bill No. 1717, but I nonetheless must return it without my approval. While the intent of this bill represents a valid cause, its implementation at this time could possibly result in a tremendous amount of State dollars being expended prematurely and unnecessarily.

Accordingly, I herewith return Assembly Bill No. 1717 without my signature.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

Attest:

/s/ W. CARY EDWARDS,
Chief Counsel to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 2093 (3RD OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2093 (3rd OCR) without my signature.

This bill, designated the "Jobs and Technology Bond Act of 1983," authorizes the sale of \$85 million in bonds to be used for the development of high technology training and research programs at public and private institutions of higher education, and provides for the submission of this act to the people at a general election. Specifically, the proceeds from the sale of the bonds would be used for (1) the renovation and purchase of equipment for existing science and research facilities at public and private colleges; (2) renovation and purchase of equipment for high technology jobs training programs at county colleges; (3) the construction or renovation of a center for high technology training and research in the application of high technology to training at Rutgers University; and (4) the construction or renovation of a network of high technology centers at public and private colleges as designated by the Chancellor for high technology training and research in the application of high technology to training.

Although I am willing to consider the concept of a "hi tech" bond issue which would provide funds for the establishment of agencies or other institutional mechanisms to continue and make permanent the fine initiatives begun by my Commission on Science and Technology, I am concerned that this bill is premature. It is my firm belief that all "hi tech" legislation should be held until the commission presents its final report later this Fall. By establishing long-term funding mechanisms for high technology programs in the State prior to receiving the commission's report, we may effectively be limiting the usefulness and potential of this commission to help our State further enhance its position in the technological community. I believe this is especially true regarding "hi tech" bond issues, since the rise or fall of any Statewide high technology program will depend upon the creation of a cost-efficient and closely scrutinized plan for financing such a program.

Since I have already approved for the November 1983 ballot bond issues totaling \$320 million in connection with other important State issues, the State Treasurer has advised me that authorization of this \$85 million bond issue would threaten our State's Triple-A Bond Rating. Taking into consideration this advice and the fact that Assembly Bill No. 2093 is premature, I will withhold any consideration regarding long-term financing for Statewide "hi tech" initiatives until the Commission on Science and Technology issues its final report.

While I respect the sponsor's zeal and conviction in obtaining passage of Assembly Bill No. 2093 (3rd OCR), I nonetheless must return it without my signature. Once the commission issues its report and it has been thoroughly reviewed, I look forward to working with the Legislature to put together a well-thought out, comprehensive high technology program, which will integrate the efforts of our educational, industrial and governmental interests to provide a high technology atmosphere most beneficial to the citizens of New Jersey.

Respectfully,

ASSEMBLY BILL No. 2286

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2286 without my signature.

This bill would suspend the Waterfront Commission's acceptance of applications for inclusion in the longshoremen's register until such time as the International Longshoremen's Association (ILA) and the New York Shipping Association (NYSA) determine the need for additional members through a board designated by the ILA and NYSA for this purpose. This board will also be responsible for administering skills examinations and physical examinations to each applicant. The board will then certify that each applicant who wasses these examinations is eligible for submission to the commission for inclusion in the longshoremen's register. Current law vests the power to open the register with the Waterfront Commission of New York/New Jersey. It is also the Waterfront Commission, under current law, that is responsible for administering skills examinations and physical examinations to each applicant.

A brief history of the Waterfront Commission and the problems plaguing the port is necessary to adequately understand the potential far reaching economic impact of this bill. It is this far reaching economic impact, which is of greatest concern to me.

Back in the 1940s and 1950s there was a vast oversupply of waterfront labor at the port which resulted in kickbacks and favoritism and other conditions such as the "pier shape up" degrading to labor. To cure these ills, the Legislatures of both New York and New Jersey entered into a bi-state agreement by virtue of legislation passed in the two states and consented to by Congress, which established the Waterfront Commission. In reaching this bi-state agreement, the states of New Jersey and New York made the following findings and declarations:

. . . the conditions under which waterfront labor is employed within the Port of New York district are depressing and degrading to such labor, resulting from the lack of any systematic method of hiring, the lack of adequate information as to the availability of employment, corrupt hiring practices and the fact that persons conducting such hiring are frequently criminals and persons notoriously lacking in moral character and integrity and neither responsive or responsible to the employers nor to the uncoerced will of the majority of the members of the labor organizations of the employees . . . that not only does there result a destruction of the dignity of an important segment of American labor, but a direct encouragement of crime which imposes a levy of greatly increased costs on food, fuel and other necessities handled in and through the Port of New York district. (N. J. S. A. 32:23-2)

Further, both states found:

. . . the occupations of longshoremen, stevedores, pier superintendents, hiring agents and port watchmen are affected with a public interest requiring their regulation and that such regulation shall be deemed an exercise of the police power of the two states for the protection of the public safety, welfare, prosperity, health, peace and living conditions of the people of the two states. (N. J. S. A. 32:23-5)

It is clear that it was the economic stability of the port and the concern for the welfare of the port laborers that motivated the legislatures of both New York and New Jersey to establish the Waterfront Commission.

All parties agree that the economic stability of our port is waning with its lack of competitiveness. The decline of the port has been a recent subject of legislative hearings in New York where it was submitted that it costs \$250 more to ship a 40-foot container through our port than other ports, and that fringe benefit costs per 40-foot container in our port run more than ten times higher than fringe benefit costs elsewhere.

My concern with this bill is that it weakens the statutory power given to the commission some thirty years ago, a commission that has carried out its major statutory obligation of providing a work force that balances the supply of labor with the demand for labor to effectively and efficiently serve the port. This bill takes the statutory power to regulate the size of the work force away from the commission and gives it to the ILA and the NYSA. This bill does not include public hearing requirements of current law regarding the consideration of the views of other affected parties or even purport to provide criteria for determining the size of the work force. This bill may lead to a further decline in the competitiveness of our port because there is no consideration of the effect on thousands and thousands of other people tied to the economic growth within the region such as trucking firms, importers, exporters, etc.

I am also concerned that relinquishing control over when the register can be opened from the Waterfront Commission to the ILA and the NYSA may have a deleterious impact on the growth of the guaranteed annual income (GAI) and, ultimately, on the ability of our port to compete with other ports. The guaranteed annual income was collectively bargained back in 1965 when there was a technological change in the method of transporting and handling cargo. The guarantee assured that workers would not lose income because of automation. The average guarantee this year is \$29,000.00 per longshoreman *not* to work. Currently, there is a total registered work force of 9,000 longshoremen. Roughly, 5,500 will work each day while an equivalent of 2,700 will collect full GAI benefits without working. I firmly support the rights of the parties to collectively bargain the guarantee. Yet, as Governor I must be concerned about the decline of our port competitiveness over the past decade and the corresponding increase of the guaranteed annual income in the last fifteen years compared with that of our competitors, as evidenced below.

1967 GAI Total	\$266,000
1972 GAI Total	\$21.3 million
1977 GAI Total	\$41.0 million
1983 GAI Total	\$79.7 million

The Port of Baltimore paid out only \$500,000.00 for the GAI this year.

To the extent that this bill will increase the labor force, it may also increase the pool of individuals eligible for GAI. The potential devastating impact on the jobs of hundreds of thousands of individuals who rely on the competitiveness and well-being of our port is of greatest concern to me.

Finally, the Waterfront Commission has established a practice that applications to be longshoremen are processed on a first-come basis. It is the actual filing of an application with the commission that ensures the integrity of the process and determines *who* may be a longshoreman. No such corresponding procedure is set forth in this bill. This absence would have the effect of promoting nepo-

tism and discrimination in hiring, two practices which would be a step backward for labor in our port.

The need for the Waterfront Commission still exists. There has been no evidence put forth that would warrant the extraordinary relief that this bill seeks. I reiterate that I am concerned with the potential impact this bill would have on the hundreds of thousands of jobs in the bi-state area that rely on a strong and healthy port.

Accordingly, I herewith return Assembly Bill No. 2286 without my approval.

Respectfully,

/s/ THOMAS H. KEAN,
Governor.

ASSEMBLY BILL No. 2287

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2287.

The purpose of this bill is to terminate the Waterfront Commission's operation of its four longshoremen employment centers in the Port of New York/New Jersey and to replace it with a telecommunications hiring system to be operated and controlled by the International Longshoremen's Association (ILA) and the New York Shipping Association (NYSA). The proponents of this bill claim the telecommunications system will end the humiliation of approximately 2,800 longshoremen reporting to the centers each day competing for only 100 to 150 jobs and make the Port of New York/New Jersey more competitive.

Pursuant to the 1953 law establishing the Waterfront Commission:

The commission shall establish and maintain one or more employment information centers in each state within the Port of New York district at such locations as it may determine. . . . At each such employment information center the commission shall keep and exhibit the longshoremen's register and any other records. . . . (N. J. S. A. 32:23-53)

There are four employment centers operated by the commission. Most longshoremen are hired on the prior day. Prior day ordering (PDO) is when individual employers call in to the centers the day before to hire longshoremen and the centers call each individual longshoreman on the day before in accordance with a reverse seniority to be told where to report to work. However, approximately

2,800 out of the total 9,000 longshoremen in the register are not hired by the prior day procedure and must show up and "badge in and out" at one of the four employment centers everyday by 8 a.m. or they will not be eligible for guaranteed annual income (GAI herein). This bill would allow longshoremen to phone-in for work rather than showing up. However, this bill fails to spell out how this new telecommunications system would work and provide a system to protect against fraud and deception.

The daily badge in/badge out system was developed by management and labor in 1966 to control the guaranteed annual income. As was previously discussed in my message on Assembly Bill No. 2286, the GAI was collectively bargained back in 1966 when there were technological changes in the method of transporting and handling cargo. The guaranteed annual income assured that workers would not lose income because of automation. The badge in/badge out procedure is proof that unemployed longshoremen (usually the oldest with the longest seniority) are ready and able to work, a requirement to become eligible for GAI.

Prior to 1966, the system used by the Waterfront Commission did not require all unemployed longshoremen to show up every day at the unemployment centers but had a minimum requirement of days to show up to be considered "active" in the register. That system which is still in place requires longshoremen to work or show up at the centers only 8 days a month and 48 days a half year to remain on the register. It was GAI and an agreement between the ILA and NYSA that has led to the current system of badge in/badge out every single day.

I am certainly not opposed to any new system of waterfront hiring which may be more efficient and more economical to the waterfront industry and beneficial to the states. Yet the rapid decline in the competitiveness of our port cannot be ignored. The decline of the port has been a recent subject of legislative hearings in New York where it was submitted that it costs \$250.00 more to ship a 40-foot container through our port than other ports, and that fringe benefit costs per 40-foot container in our port run more than ten times higher than fringe benefit costs elsewhere. While I support the rights of the parties to collectively bargain the guarantee, I cannot ignore its impact on the competitiveness of our port. To the extent that this telecommunications system could be abused could affect the pool of individuals eligible for the guaranteed annual income (the guarantee equals \$29,000.00 per year per longshoreman not to work) and ultimately the ability of our port to compete with other ports. The growth of the guaranteed annual income in our port in the last 15 years is evidenced below.

1967 GAI Total	\$266,000
1972 GAI Total	\$21.3 million
1977 GAI Total	\$41.0 million
1983 GAI Total	\$79.7 million

The Port of Baltimore paid out only \$500,000.00 for GAI this year.

My concern with this bill is that while the proponents say it will make our port more competitive, to the extent it could be abused, it may, in fact, have a negative impact on the economic growth of the port and may have a deleterious effect on tens of thousands and thousands of jobs in the bi-state region that rely on a strong and healthy port.

Accordingly, I herewith return Assembly Bill No. 2287 without my approval.

Respectfully,

ASSEMBLY BILL NO. 3699 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3699 (OCR) without my signature.

This bill appropriates \$75,000 to the Division of Youth and Family Services in order to provide criminal history background checks by the State Police on prospective foster and adoptive parents. In the past, the Criminal History Record Information (CHRI) program had been a valuable source of information for the Division of Youth and Family Services in its foster and adoption home approval process. In October of 1982, this screening service was terminated by the State Police due to fiscal constraints and personnel reductions. Lack of access to such information by the Division has hampered its ability to make sound judgments on the suitability of these applicants, and may jeopardize the safety of children placed by them.

In June of this year, I conditionally vetoed Senate Bill No. 3031, which provided for criminal history checks of all prospective foster and adoptive parents. My conditional veto was based upon the fact that S-3031 did not provide any appropriation with which to reinstate the CHRI program within the Department of Law and Public Safety. Recognizing that it is essential for New Jersey to conduct thorough examinations of potential foster parents to guarantee the well being of our children, I recommended that Senate Bill No. 3031 become effective upon the passage of Assembly Bill No. 3317. A-3317 provides for a fee assessment system sufficient to cover the

costs of operating the fingerprinting program without necessitating State funding. This program, which is to be implemented through the State Bureau of Identification, would be utilized not only for foster parent background checks, but also for the approximately 200 other purposes that were curtailed due to the fiscal problems encountered last October.

The State Bureau of Identification has informed me that fee assessment systems like the one proposed in A-3317 are currently in place in Florida, New York and Pennsylvania. Moreover, the Bureau has indicated that with such a system, fees collected for licensing of firearms and similar items would provide a 100 percent subsidy for the cost of foster parent background checks.

It is important that we protect all of the children in our State, not just those with foster parents. To this end, potential foster parents should be just one of many groups to be subject to background checks along with others who deal with children on a daily basis. School bus drivers, for example, who were previously required by the Division of Motor Vehicles to undergo such checks, will once again have this policy reinstated as a protective measure for our children.

While I believe that the concept of foster parent background checks expressed in A-3699 is essential, I nonetheless must return this bill without my approval and reiterate that with the passage of A-3317, the concept of the CHRI program would remain intact while the need for the \$75,000 appropriation in A-3699 (OCR) would be eliminated.

ASSEMBLY BILL No. 75 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 75 (OCR) with my recommendations for reconsideration.

This bill would permit licensed professional engineers, land surveyors, and their employees to enter on the lands of third parties to make land surveys under certain circumstances.

While the object of this legislation is to facilitate entry onto property for the legitimate purpose of making a land survey, it should be noted that only a land surveyor and not a professional engineer engages in the practice of land surveying. Accordingly, I

believe that only a land surveyor and agents, servants or employees under his direction who are necessary to make a land survey should have the authority to enter lands of another during reasonable hours when necessary to make a land survey.

I also believe that certain safeguards, in addition to those already in the legislation, ought to be added to protect the legitimate interests of property owners whose lands would become subject to entry. In its current form, the legislation does not state with precision what steps should be taken before a surveyor notifies the local police department of his intention to enter the property. Direct attempts to contact the property owner and if there be one, the lessee, through certified mail ought to be required before the land surveyor advises the local police department that he has been unsuccessful in locating the owner.

Additionally, the names and addresses of each of the persons who intends to enter the property should be filed with the local police department.

Accordingly, I herewith return Assembly Bill No. 75 (OCR) and recommend that it be amended as follows:

Page 1, Title: After "authorizing" delete "licensed professional engineers and"

ASSEMBLY BILL NO. 716 (OCR)

To the General Assembly:

Pursuant to the Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 716 (OCR) with my objections and recommendations for amendment.

In recent years, New Jersey has been plagued by an increase in the sale, possession, and use of illicit drugs. The trafficking in illegal drugs is destroying our youth and has added to our crime problem. A major reason for the increasing drug problem has been theft from establishments which manufacture, distribute, or dispense narcotics or controlled dangerous substances.

A-716 addresses the aforementioned problem by clarifying and defining the instances wherein an employer who is authorized to manufacture, distribute, or dispense narcotics and other controlled dangerous substances may require his employees to submit to a polygraph test as a condition of employment. I believe that this bill is an important step in solving a problem that threatens our citizens and our way of life in New Jersey.

However, I object to the insertion of the term "polygraph" for the term "lie detector". These terms are not synonymous. A "polygraph" is merely one kind of a "lie detector". For instance, there exist other lie detectors that measure truth or falsity by way of a buzzer or a ball attached to a float. The substitution of the term "polygraph" for the term "lie detector" will narrow and limit the application of A-716 without logical reason.

Therefore, I herewith return Assembly Bill No. 716 and recommend that it be amended as follows:

Page 1, Section 1, Line 5: DELETE "polygraph" and INSERT "lie detector".

ASSEMBLY BILL No. 805 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 805 (OCR) with my objections for consideration by the Legislature.

This bill would require that any tentative approval granted by the Department of Environmental Protection for a new solid waste disposal facility must be the subject of a hearing before an administrative law judge. At such a hearing, the municipality in which the solid waste facility is to be located would be party of interest with the right to present testimony and cross examine witnesses. Following the hearing, the administrative law judge would make a recommendation to the department concerning the proposed facility which the department would either adopt, reject, or modify with a written explanation of its decision.

My objection to this bill is that it would add a duplicative new procedural level which will add significantly to the time and resources required to obtain approval for necessary solid waste facilities without significantly enhancing the opportunity for participation by effected municipalities in the decision-making process. There is presently ample opportunity for local input under the approval process already established by the Solid Waste Management Act.

The Act provides that, prior to including a proposed solid waste facility in a district solid waste management plan, the county board of freeholders or the Hackensack Meadowlands Development Commission, as the case may be, must consult with local officials, as well as with agencies concerned with water supply, water pollution, and zoning and must also hold a public hearing during which effected parties, including the municipality in which a proposed facility is to be located, may state objections to the plan. If the inclusion of the proposed facility in the solid waste management plan is approved, an applicant may apply to the Department of Environmental Protection for permission to construct the facility, and finally to obtain an operating permit. Under the Solid Waste

Management Act, this requires the preparation by the applicant of a detailed environmental impact statement and complete engineering designs which must be reviewed by state, local and federal agencies. Pursuant to departmental regulation, an additional public hearing must be held regarding the proposed engineering designs, at which time local objections to the facility may again be raised.

This procedure is sufficient to ensure that local comments and objections to a proposed solid waste facility have been heard and considered by the decision-making agencies. The additional hearings and administrative review mandated by this bill would have the effect of introducing further uncertainty and delay into the financing and development of necessary solid waste facilities without providing concomitant benefits. Therefore, this bill should be amended to reflect the present approval process under the Solid Waste Management Act and the regulations adopted by the Department of Environmental Protection to implement the Act. In doing so, the bill should require a full and impartial public hearing to be conducted by the department on the engineering design for a proposed solid waste facility at which ample opportunity is given for interested parties to state objections to the facility and to obtain answers from the applicant to questions about the facility.

Accordingly, I herewith return Assembly Bill No. 805 (OCR) with the following amendments for enactment by the Legislature:

Page 2, section 1, line 24: After "approval;" INSERT "and"

Page 2, section 1, line 26: After "application," DELETE "an adjudicatory" and INSERT "a public"

ASSEMBLY BILL No. 832 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 832 with my objections and recommendations for amendment.

The purpose of this bill is to statutorily prescribe who can provide or obtain, and under what circumstances, information concerning an electronic fund transfer or electronic fund transfer account. The substance of this bill is patterned after Regulation E promulgated by the Federal Reserve Board.

I am returning A-832 to you for two reasons. First, this bill ignores current law by not providing for a provision that would allow a State governmental agency to require disclosure by a financial institution of electronic fund transfer or account information with respect to a person applying for or receiving public assistance. For instance, section 1140 of the Public Assistance Manual gives our Department of Human Services the power and the right to investigate the "second sources" (which include financial institutions) listed on an applicant's application for financial assistance. Clearly, the purpose of such a provision is to provide the State governmental agency with a means of detecting fraud. Accordingly, I recommend that A-832 be amended to require a financial institution to disclose electronic fund transfer or account information when requested by a governmental agency in connection with the agency's investigation of a person applying for or receiving public assistance.

Secondly, I recommend that a portion of Section 6 of this bill be amended. Section 6 of this bill establishes a civil cause of action against financial institutions or government agencies who act negligently, willfully, or recklessly in violating this act. This section then enumerates the damages which may be recovered if an institution or agency is found to have acted negligently, willfully, or recklessly. Among these damages are punitive damages. This bill does not make it clear that punitive damages should not be awarded where an institution's or agency's conduct is found to be only negligent. Punitive damages should be awarded only where an institution's or agency's conduct is found to be either willful or reckless. In *Di Giovanni's v. Pessel*, 55 N. J. 188 (1970), the New Jersey Supreme Court observed that something more than the mere commission of a tort is always required for punitive damages. *Id.* at 190. The court reasoned:

"There must be circumstances of aggravation or outrage, such as spite or 'malice,' or a fraudulent or evil motive on the part

of the defendant, or such a conscious and deliberate disregard of the interests of others that his conduct may be called willful or wanton. Lacking this element, mere negligence, however 'gross,' is generally held not to be enough." *Id.* at 190-191.

See also: *La Bruno v. Lawrence* 64 N.J. Super. 570, 575 (App. Div. 1960) *cert. denied* 34 N.J. 323 (1961); *Stern v Abramson* 150 N.J. Super 571, 574 (Law Div. 1977); Prosser on Torts sec. 2 at 9-10 (2d ed. 1955).

Accordingly, I herewith return Assembly Bill No. 832 for reconsideration and recommend it be amended as follows:

Page 2, Section 3, Line 11: DELETE "or".

Page 2, Section 3, Line 14: DELETE ";"; INSERT "; or".

Page 2, Section 3, After Line 14: ADD a new subsection: "f. The disclosure is made to a government agency in the exercise of its statutory functions with respect to a person applying for or receiving public assistance."

Page 3, Section 4, Line 1: DELETE "subsection" insert "subsections", after "e." insert "and f."

ASSEMBLY BILL NO. 2113

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2113 with my recommendations for reconsideration.

This bill amends the law governing the Small Municipal Plan of Government under the Optional Municipal Charter Law (Faulkner Act) which is an optional plan of government for municipalities with a population under 12,000.

The bill would permit a municipality operating under the Small Municipality Plan to be divided into two wards, provided the municipal council shall consist of five or seven members (otherwise a three member council would be permitted). Any municipality

which is divided into two wards may have no more than one councilman elected from each ward; the remaining councilmen must be elected at large. The bill further provides that the mayor of the municipality must either be directly elected by the voters or selected from among the councilmen elected at large.

No data or information has been submitted to me demonstrating the need for small municipalities to be divided into two wards. It would appear that a municipality which has a population of under 12,000 would be fragmented by such a division and that abuses could develop. Accordingly, we would recommend that the bill be conditionally vetoed to eliminate the option for two wards in the Small Municipality plan of Government, and that the provisions making the above mentioned technical corrections be retained.

In addition, the bill makes two technical corrections to the Small Municipality Plan of Government under the Faulkner Act. First, it corrects two references to a four year term for the mayor. Under this plan of government the mayor and councilmen serve three year terms. Secondly, under the Small Municipality Plan of Government, the mayor may be selected either by the councilmen from among their number or by the voters at an election. This bill clarifies that the manner chosen for selecting the mayor is included in the public question which is submitted to the voters at the charter election. These technical amendments are appropriate.

Accordingly, I herewith return Assembly Bill No. 2113 and recommend that it be amended as follows:

Page 1, Title, line 2: Delete "and supplementing"

Pages 1 and 2, Section 1, lines 1 to 27: Delete in entirety

ASSEMBLY BILL NO. 3325

To the General Assembly:

Pursuant to Article I, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3325 with recommendations for reconsideration.

This bill would authorize the Commissioner of Commerce and Economic Development to inform, advise, revise, and help finance the formation of employee stock ownership plans. In addition, the bill would provide tax exemptions on income received as interest payments on loans made to establish a 100% employee stock ownership plan.

While I fully support the establishment of an economically feasible and reasonable ESOP program, I recommend that several changes be made in the bill.

Sections 8 and 9 of this bill amend "The Corporation Business Tax Act," (P. L. 1945, c. 162), and the "Savings Institute Tax Act," (P. L. 1973, c. 31) respectively, so as to exempt from taxation interest income received on any loan made to an employee stock ownership of a business. Section 10 of this act amends the Gross Income Tax Law to provide for the same exemption.

There is no precedent for providing the broad and extensive tax exemptions which are contained in this bill. At the present time, no other interest on income is exempt from taxation in New Jersey, including interest received on New Jersey obligations and United States obligations.

Furthermore, Section A of the "Worker Owned Corporation Study Act," (P. L. 1981, c. 82), requires the Commissioner of Labor to submit to the Legislature an annual report concerning the formation of new employee stock ownership trusts and the operation of existing employee stock ownership trusts in this State. In light of the overall responsibilities of the Department of Commerce and Economic Development created under Assembly Bill No. 3325, it should also be the responsibility of the Commissioner of the Department of Commerce and Economic Development to prepare these reports to the Legislature.

Finally, this bill charges the Department of Commerce with various specifically defined obligations but fails to provide an appropriation to allow them to carry out these functions. The Department of Commerce has advised me that the cost of fully implementing this bill would be approximately \$140,000.00 per year. Accordingly, I am recommending that such an appropriation be made.

Accordingly, I herewith return Assembly Bill No. 3325 and recommend that it be amended as follows:

Page 1, Title, Line 2: Delete “, amending P. L. 1945, c. 162 and P. L. 1973, c. 31”

Page 1, Title, Lines 3-4: Delete line 3; delete “Statutes” on line 4 and insert “making an appropriation therefor”

“8. The commissioner shall annually submit to the Legislature a report concerning the formation of new employee stock ownership trusts and the operation of existing employee stock ownership trusts in this State, and shall include in the report an account of State activity, during the previous year, in connection with these trusts.”

This section supersedes the annual reporting requirements previously assigned to the Commissioner of Labor under section 6 of P. L. 1981, c. 82 (C. 34:1B-35).

“9. There is appropriated \$142,000.00 from the General Fund in order to effectuate the purposes of this act.”

Assembly Committee Substitute for Senate Bill No. 1485
and Assembly Bill No. 1972

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 with my objections and recommendations for amendment.

The purpose of this bill is to amend N. J. S. 2C:58-3 and 2C:58-4. The bill raises the fee for a permit to purchase a handgun from \$2.00 to \$20.00. The bill also establishes a \$20.00 fee for a firearm identification card and for a permit to carry a handgun. Where no fingerprint investigation is required on any of the aforementioned applications, the fee will be \$5.00. The bill also changes the disposition of the fees.

In a memo dated June 28, 1983, Legislative Counsel, Albert Porroni, informed my Counsel that the Assembly Committee Substitute for these bills omits language which was added to New Jersey Statute 2C:58-3 by Public Law 1982, Chapter 173 (Senate Bill No. 611 Ses). The provisions of R. S. 1:3-1 do not encompass a correction of this kind of omission and, therefore, enactment of the Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 in its present form would result in the omitted language being removed from subsection 1 as it was written in Public Law 1982, Chapter 173.

Therefore, I herewith return the Assembly Committee Substitute for Senate Bill No. 1485 and Assembly Bill No. 1972 and recommend it to be amended as follows:

ASSEMBLY BILL NO. 379 (ACS) (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 379 (Acs) (OCR) with my recommendations for reconsideration by the Legislature.

This bill would provide that monies received by an electric utility as a reimbursement for costs incurred by the utility must be accounted for as money available to the utility for rate making purposes. The bill would specifically require that monies received by a utility from an insurance company or as the result of a legal action or settlement be applied to reductions in customer rates.

While I am in total agreement with the intention of this bill, the language of the bill does not clearly indicate that money should only be passed through to rate payers when it is appropriate to do so. For example, if a utility facility is destroyed as the result of an accident, the monies received from an insurance company by the utility are needed to rebuild the facility and should only be passed through to rate payers if the rate payers had previously been charged for the cost of rebuilding. A literal reading of the bill as presently written would seem to indicate that the monies must be passed through to rate payers in every case. This contradicts the intention of the bill as stated by the Assembly Commerce and Industry and Senate Transportation and Communications Committees. The Assembly Committee statement to Assembly Bill No. 379 says

specifically that the money should be passed through where rate payers have already been charged for the costs incurred. Additionally, the Senate Committee statement says that the intent of the bill is to prevent situations in which monies reimbursed to the utility are used by the utility for costs incurred while at the same time the rate payers are also charged for the costs. Unfortunately, however, the language of the bill does not make this legislative intent clear and appears to mandate a pass through of the monies reimbursed regardless of whether the rate payers have already been charged for the costs.

Accordingly, I herewith return Assembly Bill No. 379 (Acs) (OCR) with the following amendments for enactment by the Legislature:

Page 1, Section 1, Line 4: After "received" INSERT "by the utility".

Page 1, Section 1, Line 4: After "reimbursement" DELETE "to the utility"

ASSEMBLY BILL No. 483 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 483 (OCR) with my objections and recommendations for amendment.

This bill amends N.J.S. 2C:44-5 to provide that when a defendant is sentenced to a term of imprisonment for an offense committed while released pending disposition of a previous offense, either while released with or without bail, the term of imprisonment for the second offense shall run consecutively to any sentence of imprisonment imposed for the previous offense unless the court orders the sentences to run concurrently.

I strongly support the changes proposed in A-483. I have long advocated that persons who commit a second offense while released on bail for a prior offense, should be required to serve consecutive rather than concurrent terms of imprisonment. Such an offender has breached the public trust, and the offender should not be given immediate leniency by the sentencing court.

This problem is broader than just committing an offense while out on bail. What about offenders who commit a subsequent offense while released on parole or probation, or who are serving a suspended sentence? A public trust is also reposed in these persons. If an offender violates that trust, why should society not expect that offender to serve a sentence consecutive to the sentence for the original offense? The offender committed two separate crimes and should be punished for having committed two separate crimes.

N.J.S. 2C:44-5 deals with all of the above issues. A-483 was released from the Assembly Judiciary, Law, Public Safety and Defense Committee after an agreement was reached between the Administration and the Assembly committee regarding comprehensive amendments to N.J.S. 2C:44-5. A-483 was released along with A-1550, and it was the intention of the committee that these two bills be treated as a package. The package has bipartisan support as A-483 is sponsored by a Democrat and A-1550 is sponsored by a Republican. The Assembly honored that commitment and passed A-483 (70-0) and A-1550 (69-0) on May 26, 1983. Both bills were referred to the Senate Judiciary Committee, and that committee considered and released both bills one right after the other on June 27, 1983. At that time, testimony was presented to the committee by my office informing the Senators of the prior agreements regarding these bills which were concluded in the Assembly. When A-483 was posted on the Senate Board list for August 29, 1983, my office immediately contacted the Senate and requested that the earlier agreement be honored and that A-1550 be considered by the full Senate along with A-483. Since the passage of A-483, my office has requested at every Senate session that the Senate consider A-1550. To date this request has been denied.

A-483 and A-1550 should be treated as a package. Together, these two bills will effectuate a beneficial comprehensive change to our criminal statutes. Persons who commit multiple offenses while released under some form of public trust should be required to serve a separate sentence for each offense.

In light of the agreement reached between my Administration and the Assembly Judiciary, Law, Public Safety and Defense Committee, I herewith return Assembly Bill No. 483 (OCR) for reconsideration and recommend that it be amended as follows:

ASSEMBLY BILL NOS. 1121 AND 1647 ACS

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill Nos. 1121 and 1647 ACS with my objections, for reconsideration.

The purpose of this bill is to create both a unit within the Division of State Police to deal with missing persons and unidentified bodies, and a commission to advise the Attorney General on matters dealing with missing persons.

While I support the concept of this bill, the legislative history of this bill indicates that there will be a substantial cost associated with the creation of a missing persons unit and a commission, and yet, there is no appropriation contained in the bill. The Assembly Fiscal Note estimates the start-up costs in the first year to be \$308,000.00. This fiscal note, however, only estimates that start-up costs for the unit and not the commission. ASSEMBLY BILL No. 1442 (2 OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 1442 (2 OCR) with my objections, for reconsideration.

The purpose of this bill is to make it a disorderly persons offense for a weapons dealer to advertise in a newspaper the sale of machine guns or semi-automatic rifles unless the advertisement specifies that the purchaser must hold a valid license to purchase and possess such a weapon.

This bill is technically deficient. As released from the Assembly committee, any advertisement for the sale of machine guns or semi-automatic rifles was required to include a statement that the purchaser must possess a valid "permit" to purchase and possess a machine gun or semi-automatic rifle. The Senate committee amended the bill by substituting the word "license" for the word "permit."

The Senate committee's statement is correct in citing the current law with regard to machine guns; however, it overlooks the current law regarding semi-automatic rifles. Under neither federal law nor state law is a semi-automatic rifle considered a machine gun, and there are different requirements for the purchase of each. N.J.S. 2C:39-5 provides that the possession of a machine gun without a license is a crime of the third degree, and the Senate committee is correct that N.J.S. 2C:58-5 provides that if a person wishes to possess a machine gun, the purchaser must first obtain a "license." This, however, is not the case for semi-automatic rifles. N.J.S. 2C:58-3b. provides that "no person shall sell . . . nor receive, purchase or other wise acquire a rifle . . . unless the purchaser . . . possesses a valid firearms purchaser identification card . . ." Under current New Jersey law, a purchaser of a semi-automatic rifle is only required to possess a valid firearms purchaser's identification card and not a license while a purchaser of a machine gun is required to possess a license. To require sellers of machine guns and semi-automatic rifles to include in their advertisements a statement that the purchaser shall hold a valid license to purchase or possess a machine gun or semi-automatic rifle is a misstatement of current law and technically incorrect.

If the Legislature intended a purchaser of a semi-automatic rifle to possess a license, then A-1442 is unclear. If the Legislature intended such a purchaser to possess a license, then other sections of the New Jersey Statutes, such as N.J.S. 2C:58-5 and N.J.S. 2C:58-3b., need to be amended also. In addition, the bill is totally silent regarding automatic rifles. Need a purchaser of automatic rifles obtain a license? Under current law he does not. I do not believe the Legislature intended to have this bill cover semi-automatic rifles

but not automatic rifles. N.J.S. 2C:39-1 f. defines "Firearm" as "any . . . machine gun, automatic or semi-automatic rifle . . ." Clearly, the statute makes a distinction between these three different types of firearms.

If the Legislature intends purchasers of automatic or semi-automatic rifles to obtain a license, then this bill is unclear and further sections of the New Jersey Statutes need be amended. If the Legislature did not intend to change current law, but only require a person who offers to sell a weapon to advertise that a purchaser must have a license or firearms identification card depending on the type of weapon purchased, then accordingly, I herewith return Assembly Bill No. 1442 for reconsideration and recommend that it be amended as follows:

Page 1, Section 1, Line 5: After "or", INSERT "a valid firearms identification card to purchase and possess an automatic or"

ASSEMBLY BILL NO. 1531 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1531 (2nd OCR) with my recommendations for reconsideration.

Assembly Bill No. 1531 provides for the regulation of State owned residential housing whether occupied by State employees or rented to the private sector. The bill would create in the Department of Treasury a Residential Housing Management Board to establish equitable, coordinated and uniform policies on State owned residential housing. Membership on the Board would consist of the State Treasurer, the President of the Civil Service Commission and the Commissioner of Community Affairs.

The Board would be responsible for the management of all State owned residential housing with the exception of armories or military housing in the Department of Defense, State college student housing, housing for State college presidents and certain housing acquired by the Department of Transportation.

The Board would establish policies with respect to the need and acquisition of State owned housing; the rental rates, utility charges and maintenance fees charged to the occupants; eligibility standards for occupancy; procedures for application and selection of occupants; landlord/tenant rights; and policies on mandatory occupancy as a condition of employment. The Board is required to direct

the sale of any employee housing located off State grounds unless there is a "clear and convincing evidence" that it serves "an essential State purpose."

Reduction or waiver of rental rates, utility charges or maintenance fees would be prohibited. However, any employee receiving a reduction or waiver pursuant to an employment contract would continue to receive the reduction or waiver until the expiration of that contract

The bill contains additional provisions prohibiting subletting, discrimination and creating a Housing Advisory Committee for the Board. In addition, a Residential Property Management Fund would be created. The Board would be required to submit an annual report to the Legislature through the Governor's budget message on administration of the act and identification of funds. The Board would be required to conduct an annual survey of housing units and to establish and review annually a schedule of housing rental rates, utility charges and maintenance fees.

Since the drafting and introduction of this bill I issued Executive Order No. 15 effective January 1, 1983 which regulates the issues covered by this bill. I am advised by my departments that the provisions in the Executive Order have proved effective in regulating State employment housing. Accordingly, I am recommending a conditional veto to incorporate in this bill some of the provisions of my Executive Order and to assure appropriate cabinet involvement in policies governing State owned housing. My recommendations are as follows:

- 1) The membership on the Residential Housing Board should be expanded to include the Commissioner of Corrections, the Commissioner of Environmental Protection, the Chancellor of Higher Education, the Commissioner of Education, the Commissioner of Human Services in addition to the State Treasurer, the President of the Civil Service Commission and the Commissioner of Community Affairs as provided in the bill.

- 2) I suggest that the scope of the bill be limited to State owned employee housing.

- 3) The Department of Corrections advises that it is essential to the efficient and safe operations of the State's correctional facilities that superintendents in State correctional facilities be within immediate access of the facility on a seven day a week, 24 hour a day basis. It therefore recommends that its current policies with respect to these officials be retained. In order to assure that the bill will not impinge on this arrangement, I recommend that we include in section 2 of the bill an exception for officers in State correctional facilities similar to the one the bill provides for State college presidents.

- 4) The list of exceptions from the bill set forth in section 2 should also be expanded to include Commissioners of Corrections and Education and the Chancellor of Higher Education in order that

the provision of State housing may continue to be used as part of the employment arrangement for these officials.

5) I suggest that section 3 be amended to clarify that in establishing its policies the Board may take into account the special needs and responsibilities of the various departments. Clearly, housing policies for employees of the Department of Corrections may be very different from those for the Department of Education.

6) I am recommending that sections 5 and 7 of the bill be amended to more closely reflect the provisions of the Executive Order. The Executive Order makes it clear that State employees will be required to pay the fair market value of the State owned housing units which they occupy and that they must pay the utility charges and maintenance charges attributable to their units. However, the Executive Order permits reasonable exemptions or modifications from this rule for reasons which include the fact that residency in the State owned housing is a condition of employment, that the unit is located on institutional grounds and that the charge may be substantially disproportionate to the salary of the employee. I am advised that this mechanism is working well and, accordingly, I see no reason to change it.

7) The executive branch should have a reasonable amount of flexibility in determining whether employee housing units should be maintained. In addition, the concurrence of the interested cabinet officer should be obtained before State housing for his employees is sold. Accordingly, I am recommending that section 6 of the bill be modified to enable the board to sell state employee housing which it finds unneeded for state use, provided the interested cabinet officer concurs. In addition, I recommend that in accordance with current practice, the State House Commission approve and fix the terms and conditions of the sale.

8) I suggest the deletion of language in section 11 which directs that the board provide a report to the Legislature through the Governor's Budget Message. I would not like to have the Governor's Budget Message burdened with various ancillary reports and find no need to have this report made through the Governor's Budget Message.

9) I am recommending a technical amendment to Section 12 of the bill which refers to the "chief examiner and secretary" in the Department of Civil Service. This title was abolished by P. L. 1982, c. 181 and the function is now performed by the President of the Civil Service Commission. As a result, the language should be changed.

Accordingly, I herewith return Assembly Bill No. 1531 (2nd OCR) and recommend it be amended as follows:

Page 1, Section 1, line 4: After "Commission" insert " , the Commissioner of Corrections, the Commissioner of Environmental Protection, the Chancellor of Higher Education, the Commissioner of Education, the Commissioner of Human Services"

ASSEMBLY BILL NO. 3128 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3128 (OCR) with my recommendations for reconsideration.

Assembly Bill No. 3128 amends the "Local Public Contracts Law" to permit up to seven year contracts for the leasing of firefighting equipment with an option to purchase. Currently, the general rule in the "Local Public Contracts Law" is that local government contracts shall have a one year duration. However, the law permits certain exceptions from this limitation. One of the exceptions permits contracts for the leasing or servicing of motor vehicles, machinery and equipment (which would include firefighting equipment) to last three years. Assembly Bill No. 3128 provides an additional exception which permits seven year leasing contracts with an option to purchase for firefighting equipment and motor vehicles. I am advised that due to the expensive nature of fire equipment seven years is a more realistic time frame for a lease purchase plan for fire equipment and I therefore support this change.

The statute now requires that multi-year contracts, with limited exceptions, be subject to the annual availability and appropriation of funds. Assembly Bill No. 3128, exempts contracts for the lease purchase of firefighting equipment from this general requirement. I know of no reason justifying this exception and accordingly, recommend that it be deleted from the bill. There is also a minor grammatical error appearing in a previous amendment to the statute (*viz.*, P. L. 1983, c. 176), which reappears in this bill. I recommend that this error be corrected at this time.

Accordingly, I herewith return Assembly Bill No. 3128 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, line 4: Insert "the" before "furnishing" and insert "of" after "furnishing"

Page 3, Section 1, lines 74, through 76: On line 74 delete "or the leasing or servicing of fire fighting" delete line 75 in entirety and on line 76 delete "above,"

ASSEMBLY BILL NO. 3172 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3172 (2nd OCR) with by recommendations for reconsideration.

This bill provides that a person who is unemployed or has received a layoff notice as a result of a factory or plant closing may enroll in a job training course at a public college without paying tuition, provided that available classroom space permits and that tuition-paying students constitute the minimum number required for the course. This bill also provides that to be eligible for enrollment in a course on a non-tuition basis, the person must have been in the labor market for at least two years and must not be eligible for any available State or federal student financial aid. A public college may require a registration fee not to exceed \$20 per academic term.

This bill further provides that in order to remain eligible for the program, the person shall be required to maintain a passing grade in the job training course in which he is enrolled. These students shall be included in the public colleges' State aid calculations.

Although I fully agree with the intent and purpose of this bill—which is to enable unemployed workers to secure the skills necessary for gainful reemployment—I am concerned that it without justification provides that such students shall be included in the public colleges' State aid calculations. In light of the fact that this bill provides that such students may only enroll in courses where available classroom space permits and where tuition-paying students constitute the minimum number required for the course, I do not believe that the public colleges will incur any additional costs for servicing these students. Any minimal costs that the colleges may incur could be met through the \$20 registration fee which the colleges are authorized to charge per academic term.

I am also concerned that as used in this bill, the term "labor market" is not defined. Therefore, the actual scope of this bill is unlimited, and it may apply to any variety of technical as well as non-technical labor positions. This bill also does not ensure that the

job training will be for jobs that currently exist or will exist in the future. To ensure that the programs will operate in the most cost-efficient manner possible, I believe that they should contain safeguards providing that the jobs training courses must be for jobs which presently exist or will exist in the near future. More importantly, I am concerned that this bill does not address linkages with other employment and training activities required by the Federal Job Training Partnership Act of 1982, and the State Jobs Training Program which I signed on September 1, 1983. I believe that any jobs training program for displaced workers should require that each public college implement their programs in conjunction with the jobs training programs organized under the State and Federal acts. I strongly recommend that the New Jersey Board of Higher Education address my concerns when promulgating rules and regulations necessary to effectuate the purposes of this act.

Accordingly, I herewith return Assembly Bill No. 3172 (2nd OCR) and recommend that it be amended as follows:

Page 2, Section 4, Lines 1-4: Delete in entirety.

ASSEMBLY BILL NO. 3355 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3355 (OCR) without my signature.

Assembly Bill No. 3355 (OCR) authorizes the governing body of municipalities to regulate and license by ordinance mobile home parks and permits a municipality by ordinance to charge an annual fee for a mobile home park license. The bill places a limitation of \$200 on a mobile home park license fee. However, if on the effective date of this act, the municipality charges an annual license fee in excess of \$200, then that amount shall be the maximum fee for that municipality. The bill also provides that a mobile home park owner or operator may sell the first mobile home located on each site to be leased within the mobile home park.

No evidence has been presented to me demonstrating that a limitation of \$200 on a mobile park license fee is reasonably related to the cost incurred by a municipality in exercising its regulatory functions

over mobile home parks. For this reason, I find no need for this limitation in our laws.

Accordingly, I herewith return Assembly Bill No. 3355 (OCR) and I recommend that it be amended as follows:

ASSEMBLY BILL NO. 3464 (OCR)

To the General Assembly:

Pursuant to Article V, Section 1, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3464 (OCR) with my recommendations for reconsideration.

This bill establishes a three year reporting and study program on liquor law liability loss experience for bars, taverns and other establishments that install breath analyzer machines, comparing their loss experience with bars that do not install these devices. The Commissioner of Insurance is required to determine if that experience justifies a differentiation in premium rates and to make a report with recommendations to the Governor and the Legislature within 90 days after the three year period.

There are two problems in this bill that the Department of Insurance raises. One is the vagueness of the term "loss experience" in the bill. Loss experience would be *any* claim whether or not it is alcohol induced or alcohol related. Therefore, for the statistics to be valid under this act, loss experience should be based on alcohol related claims.

Secondly, the Department of Insurance feels that 90 days is too short a period for them to compare the different statistics provided under this bill to render a report and believe they could put together a much more valuable report for the Legislature and Governor if the time frame were extended to six months.

I find it hard to believe that the Legislature feels that this bill addresses the issue of drunk driving in the State of New Jersey. This bill is insignificant compared to the more important drunk driving bills that have been pending in the Legislature for the past eleven months, such as the Drunk Driving Enforcement Fund bill (which will target funds for overtime police patrols to focus on drunken drivers), the implied consent bill (which will provide a more effective manner for trying drivers accused of drinking while intoxicated), and other bills dealing with education and rehabilita-

tion. These are the bills that will have an impact by discouraging people from drunk driving and providing for a greater number of convictions of those who do drink and drive.

This bill does nothing more than compile statistics to determine whether taverns that use breath analyzers should have reduced insurance premiums. I would ask the Legislature to deal with the more important aspects of the drunk driving package.

Accordingly, I herewith return Assembly Bill No. 3464 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 4: After "experience" add "due to alcohol related claims"

Page 1, Section 3, Line 2: After "experience" add "due to alcohol related claims"

Page 1, Section 3, Line 9: Delete "90" add "180"

ASSEMBLY BILL NO. 3572 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3572 (OCR) with my objections for reconsideration by the Legislature.

This bill would require the Department of Transportation, in consultation with the Department of Environmental Protection, the Department of Labor, the Department of Commerce and Economic Development, the Division of Motor Vehicles and the Division of State Police, to adopt within 120 days rules and regulations concerning the transportation of hazardous materials. The bill requires that these regulations conform to the maximum extent practicable to existing federal regulations in this area. The bill would also create in the Division of State Police an Office of Hazardous Materials Transportation Compliance and Enforcement to coordinate the implementation and enforcement of the rules and regulations adopted by the Department of Transportation and would appropriate \$50,000 for the establishment of that office.

Unfortunately, this bill is defective in that the requirement that the regulations be promulgated by the Department of Transportation within 120 days is unrealistic. The federal regulations which would, as the bill requires, serve as a basis for the department's rules and regulations are extremely voluminous. The department could not adopt the regulations within 120 days unless it adopted them as a whole. This would be extremely unwise since some of the federal

regulations undoubtedly conflict with existing State regulations. The Department of Transportation needs 12 months so that they can promulgate the regulations in a more judicious and selective way. This is the time period given to the department pursuant to an almost identical bill, S-291, sponsored by Senator Bassano and I would recommend that this legislation be brought into conformance in this respect with the Bassano legislation.

Accordingly, I herewith return Assembly Bill No. 3572 (OCR) with the following amendment for enactment by the Legislature:

ASSEMBLY BILL No. 3600 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3600 (2nd OCR) with my recommendations for reconsideration.

Assembly Bill No. 3600 entitled the "Manufactured Home Taxation Act" provides for the taxation of manufactured homes. Under the provisions in this bill, a manufactured home which is installed in a mobile home park shall be exempt from real property taxation. Other manufactured homes which are affixed to the land on which they are sited by a permanent foundation or affixed by a non-permanent foundation and connected to utility systems so as to render the home habitable as a dwelling on a permanent basis will be subject to real property taxation. In addition, the bill provides clarification of the treatment of manufactured homes under the Sales and Use Tax Law, providing that the sales tax shall be applied against the manufacturer's invoice price of a manufactured home upon the first sale of the home. In addition, the bill clarifies that the manufactured homes which are subject to real property taxation shall be treated as real property under the Transfer Inheritance and Estate Tax Law.

In lieu of real property taxation, the bill provides that manufactured homes located in mobile home parks will be subject to an annual municipal service fee. In fixing the fee, the municipality must take into account the extent that the real property taxes assessed against the land and improvements in the park defray the cost of governmental services provided to the park. The municipal service fee is to be collected by the mobile home park owner on a

monthly basis from the owner of the manufactured home. The fee is then transmitted to the tax collector. The Commissioner of the Department of Community Affairs is given the power to promulgate rules and regulations concerning the calculation of the municipal service fee and its allocation among manufactured homeowners.

I am proposing modifications to the provisions in the bill concerning the municipal service fees. Rather than have the Department of Community Affairs determine by regulation how the municipal fee shall be calculated and allocated among the owners of manufactured homes, I believe that this issue is better left to local governments. Accordingly, I am recommending that we delete from the bill the requirement that the Commissioner of the Department of Community Affairs promulgate rules and regulations governing the calculation and allocation of the municipal service fee. Instead I would require the municipal ordinance to set forth the manner in which the municipal service fee shall be allocated among homeowners in mobile home parks.

Currently, the bill provides that no municipal service fee may be charged for a site that has been unoccupied for more than 90 consecutive days. I find no justification for a complete exemption from a municipal service fee where a site has remained unoccupied for only 90 days. Accordingly, I am recommending that this provision be deleted from the bill. In order that some adjustment may be made in the municipal service fee for months in which the site is unoccupied, I am recommending that language be inserted in the bill to require the ordinance imposing the municipal service fee to provide for the proration of a fee in order to account for vacancies in the mobile home park.

To assist in collection and enforcement of the municipal service fees, I am recommending a provision to enable a municipality to charge interest on delinquent municipal service fees. Where the homeowner has failed to pay the municipal service fee, he shall be charged the interest; where the park owner has failed to transmit the fees actually collected to the municipality the interest payment shall be made by him. The rate of interest will be fixed within the limits established for interest charged for delinquent property taxes pursuant to R.S. 54:4-67.

I am also recommending an amendment which would govern the treatment of this fee under any rent control or rent levelling ordinance. In addition, I am recommending language which would treat municipal service fees as rent for eviction purposes.

I note that the effective date provision of this bill provides that the act shall take effect immediately but shall remain inoperative until Assembly Bill Nos. 3355, 3601, 3602 and 3603 of 1983 are enacted into law. This contingency arrangement is unnecessary. Accordingly, I am recommending that this provision be amended to have the act take effect immediately.

In addition, I am recommending correction of various printer's errors in the bill as set forth below.

Accordingly, I herewith return Assembly Bill No. 3600 (2nd OCR) and recommend that it be amended as follows:

Page 4, Section 4, line 2: After "section" insert "and in P. L. 1982, c. 220 (C. 54:4-23a)"

ASSEMBLY BILL No. 3081 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3081 (OCR) with my recommendations for reconsideration.

This bill appropriates \$15,000,000.00 to the Department of Environmental Protection from the Natural Resources Fund created pursuant to the Natural Resources Bond Act of 1980. The Act authorized \$15,000,000.00 for dam restoration for State projects, for matching grants to local governments, or for emergency repairs to local or private dams. This bill appropriates funds for matching grants to local governments for 19 dams enumerated in the bill and for administrative costs.

The Senate Revenue, Finance and Appropriations Committee amended the bill by adding six additional projects to the list of projects approved for funding by the Department of Environmental Protection. These six projects have not been included on the Department's dam restoration project priority list, but are currently under consideration for funding as part of next year's list. It would be premature to provide funds for these projects until they are fully evaluated as part of the Department's prioritization process.

Accordingly, I herewith return Assembly Bill No. 3081 (OCR) and recommend that it be amended as follows:

Page 1, Section 1, Line 4: Delete "\$15,000,000.00" and insert "\$10,300,000.00"

ASSEMBLY BILL No. 3173 (2nd OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3173 (2nd OCR) with my recommendations for reconsideration.

This bill provides that a person who is unemployed or has received a layoff notice as a result of a factory or plant closing may enroll in a job training course at a county college without paying tuition, provided that available classroom space permits and that tuition-paying students constitute the minimum number required for the course. This bill also provides that to be eligible for enrollment in a course on a non-tuition basis, the person must have been in the labor market for at least two years and must not be eligible for any available State or federal student financial aid. A county college may require a registration fee not to exceed \$20 per academic term.

This bill further provides that in order to remain eligible for the program, the person shall be required to maintain a passing grade in the job training course in which he is enrolled. These students shall be included in the county colleges' State aid calculations.

Although I fully agree with the intent and purpose of this bill—which is to enable unemployed workers to secure the skills necessary for gainful reemployment—I am concerned that it without justification provides that such students shall be included in the county colleges' State aid calculations. In light of the fact that this bill provides that such students may only enroll in courses where available classroom space permits and where tuition-paying students constitute the minimum number required for the course, I do not believe that the county colleges will incur any additional costs for servicing these students. Any minimal costs which the colleges may incur could be met through the \$20 registration fee which the colleges are authorized to charge per academic term.

I am also concerned that as used in this bill, the term "labor market" is not defined. Therefore, the actual scope of this bill is unlimited, and it may apply to any variety of technical as well as non-technical labor positions. This bill also does not ensure that the job training will be for jobs that currently exist or will exist

in the future. To ensure that the programs will operate in the most cost-efficient manner possible, I believe that they should contain safeguards providing that the jobs training courses must be for jobs which presently exist or will exist in the near future. More importantly, I am concerned that this bill does not address linkages with other employment and training activities required by the Federal Job Training Partnership Act of 1982, and the State Jobs Training Program which I signed on September 1, 1983. I believe that any jobs training program for displaced workers should require that each county college implement their programs in conjunction with the jobs training programs organized under the State and Federal acts. I strongly recommend that the New Jersey Board of Higher Education address my concerns when promulgating rules and regulations necessary to effectuate the purposes of this act.

Accordingly, I herewith return Assembly Bill No. 3173 (2nd OCR) and recommend that it be amended as follows:
